

LAND THAT WILL MAKE YOU RICH!

The greatest combination of industrialism and farming, now rapidly developing, is to be found along the Burlington Route in the vicinity of

**Sheridan, Wyoming,
Hardin and Billings, Montana,
and in the Big Horn Basin,**

where large, deeded, alfalfa ranches that have made millionaires of the owners, are being divided into small farms, and where Government irrigated homesteads and Carey Act Lands are available.

A WONDERFULLY RICH COUNTRY:—You can get hold of an irrigated farm within a radius of a few miles of excellent coal, natural gas, illuminating oil, building materials, fast growing towns that will have varied industries.

PERSONALLY CONDUCTED EXCURSIONS:—On the first and third Tuesdays I personally conduct landseekers' excursions to see these lands.

FALLS CITY IS NOW A DIVISION

Missouri Pacific Has Removed Offices From Atchison, Kansas.

In speaking of the removal of the Missouri Pacific division from Atchison, Kansas, to Falls City, Nebraska, the Atchison Globe says:

"The Missouri Pacific's new time card bears the date of tomorrow, but the actual work of transferring the division headquarters from Atchison to Falls City will not be started until after four or five days. It was planned to transfer several crews tomorrow, but recent events have brought about a postponement.

"A study of the new time card shows that at the most Atchison will lose about 105 trainmen to Falls City. It requires five men to make a crew. The new time card will transfer seven red ball or through freight trains to Falls City, and from twenty to thirty chain gang crews. Most of the men who run those red ball trains and chain gang trains live in Atchison. At present there are but eight chain gang or extra crews running out of Atchison, because of a decrease in traffic. But, under ordinary conditions, from twenty to thirty chain gangs are run on the Omaha division, with headquarters in Atchison. The calculation on which the loss of men determined is based on the highest figures, in order to show the largest possible loss Atchison will experience.

"The red ball trains that are now run by Atchison men, and which will be moved to Falls City, are Nos. 175, 159, 153, 154, 156, 158 and 164. The local freights, Nos. 193 and 194, which pass through Atchison, will center at Falls City, but the new men on those runs have already been living at either Omaha or Auburn.

"The Atchison Locals" (freight) will hereafter leave Atchison at 6:45 a. m., for Falls City, and will return to Atchison at 5:15 p. m. for the layover. On this one score Atchison will not lose any men.

"The passenger trains on the division will spend their dead time at Falls City, instead of at Auburn. The crews of these passenger trains now live at Kansas City and Omaha and any change with them will not affect Atchison one way or the other.

"Eventually Superintendent DeBernardi's staff, consisting of Trainmaster Dillie, Chief Dispatcher Jones, the train dispatchers and clerks, and Division Engineer Hickett and his staff and office force, will be moved to Falls City. But Superintendent DeBernardi's force of men will be replaced by the men who will work here when the Omaha and Central branch divisions are split, and a superintendent placed in Atchison to have charge of the Central branch.

"There is very little probability that the Atchison shops will employ fewer men than now."

Estimate Revised.

The estimate of population for Cass county, as made by a Des Moines map company will have to be revised somewhat, as the figures released by the United States census bureau yesterday and published in the press dispatches through the state press, the 1910 census gives Cass county a population of 19,786, while the previous census of ten years ago gave us 21,330. Every county in the first congressional district has lost in population, except Lancaster, which shows a gain of a little over eight thousand. The vote at the last election with one voter to the family of five persons, would indicate that the county has more people than the census gives it.

Order of Owls Organize.

From Tuesday's Daily
At the Coates' hall last evening, seventeen new members of the order of Owls were initiated, and a permanent organization effected. Officers holding chairs during 1911 are: John Cory, past president counselor and advisor of the order; D. L. Amick, president; Charles L. Martin, vice president; Dr. E. W. Cook, treasurer; Jesse Perry, secretary; R. L. Propst, indicator; Ralph Lorenzen, inside

sentinel; William Heinrich, warden; Frank Mauer, outside picket; Ed. Slocum, J. L. Russell and Robert Bates, trustees.

The order now has over one hundred members in good standing, and new members are flying in now by the score every meeting. Mr. Heilig, state organizer, is very greatly pleased by the appreciation shown for the order and says that men need only to see the work to be convinced

that the order of Owls is the best fraternal order before the people.

Switch engine No. 1221 has been treated to a bright new coat of enamel as well as its tender, and Engineer Thrall is quite puffed up over the matter and scarcely notices common folks as he passes by. The way-car got a new coat of paint a short time ago, so that the entire outfit looks as good as new.
