

# CITY COUNCIL IN REGULAR SESSION

## City Employees Engineer Who Will Superintend Paving.

From Tuesday's Daily  
All of the members of the council were present last evening at the opening of the session, except A. S. Will, who is absent from the city.

After the formalities of the roll call the minutes of the previous regular meeting and of the special meeting on the 20th inst., were read and approved without change.

Mayor Sattler then stated that in compliance with the vote of the council, authorizing him to employ a capable engineer to oversee the paving and set the grade stakes in district No. One, he had consulted with an engineer from Lincoln and also had talked with a representative of the Consolidated Engineering Company of Omaha, and that he had employed the Consolidated Engineering company who was represented at this meeting by Mr. Camplan, who had made the original survey and estimate of the cost of paving. That the contracts were ready to be signed and approved by the council.

The finance committee reported on the audit of the books of ex-clerk Elster reporting that everything in the books was satisfactory.

Some minor repairs were ordered done, after allowing the following bills, after having been in the hands of the claims committee:

W. Egenberger, labor	\$ 6 00
W. Egenberger, labor	4 00

The following regular grist was allowed by the council and warrants ordered drawn:

Phil. Harrison, labor	\$ 21 40
J. Wynn, labor	36 40
W. Scott, labor	24 40
W. B. Rishel, labor	36 05

R. Henry, salary	6 25
C. M. Manners, salary	6 25
Geo. Gobleman, salary	6 25
James Donnelly, salary	10 75

Mr. Camplan then arose and thanked the council, and stated as he was the engineer, there would be a force of men in the field Tuesday morning, to which the Mayor answered that he hoped the matter would be pushed as rapidly as possible.

Communications were then called for, and a petition from citizens in the Second ward asking that the bridge on Thirteenth street between Pearl and Locust streets be placed in repair, the matter was referred to the proper committee. A petition was presented asking for permanent crossings on Pearl, Granite, Rock and Marbel streets, which was referred to the streets, alleys and bridges committee.

The report of the streets, alleys and bridges committee on the walk ordered down on Silver street, was read and the matter referred to the Third ward councilman, on a vote of the council.

Councilman Weber, of the streets, alleys and bridges committee, further reported for the committee that the opening of Porter street in the Fifth ward was within the territory of the Fifth ward councilman, and he moved that the opening of this street be referred to the councilmen of the Fifth ward, which was voted.

Mr. Weber reported on getting a rattle to test the brick, and that a rattle would be an expensive luxury and that it was next to impossible to borrow or hire one, so that the committee recommended that a sample of brick from each car be sent to Omaha and be tested there before being placed in the pavement. This suggestion will be followed.

Mr. Neuman then got the floor and wanted the council to tell him when some of the work which had been ordered done last spring was going to be done, and that he was growing tired of the delay and he would be pleased if the streets, alleys and bridges committee would do some of the things which the council had ordered. He was replied to by Mr. Weber from the committee, and Mr. Schulhof from his own ward, and from the tenor of these talks it appeared that part of the work had been done and that the committee was getting around as fast as possible. Mr. Neuman then stated that there was a hole near his own property which could now be fixed for \$50.00 maybe, or maybe more, and if let go would cost the city \$200.00 or \$300. It was moved by Schulhof that the work be done, and all councilmen voted aye, except Mr. Neuman, who voted nay.

It was then voted, on the motion of Mr. Neuman, of the Fourth ward, that the water company be required to place a post by the side of the pipe at the corner of Fifth and Main streets to support the perpendicular pipe with which the company fills the sprinkler wagon.

A communication from Mr. William Baird, stating that he had received with some surprise, the notice of the council to the Burlington to place bannisters over the foot-bridge on Rock Bluff avenue, and stated that the notice did not specify definitely where the bridge was located, and that the company owned no property on that avenue, and that if it did, the writer had no authority to move in the matter as he was a mechanical superintendent and that his jurisdiction ended with the shop fence. On motion of Mr. Schulhof the matter was referred to the Fifth ward councilman.

