

6,000 WOMEN WITHOUT HOMES

Notorious Quarter in Tokyo is Five Swept.

PALATIAL STRUCTURES BURNED

Five Thousand Houses in Ruins—District Under Special Municipal Surveillance, Japanese Method of Solving Social Evil.

Tokyo, April 10.—The notorious Yoshiwara, the principal quarter of Tokyo inhabited by the licensed hetairae, was destroyed by fire. Many of those houses were almost palatial in appearance, and a thousand of them were burned in a little more than three hours. Six thousand women were rendered homeless. The fire spread over a vast area. Altogether it is estimated that 5,000 houses are in ruins, covering an area of four square miles.

A large number of women were severely injured. Five hundred troops are guarding the territory.

The world-famed Yoshiwara lies about one mile to the north of Asakusa park. The district presented a spectacle probably unparalleled in any other country with its gorgeous structures, guarded by iron bars, directly on the street line, and its thousands of gaily bedecked residents. This whole quarter is under municipal surveillance, with the result that at all times perfect order prevailed, enabling strangers to observe, while walking through the streets, the manner in which the Japanese have solved in their own manner, one of the vexing questions of all the ages.

Two Hundred Die in Bombay Fire.

Bombay, British India, April 10.—Two hundred men, women and children were burned to death in a fire which destroyed a thatched structure in which they had gathered for a festival. Five hundred persons were in the building. There was only one exit and a panic ensued.

ROOSEVELT ASKS NO MORE

Not Aspirant for Anything Because He Has Had Everything, He Says.

Spokane, Wash., April 10.—Theodore Roosevelt made his first public declaration regarding his possible candidacy for the presidency at a luncheon given in his honor by the Commercial club.

"I am not an aspirant for anything because I have had everything," he declared. "No other man alive—I don't know whether I ought to use this simile in the presence of the chaplain, but I am going to take chances—no other man alive has had such a good run for his money."

Mr. Roosevelt declared that he was making his tour for no other reason than that which he has already assigned—to thank the people who had elected him to the presidency.

Had he never come to the west, he said, he never would have had raised his regiment and never have become president. In conclusion, he said:

"It is the service done, not the title of the place held that counts. And you won't, any of you have to puzzle as to my motives if you will accept my statements at their face value. You have not got anything I want except your respect and good will; and all I desire is, so far as the chance arises where I am able to do so, to help you in any movement for the good of our common country."

FORMER PUGILIST IS MAYOR

John A. C. Mentor Elected by Socialist Votes in Flint, Mich.

Flint, Mich., April 10.—John A. C. Mentor, who was a professional pugilist fifteen years ago, took the oath of office as mayor of this city today and assumed the reins of the first Socialist municipal administration ever elected in the state of Michigan.

"I will give Flint a clean, business like administration," he said. "I am still a fighter—a fighter for good government; a fighter for socialism and the universal brotherhood of man. When I fought in the prize ring it was for glory and a purse. Now I am fighting for a principle. My fight now is with a hostile board of aldermen. Only three of its twelve members are Socialists and I expect we will have difficulty in carrying out our reforms, but we will carry them out. If earnest human endeavor will make this possible. Until my term of office expires I will be mayor every minute."

DIAZ TO USE IRON HAND

H. H. KOHLSAAT,
Chicago Editor Who
Gave Key to Mystery
in Lorimer Scandal.

TEN LORIMER SUBPOENAS ISSUED Summons Are Said to Be for Chicago Millionaires.

Chicago, April 10.—Ten secret subpoenas were served by process servers while the Helm Illinois senatorial committee investigating charges relating to the election of Senator Lorimer was holding a secret session in the LaSalle hotel to determine on its actions for this week.

The committee, it is understood, will force ten millionaires to appear and make admissions or positive denials of the charges that a fund was raised to elect Lorimer. Big financial interests are said to have held a secret meeting to discuss the advisability of seeking to bring pressure to bear upon Lorimer to secure his resignation and thus stop the investigation that may involve large interests and cause a popular clamor that might demand a reduction in the tariffs. These big interests are also said to seek to force an early adjournment of the senate and thus kill the Helm committee.

JOHN D. KEEPS BONDS SAFE

Strong Box Located in Which Rockefeller Treasure Reposes.

New York, April 10.—The long and closely guarded secret where John D. Rockefeller preserved his stacks of stocks and bonds has been disclosed at last. The bulk of his immense treasure of collateral, estimated at \$200,000,000, reposes in a specially constructed bombproof and fireproof vault, built under the northeast corner of the New York Produce exchange. Entrance to it is gained from Beaver street, a stone's throw from the Standard Oil headquarters at 25 Broadway.

