Word has been received from "Scotty" and Kelly, the trappers, who left here some time ago for the north in search of rare specimens of the furred animals. A beautiful crayon sketch from Scotty shows where their traps are filled to overflowing with muskrats and even two rats in a trap. It is almost the dream of the Pied Piper of Hamelin.

Sunday was the time of a very enjoyable occasion at the home of Henry Creamer in a reunion of the Creamer family. Those present were: Chas. Creamer and family, Angle Read and family, from Falls City; T. T. Young, from Ashland; George Mutz and family, from Omaha; and Byron Read and family, of Murray. The Presbyterian Tureen dinner at the church was quite a success and a great amount of work for the coming "Country Fair" was accomplished. The "County Fair" will be December 3, at the hall.

The girls of the Sunshine Band decided to build a walk in front of their church, and with the help of Lloyd Gappen, soon accomplished their undertaking, as the money was raised and the walk made in a week.

On account of the death of Mrs. Mellinger's grandfather, it was necessary to change the program at the church Saturday evening. The girls gave their part of the entertainment and served supper, which netted them a neat sum.

Has Some Good Corn.

H. C. Long was in Plattsmouth on Monday afternoon after a load of hard coal, and took with him a few ears of corn taken from his field this season. They were beauties and if Henry has many acres of this kind of grain he will sure have some corn this year. They were large ears, all well filled and very heavy, and about as good as we ever saw.

Receive Watermelon.

Our good friend, E. M. Moreland, residing near Murray, was in town again today with a fine load of watermelons, and he remembered the Journal with a fine ode. Mr. Moreland formerly lived in Worth county, Missouri, where we lived several years ago, and where farmers know how to raise good melons, and he learned the trick by which it is done. Mr. Moreland has brought quite a number of loads of melons to Plattsmouth this season, and always finds a ready sale for them. The thanks of the entire Journal force is due Mr. Moreland, and may he live long and prosper.

A Distressing Accident.

Joseph Nejedly, of Royal, Nebraska, is visiting friends in the city for a day or so. He was a pleasant caller at this office and while here extended his subscription another year. In conversation with Mr. Nejedly we learned that a week ago last Monday his little five-year-old daughter got hold of a 22 bullet. She placed the bullet on a stone, and then striking it with a hammer. The bullet exploded, the powder striking her in the right eye. The family physician was called, but gave the anxious parents no hope of saving the eye. Mr. Nejedly, thinking there might be a chance by taking her to a specialist, accompanied his little daughter to Omaha last Saturday, where Dr. Gifford was consulted. Mr. Nejedly informs us that Dr. Gifford thinks that he can save the eye. Mr. and Mrs. Nejedly's many friends of this city will be sorry to learn of their little daughter's distressing accident but trust she may recover within a short time and that she will not lose the eye. Mr. Nejedly expects to return to his home at Royal, Nebraska, the middle of next week, providing his little daughter is able to accompany him.

EXAMINES NEW GASOLINE ENGINE

Ernest Wurl Pronounces it First Class in Every Respect.

Mr. Ernest Wurl, who for nine years has been an expert gasoline engine man and in the employ of the Burlington in that capacity, and frequently sent over the company's lines to inspect this sort of machinery, has examined the engine sent here for inspection and is so favorably impressed with it that he is willing to endorse the same as one of the most practical for commercial purposes, he has ever been. Mr. Wurl has examined gasoline engines of every variety of manufacture and with his wide experience is a most capable man to pass an opinion on the engine in question. Mr. Wurl says for simplicity and strength and durability the engine which the proposed Plattsmouth company will make, will excel any now on the market, and that this engine will undoubtedly meet all requirements of any like machinery, and be the engine to fill the wants of the commercial field.

President Falter, of the Commercial club, wired the party desiring to move his plant to this city, that his proposition had been accepted and received a reply to the same, to the effect that the gentleman will come to Plattsmouth on Monday, the 17th inst., to go over the ground thoroughly and probably sign up for the new factory.

THE CENTAUR COMPANY, NEW YORK CITY.

GOVERNMENT CON-TRACTOR HERE TODAY

Mr. H. S. Pelton, president of the General Construction company, arrived in the city this morning to look over the site for the new postoffice, and start the work for the new building. The General Construction company have erected a great many public buildings, and last winter were engaged in erecting one at Council Bluffs, and Mr. Pelton trusts that the coming winter will be more mild so that the work can be carried on without such delay as cold weather will necessitate. He tells us that the work on the foundation will soon be started, and finished before the severe cold weather comes, and if not too severe may be carried right on to completion of the entire building. This is indeed a pleasing situation to the people of Plattsmouth, and the new government building cannot be completed any too soon to please us all. The Journal has placed an order now for a mild winter, and we shall see whether or not it can be filled, which we are confident of if the coal man has not beat us to the shipping clerk, in which case his order will be filled first. So if we do not have a mild winter place the blame to the coal man.

WHEN HER BACK AGHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Plattsmouth women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headache, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Plattsmouth woman's words:

Mrs. James Hodgett, 1102 Main street, Plattsmouth, Neb., says: "I suffered a great deal at times from dull, heavy pains across the small of my back, especially severe when I stooped or brought any strain on the muscles of my loins. About two years ago I learned of Doan's Kidney Pills and they brought me such prompt and positive relief that I have since used them whenever I have felt in need of a kidney remedy. I procured Doan's Kidney Pills at Gering & Co's drug store and do not hesitate to recommend them."

The above statement was given in June, 1906, and on December 30, 1908, Mrs. Hodgett said: "I still hold a high opinion of Doan's Kidney Pills. I am glad to confirm all I have previously said about the remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States

Was a Good Keeper.

William Gilmour, the apple expert, had in his possession this morning a Johnathan apple which was raised last year, and still in a fine state of preservation, apparently, although uncle "Billy" declined to let us take it in our hands. The apple did look good to eat, and there is no telling whether it would have kept much longer had we gotten hold of it.

HOW DELIGHTED

the mother and son are to find in the basket a sack of Forest Rose Flour. After trying some of the "just as good" brand and "get a prize with each sack" kind, they are both glad to come back to the Forest Rose Flour. The mother, because she is sure of the good results of her labor, and the boy because he knows the bread and biscuit will always taste "bully good."
