

LAND THAT WILL MAKE YOU RICH!

The greatest combination of industrialism and farming, now rapidly developing, is to be found along the Burlington Route in the vicinity of

**Sheridan, Wyoming,
Hardin and Billings, Montana,
and in the Big Horn Basin,**

where large, deeded, alfalfa ranches that have made millionaires of the owners, are being divided into small farms, and where Government irrigated homesteads and Carey Act Lands are available.

A WONDERFULLY RICH COUNTRY:—You can get hold of an irrigated farm within a radius of a few miles of excellent coal, natural gas, illuminating oil, building materials, fast growing towns that will have varied industries.

PERSONALLY CONDUCTED EXCURSIONS:—On the first and third Tuesdays I personally conduct landseekers' excursions to see these lands.

ADDING IMPROVEMENTS TO KASPAR BAKERY

Mr. Kasper, the Main street baker, has just about completed arrangements to install a lot of new machinery for cake and bread mixing which will call for an outlay of between five and six hundred dollars. The electric company yesterday completed the wiring of his building, and the concrete foundation for the machinery is in and the machines are on the road and have been billed out of the factory several days. When the new machinery is installed Mr. Kasper will have one of the best equipped baking outfits in this part of the state. He is also planning to have an eighteen foot extension of brick joined on the north end of the building so as to give him much needed room for the enlarged output of his plant. Mr. Kasper's business has been growing from the start until he feels that in order to handle the trade, which increased activities in other lines in the city, is bound to bring, that he will have to have the modern appliances and begin mixing his bread with an electric motor machine.