On looking in front of the iron vault, the largest of its kind in the world devoted to containing the property of a single person, there is presented to view a cage not unlike the one in which Dreyfus was confined at Devil's Island. Two padlocks, usually opened with a key in the hand of President W. H. Pearson of the Safe Deposit company, turning, release a roll of combination locks and permit the latter to be set by two men from Mr. Rockefeller's private office.

The only way to change the numbers is to know the old numbers. As for the man who opens the upper combination, he has not the slightest knowledge of the numbers opening the combination lock, and neither can get his lock bolts in the great door until the padlocks have been removed by the third man. It is impossible to pick these locks.

Reorganizing Board of Health.

The senate passed a bill recommended by the governor and prepared under his direction to abolish the present state board of health and reorganize it into a new one on salaries instead of a per diem. The bill provides for a state board of health of five doctors with pay of \$900 a year and each member to devote his entire time to the work. It is estimated the cost will not be any greater than under the present system with a much larger board on the per diem basis.

Rate Cases Provided For.

The senate has now passed the second of the appropriation bills which were asked by the state railroad commission to furnish funds for the prosecution of rate cases. This is an appropriation of \$25,000 for the prosecution of cases affecting state rates, the previous one being for the prosecution of cases affecting interstate rates. The two appropriations will give the present railroad commission a fund of \$50,000 for use in this work the next two years.

Pay of County Clerks.

The bill to increase the pay of county clerks in the larger counties of the state finally passed both houses on a conference report as a compromise. The bill provides that where a county has over 40,000 population the pay shall be \$2,500; over 60,000 it shall be \$2,750 and over 65,000 it shall be \$3,000; and then in smaller counties there may be added a \$300 extra out of probate fees if collected. The only matter in controversy was as to the use of the word "shall" instead of "may" in regard to the probate fee items, but this was left optional with the county boards.

REORGANIZE DAIRY BOARD

Senate Passes O'Connor Bill, Revising Law Which Created Department.

Des Moines, April 10.—The state food and dairy department is a thing of the past, and in its stead comes the state dairy and food department.

By a vote of 26 to 14 the senate passed the O'Connor bill revising and rewriting the law creating the department. The change in the name of the department is one of the provisions of the measure.

Under this revised law the state dairy and food department is put on the highest plane since its creation. There are more employees, better salaries are paid and the revenue will be greater than ever before.

The bill was drafted by Commissioner Barney to meet what he considers the needs of his department and it went through without any particular amendments.

An Authority.
Peter McArthur was once talking with a friend when he quoted another man as a financial authority. His friend disputed the right of the person quoted to be considered an expert. Mr. McArthur insisted that the man had a right to speak like an oracle. "What is your definition of an authority?" asked his friend. "My idea of an authority," retorted Mr. McArthur, "is a person who bluffs beyond my limit."

BODIES TAKEN OUT IN STREAM

Victims of Banner Mine Disaster Now Placed at 128.

POWDER CAUSED EXPLOSION.

Rescuing Party Has Narrow Escape When Boiler Accident Shuts Off Air. Victims Are Mostly Negro Convicts. No Mourners at the Openings.

Littleton, Ala., April 10.—With the precision of clockwork, a trained corps of rescuers is bringing a steady stream of bodies from the Banner mine, in which a disastrous explosion occurred. It is believed that 128 is the number of victims, mostly negro convicts.

There is no longer hope of finding men alive underground. Of the 128 dead only fourteen were whites. A score of bodies have been brought up, including Lee Jones and O. W. Spradling, both white. The general belief is that powder caused the explosion.

There are practically no mourners at Banner, none of the convicts having relatives near, but a few curious negro women stood around the opening and would break in a low, mournful chant when the bodies were brought up.

The first party of ten government rescuers, headed by Dr. J. J. Rutledge, had a narrow escape from death. An accident occurred to the boiler used for the fans and the air was stopped for a few minutes. Within a few seconds a faint cry for help was heard from below and men with oxygen helmets hurried down. The entire party was overcome by the afterdamp and when brought to the surface physicians worked over them for nearly an hour before they were able to be moved to the rescue car.

73 BODIES RECOVERED

Disaster in Colliery Much Greater Than at First Estimated.

Scranton, Pa., April 10.—A revised list of dead shows that seventy-three men and boys met their deaths in the fire in the Panoast colliery at Throop near here. A canvass of the victims' families shows forty-five widows and 137 orphans.

It is said that every corner of the workings, which a fleeing victim might have reached in his search for pure air, has been entered and every body has been removed.

ROADS WIN BIG RATE CASES

United States Judge Decides Against Minnesota Rail Commission.

St. Paul, April 10.—Judge Sanborn in the United States circuit court decided the Minnesota rate cases against the state railway commission.

He held that the necessary effect of reductions ordered was substantially to burden and directly to regulate interstate commerce, to create unjust discriminations between localities in Minnesota and those in adjoining states in violation of the constitution, and to take the properties of the railroad companies without just compensation.