A communication from the Light company, requesting the council to have the city attorney draft a contract for about forty-one tungsten electric lights to be in use from midnight until five o'clock a. m., as the company had been solicited by some of its patrons for the all night service. This matter was referred to the light committee.

The officers elected last evening were J. P. Sattler, president; Rev. V. H. Steger, secretary, and Frank Neuman, treasurer.

The following regular grist was allowed by the council and warrants ordered drawn:

Phil. Harrison, labor	\$ 21 40
J. Wynn, labor	36 40
W. Scott, labor	24 40
W. B. Rishel, labor	36 05
J. Rebal, labor	24 00
J. Mrasek, work	11 80
Ben Rainy, salary	28 00
Frank Kaubel, labor	50

R. Henry, salary	6 25
C. M. Manners, salary	6 25
Geo. Gobleman, salary	6 25
James Donnelly, salary	10 75

Mr. Camplan then arose and thanked the council, and stated as he was the engineer, there would be a force of men in the field Tuesday morning, to which the Mayor answered that he hoped the matter would be pushed as rapidly as possible.

## RIVERMAN HAS A VERY CLOSE CALL

Last evening one Samuel Severson, who with his wife and five children have boated down the Missouri river from Ft. Reno, Montana, during the summer, got an over dose of bug juice and got the notion in his noodle that he was stronger than a locomotive and a train of cars. Samuel was at the Burlington station about midnight, sheltering from the chill night air, and was in company with another man, who was about as full as himself. Night Operator Moore routed them out of the station and Severson started down the track toward his house boat near the big bridge.

Night Police H. Trout started down the track some time after the men left the station and about half way between the elevator and the mouth of Happy Hollow, he came upon Severson lying on the track asleep, lying across the main line track. Just at that time he heard the rumble of extra No. 1970, which was due to pass the station at 1:33 a. m. The policeman heard it whistling all aboard, as it came down from the west and he aroused the sleeping man, who muttered that he was not afraid of any engine that was ever made, and that let them try to run over him if they dared. Mr. Trout seized him by the arm and tried to drag him from the track, but the man seized the rail and insisted on staying where he was.

The policeman finally unloosened his hold and got him out of the way just in time to let the extra by without injuring the drunken man. Mr. Trout brought Severson to the jail, where he rested till morning. He was taken before Judge Archer, where he declared this was the first time he had ever been in an intoxicated condition in his whole life. With this understanding the judge allowed him to go back to his boat and family.

Mrs. Pierce Is Dead.

# ORGANIZE GERMAN SOCIETY

## Meeting Held Last Evening to Bring Germans Together.

From Wednesday's Daily.  
Jacob Houck, of Omaha, correspondent for all leading German newspapers in the United States, was in the city and met with the Sons of Herman last night, and steps were taken to organize the German society spoken of in these columns some days ago.

The meeting was generally attended and an organization affected consisting of fifty-seven members, which it is expected will be increased to one hundred and fifty before the 15th of October next.

On the 5th and 6th of October there will be a general meeting of all of the branch societies at Lincoln, and the state organization perfected. The purpose of the organization is to unite the Germans of America and of the state of Nebraska in their language and customs. The movement has gathered considerable force and will be largely increased in membership before the meeting of the state organization next week.

The officers elected last evening were J. P. Sattler, president; Rev. V. H. Steger, secretary, and Frank Neuman, treasurer.

The following regular grist was allowed by the council and warrants ordered drawn:

