The friends of Arnold Fitzpatrick gave him a complete surprise at the home of Mr. and Mrs. H. Bee on his 20th birthday. The plans were carried out to perfection, and a most enjoyable time was had. And no one enjoyed the event more than Arnold, even if the parties did take him by surprise.

We are informed by one of the mail rural route carriers, not many miles from Murray, that a great many of the boxes along the route are in bad shape and need repairing. This is a matter that the farmers should look after, seeing that they have good locks. We are also requested to remind all patrons of the routes to remember the penny proposition.

That good old time friend of the Journal, H. C. Long, from west of Murray, was in the city last Saturday for the first time in several weeks, and of course paid this office a short call. Henry says he has been a pretty much busy man for the past year, and has only found time to call at the county seat twice in the past year. It is all right this time Henry, but don't let this occur again, we want to see you oftener.

Here on Crutches.

O. V. Virgin and father W. B. Virgin, from near Murray, were in the city today looking after some business matters. Ozro was compelled to get around by the aid of crutches, as the result of an injury he received four weeks ago while chopping wood. At the time of the accident he was so seriously injured that he was compelled to take to his bed for two weeks, and has now been using the crutches for two weeks, making four weeks of almost total disability to date, and is still getting around on four feet. He drove the axe deep into his left foot, making a very ugly and painful wound.

Church Gas Plant.

Great improvements have been made on the Presbyterian church in the past year. Besides building a kitchen, modern in its appliances, they have installed a Birch Acetylene Lighting System, one of the finest lighting plants in the country. It is constructed so that it can be attached to the gas range in the church kitchen and used for cooking purposes. Pitman & Davis were instrumental in having this plant put in, and it will pay all who contemplate having such a plant placed in their residences to examine the workings of the church plant. It is the most complete in construction that we have ever seen. Pitman & Davis are local agents for the Birch company.

A Fine Lighting System.

Pitman & Davis have recently been appointed local agents of the Birch Acetylene Light Co., and have already placed several up-to-date lighting plants in homes in and around Murray. The Birch machine is very simple in construction, having no cogs or springs to get out of order. This simplicity of construction not only reduces first cost, but is a great saving in gas.

Parities thinking of putting in a lighting system can save money, and at the same time secure the best and most convenient system. These are standard machines and have been approved as safe by the insurance companies. The same gas can be used for cooking purposes, if desired.

Mrs. Rhoden Entertains.

Mrs. D. C. Rhoden entertained Tuesday in honor of her cousin, Miss Margaret Connor who leaves soon for her home in Wisconsin. About twenty-five ladies were present. The afternoon was pleasantly spent in various kinds of amusements. One of the most novel features was that of Mrs. Rhoden passing pencils and paper with questions pertaining to sewing. Miss Pauline Oldham won the prize by furnishing the most correct answers. A most sumptuous repast was served, and when the time for departure arrived all were unanimous in voting Mrs. Rhoden a most royal entertainer. Miss Pearl Lewis assisted Mrs. Rhoden.

A Great Success.

The two one act plays given by the young people of the Christian church at Jenkins' hall Saturday night, proved a great success in every way. The plays were under the direction of Miss Pauline Oldham, and every character was well taken, and all well played. A large audience greeted the young people, and the receipts amounted to \$81.00. After all expenses were paid the "Sunshine Band" of the Christian church realized a neat sum. Some of those who took part in the play deserve special mention, but it is impossible for us to give all a personal notice, and will suffice to say that all did remarkably well for local talent.

Building of Hatt & Son Progressing.

The building for the produce exchange to be elongated by John Hatt & Son is progressing. The concrete floor is completed, and the blocks are about completed, McMaken & Son having the contract for manufacturing the blocks, and the same will be delivered on the ground this week. The walls will probably be erected next week and the building enclosed. In this enterprise of this hustling firm Plattsmouth will have an institution that it can be proud of, and one that will be a drawing card in the way of bringing trade to Plattsmouth.

John Durman desires to inform those who need his services that he has opened a shop at the Ora Dawson place for shoeing horses. Satisfaction assured.

Buy Gasoline Engine.

Frank Steppet unloaded at the Burlington freight house today a new gasoline portable engine with saw attached to frame all complete and ready to saw wood. The engine can be used for grinding feed, or shelling corn and the like. There is not another rig of the kind in this vicinity, and it is likely that Mr. Steppet will have all that he can do with his outfit.

"Bishop Sunbeams" will make anyone a fine Christmas present, especially for the young people. Paul Stadelman is agent for the book.

Ludden Should Go.

It is said the friends of Col. Tom Majors are going to urge Governor-elect Aldrich to appoint him as a member of the state board of education to take the place of Rev. Ludden. It would please all of the live republicans in this state and especially the friends of both Mr. Majors and Supt. Crabtree. Perhaps when he is appointed there will be a resignation asked for from a certain Peruvian, who made himself quite obnoxious in the past and who fought the ticket all the way through. It will be nice to get a few scalps "after the war."—Nebraska City News.

Col. Majors has always proved a good man on the state board of education, and his removal was evidently a sad blow to the state educational institutions. He is not partisan when it comes to doing his duty to the state at large.

There is little danger from a cold or from an attack of the grip except when followed by pneumonia, and this never happens when Chamberlain's Cough Remedy is used. This remedy has won its great reputation and extensive sale by its remarkable cures of colds and grip and can be relied upon with implicit confidence. For sale by F. G. Fricke & Co.

General Hartigan Comes Tomorrow.
