NEBRASKA KEEPS PRESENT RATIO

Bill Introduced Apportioning 433 Members of Congress.

DAKOTAS WILL EACH GAIN ONE

States Which Have Lost in Population Retain Members—New York Gains Six—Committee Members Believe This Measure Will Prevail.

Washington, Jan. 7.—Representative Crumpacker, chairman of the committee on census, introduced a bill providing for the reapportionment of the house of representatives.

The present ratio of apportionment gives a congressman to every 194,000 of population, while the proposed bill will give one to every 212,000.

The Crumpacker bill calls for a membership of the house of representatives, after March 1, 1913, of 433 members, excluding Arizona and New Mexico, and is so framed that the states which have lost in population during the last ten years will not lose any of their present representation. For instance, the whole of Nebraska's population increased slightly and there was fear that a reapportionment bill might reduce its representation, but under the Crumpacker bill Nebraska will have six representatives in the house.

Iowa's population showed a loss, but the Crumpacker bill will not disturb the present number of members in the house—eleven representatives.

The apportionment under the proposed arrangement will represent an increase over the present membership as follows:

Alabama, Colorado, Florida, Georgia, Idaho, Louisiana, Michigan, Minnesota, Montana, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Utah and West Virginia, one each.

Illinois, Massachusetts, New Jersey, Texas and Washington, two each. California and Oklahoma, three each. Pennsylvania, four.

New York, six.

A majority of the members of the committee believe the plan in this bill will prevail.

WARD MAKES DARING FLIGHT

Eighteen-Year-Old Aviator Shows Aeroplane's War Usefulness.

Charleston, S. C., Jan. 7.—Jimmy Ward, the eighteen-year-old aviator, in a Curtiss twenty-four horsepower aero plane, made a daring flight across two rivers, the harbor and out over the Atlantic ocean, breaking the world's altitude record for low power machines and winning \$5,000 by circling over two of the strongest fortifications on the Atlantic coast, demonstrating the efficacy of the aeroplane as a scout in time of war.

Landing gracefully on the beach in front of Fort Moultrie, on Sullivan's island, he handed a note to Colonel Marsh, which the latter signed. Ward then re-entered his machine, rose from the beach and flew back across the harbor in a direct line to the aviation field, north of the city. He covered a distance of about twenty-five miles in fifty-four minutes.

It was on his return trip that he broke the world's record for small machines. At a point directly above Mount Pleasant he attained a height of 5,300 feet, as shown by his barograph.

INSTALLATION OF OFFICERS AND GENUINE GOOD TIME

The membership of the Woodmen of the World met last evening at the G. A. R. hall for the annual installation of officers for the ensuing year. The best of music was furnished by Misses Mildred and Amy Cook and Mr. Hugh Cecil on violins. After voting in a list of new members, while the band played "Marching Through Georgia" the newly elected officers entered the forest under escort of State Deputy Joseph Silence, who conducted the march around the forest, where the officers-elect were met by Captain Mathers, of the Omaha forest, who at once began the installation ceremony.

The officers installed were: W. B. Rishel, C. C.; W. A. Kirby, A. L.; Henry Kruger, Banker; Robert Moffit, Clerk; Peter Valley, Escort; Tom Samous, Sentry; George Becker, Watchman; Dr. Cook, Physician; and Joseph Kelley, trustee for three years. After the installation ceremony was completed, Sovereign Mather gave an eloquent lecture on the advantages of woodcraft, informing the lodge that their policies were absolutely gilt-edged, as they were backed by a reserve fund of \$11,500,000.00.

Captain Mather was followed by R. B. Windham, of this city, who also dwelt on the advantages of the policy furnished by the W. O. W. and the advantages of fraternal insurance in general.

The speech-making was followed by a fine oyster supper given by the wives of the Woodmen, and by the ladies of the Woodmen Circle.

The hall was packed with members of the lodge and a most enjoyable social evening was had by every one present.

Mr. W. B. Rishel was selected as a delegate to the state convention and Mr. Robert Moffit, alternate.

WILL VOTE FOR U. S. SENATOR TUESDAY, JAN. 17

A special from Lincoln says that there will be no republican caucus candidate for United States senator a week from next Tuesday and the votes on that day will be divided between G. M. Hitchcock, Senator E. J. Burkett and whatever other persons members of the legislature wish to please with a complimentary vote or two.

Although there have been inquiries regarding such a move its futility is looked upon by many republicans as the best argument against it. Absolutely nothing could be gained by it as over 100 votes, democratic and republican, are bound to Congressman Hitchcock.

There are a few republicans who feel as if the yoke was on them since they signed Statement No. 1, but none of them indicate that they have any intention of violating their promise to the people nor do the most rabid republicans outside the legislature indicate that they have any information leading them to think that republicans will go back on their pledges.

The houses will vote separately on United States senator Tuesday, January 17, and will then meet in joint session for a canvass of their votes. This last act will be merely formal, however, as a majority is assured the democratic candidate for the senate in both branches.