Phil. Harrison, labor	\$ 21 40
J. Wynn, labor	36 40

W. B. Rishel, labor	36 05

Miss Julia Kerr will take the early morning train over the Missouri Pacific Friday morning for Omaha, and at 4:10 in the afternoon will start over the Union Pacific for San Francisco, Calif., at which point, and on October 5th, she will board the government transport, "Sherman" for the Philippine Islands. It will be the first part of November before she will reach her destination, it taking thirty days alone for crossing the Pacific ocean. Miss Kerr expects to make her home with an aunt, Miss Maria Gilman, who is a sister of Mrs. Kerr. Miss Gilman is postmistress at Ft. McKinley, which is located about six miles from Manila. Miss Gilman has been located at the Philippine Islands for the past eight or nine years, and has returned to the states but once in that time. When she first went over there she taught school in one of the provinces, but during the recent years has been postmistress at the fort. These provinces are as large, and even larger, than our own county and in the one in which Miss Gilman taught, she was the only white woman in the province. Miss Gilman has visited her sister in this city a couple of times, and each time made several acquaintances who will be pleased to learn that she is so well situated. Miss Kerr is expecting to assist in the postoffice or teach in the school, which is conducted for the benefit of the army officials' children. We join Miss Kerr's many friends in wishing her a safe and pleasant journey, and trust that she will be pleased with her new location.

## Enjoy Dog Roast.

From Wednesday's Daily.  
The Indians finished two days of festivities last evening, during which the ancient custom of dining on the juicy meat of a dead canine was enjoyed by the braves. It is rarely that this toothsome viand is served in such royal style as at the recent dog roast. It is now apparent why two very valuable dogs disappeared this week. Dog fanciers need have no fears, however, in future, as this feast only occurs at very long intervals. It has always been the custom for an officer of high station to furnish the dog for such occasions, hence the fact that Constable Denson was called on to sacrifice his valuable cur. A Nitka's faithful animal probably served the same valuable purpose. Grand Sachem J. C. York, was interviewed on the matter of where the subjects for the roast were obtained, but with characteristic silence of the tribe, shook his head, and declined to talk.

Go Before the Board.

From Wednesday's Daily.  
The friends of Wes Clark, of Union, appeared in the city last evening and with Mr. Clark had a hearing before the board of insanity, to have steps taken to commit Clark to the asylum for inebriacy.

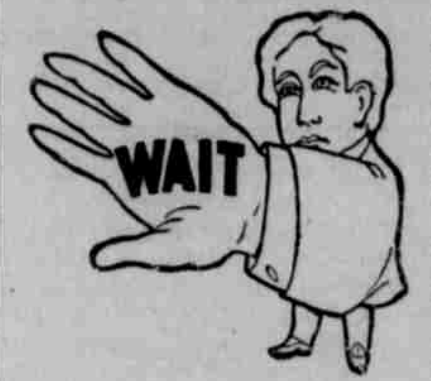

The following named gentlemen were before the board as witnesses: Dr. Barrett, Gabe Austin, W. B. Banning and Reece Delaney. The board found that Clark was a proper subject for treatment, but on his promise to take the cure for the habit he was allowed to remain at home. It is hoped by his relatives and friends that he will do as he has stipulated, and obtain a cure of the drink habit that will be permanent.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

Wins in Supreme Court.

Attorney A. L. Tidd received a notice from the clerk of the supreme court this morning informing him of the affirmation of the judgment obtained in the district court of this county two years ago, in the case of the estate of Mr. Hinton against the Sovereign Camp, W. O. W. In this case the administrator obtained a judgment for the sum of \$750.00, in the district court of this county, and a monument stipulated by the company to be erected at the grave of the polley holder. The company had no defense except that the deceased was delinquent in payment of assessments.

Injured on Ball Ground.

The first accident of the ball season occurred on the Chicago Avenue grounds yesterday afternoon about 4 o'clock, and Clarence Mason was the unfortunate subject of the accident. Clarence is a great admirer of the sport and enjoys taking part in a game himself. Yesterday afternoon he, with a few others, were engaged in playing catch, using at the time some two or three balls. It is not known how Clarence's attention was attracted from the ball which injured him, which was thrown by Wayne Dickson, but in some unaccountable way his attention was diverted for the instant and the ball landed fairly on Clarence's mouth, knocking him almost senseless for the instant, and dislodging a tooth. He fell and for a short time was deathly sick. Dr. Cook dressed the injury, and applied remedies to reduce the swelling. Clarence was able to be on his feet today, but had a very sore face.
