The roof caught fire and burned enough to create considerable excitement. The hose was attached to the hydrants ready for business, but the chemical cart was in good working order and a well directed stream soon quenched the flames and saved a lot of damage from water. People are wondering what would be left if the hotel had got a good start.

L. H. Young was in town Saturday and informed us that Mrs. R. G. Bailey, wife of the blacksmith at Maple Grove, had been taken to Omaha the morning before and that she would be operated on at St. Joseph hospital that morning by Dr. Allison for appendicitis. Mr. Young is still using his crutches, but says it is more from lack of confidence than for any need he has of them, as his leg is getting strong enough to bear his weight. Mr. Young had his leg broken about a year ago by a mule falling on it.

Saved at Death's Door.

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 pounds, growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine—Electric Bitters—cured me. I regained the 40 pounds lost and now am well and strong." For all stomach, liver and kidney troubles they're supreme. 50c at F. G. Fricke & Co's.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

AN ENJOYABLE EVENT AT HOME OF MRS. EVA REECE

The cozy new home of Mrs. Eva Reece has been the scene of a delightful time, when Mrs. Reece's son, Guy, entertained a number of friends from Omaha at a house party, the Omaha guests coming down to this city on Saturday evening and being entertained at the Reece home until Monday evening.

The home of the Reeves is a brand new one, having been occupied by them but a short time and is a very handsome structure, as well as being very conveniently arranged and having all the modern conveniences.

For the house party Mrs. Reece had thrown the charming rooms of her pretty home open, and made every effort toward insuring the guests a royal good time. For the occasion the hall had been very attractively decorated with holly, a color scheme of green and white was carried out in the living room with ropes of evergreen and white streamers, while the dining room was brilliant in red and white, a huge bell being suspended above the table and streamers being attached to the bell and festooned to the four corners of the room.

Mrs. Reece and her son Guy, had invited a number of the young people of this city to come to their home Saturday evening and spend the time in a social way and become acquainted with the Omaha guests. Various games and amusements, which had been planned for the occasion, interspersed with social conversation, vocal and instrumental music, were participated in and produced much merriment. At the proper time an elegant two-course luncheon was served, the color scheme of red, green and white being used in the service. It was a late hour when the young people of this city returned to their homes, voting this occasion to be the

most enjoyable they have attended for some time.

Those in attendance from Omaha were Misses Dora and Vera Spetinan, Mary Egan, Mattie Barnes, Ada Spetinan, Jeannett White; Messrs. Albert White, Fred Arant, James Phillips, Mr. BrBedbeck, Mr. Jackson, Mr. Jeffreys, Mr. Erwin and Mr. Emmett Hawkins, of Council Bluffs.

GRAIN BUSINESS HAS BEEN RUN AT A LOSS

From Wednesday's Daily.
The annual meeting of the stockholders of the Cedar Creek Farmers' Elevator Association was held yesterday at that village, and the business of the year footed up. The balance was on the wrong side of the ledger in the sum of \$555. Heretofore the association during its three and one-half years of existence has paid an annual dividend of 8 per cent on its stock. Last year the profits were sufficient to build a \$300 coal house, this being done in addition to declaring the usual dividend.

Last year's grain business was an unusually tough one, for the reason that the price started in high and the grain man had to buy on a falling market most of the season. During the summer the bids were slow coming in, and some of the grain would have to be held for quite a while, sometimes at a loss.

Ice Cutting Delayed.

McMaken & Son with a force of men and ice implements went to the river this morning to begin putting up ice, which was about twelve inches thick. A gorge of ice below the Burlington bridge, caused the river to rise about three feet, raising the ice so much that teams and men could not go upon it, and the party came back to town.

John H. Welch, of Elmwood, was a Plattsmouth visitor today, having business in Judge Beeson's court.
