

FULL TEXT OF THE AUTOMOBILE LAW PASSED BY THE LAST LEGISLATURE

The Bill Has Been Signed by the Governor But Will Not Go Into Effect Until Early in July, Which Gives All an Opportunity to Ponder Over Consequences Attached.

There are getting to be so many automobiles in the country that many of those who own a machine and those who are entitled to their rights on the common highways are anxious to know the law in reference to their government in the future and have asked the Journal to publish the law.

According to the provisions of the McArdle bill, which passed both houses at the recent session of the legislature and was approved by Governor Aldrich, and which will become a law early in July, automobile drivers on city streets will be compelled to come to a full stop when approaching street cars, where people are getting on or off the cars. The new law further provides that the motor vehicles shall remain at a full stop until the street cars have started.

Under the McArdle act license fees will go to the various road funds of the various counties instead of to the state, as at present. Another feature is that nothing in the act shall be construed as interfering with the right of cities or villages to regulate motor vehicles by enactments of their own.

The bill digested section by section is as follows:

Section 1.—Defines motor vehicles as those propelled by any power other than muscular and excepting road rollers, traction engines and those run on rails or tracks. Defines public highways as all roads, alleys or streets where the passage of vehicles is allowed.

Section 2.—Every owner of such motor vehicles shall file with the secretary of state a description of his vehicle or vehicles and shall pay an annual tax of \$1 for motorcycles and \$2 for other motor vehicles. All police patrols and fire automobiles or other motor vehicles owned or operated by cities, villages or the state are exempted from this fee. Each machine is to be assigned a number. Change of ownership is to be filed, with \$1 fee accompanying.

Section 3.—Fees to go to county treasurers in county where applicant for the license resides. Fees are to be credited to the county road fund. County treasurers to give receipts, which are to be sent to the secretary of state with all applications for license.

Section 4.—Manufacturers to register one vehicle of each class which they produce, and display its number as a compliance with the law. Three general classes, those propelled by gasoline, steam and electricity.

Section 5.—Number to be displayed on car in separate Arabic numerals at least four inches high, with the letters N E B not less than three inches high, same to be white letters and figures on black background. To be so lighted one hour after sunset and

one hour before sunrise that will be plainly visible 100 feet distant.

Section 6.—No intoxicated person or persons under 16 years of age shall be permitted to operate motor vehicles. Owner who permits same shall be guilty of a misdemeanor and punishable as herein provided.

Section 7.—In the country, that is outside of cities or villages, motor vehicles shall not be operated at a greater speed than twenty-five miles per hour or than is reasonable and proper having a regard for the traffic and the life and limb of the people. At intersections, bridges or when meeting other vehicles or teams to be reduced to eight miles per hour. In cities and villages speed not greater than twelve miles per hour on the open highways and six miles per hour at street intersections, bridges or when meeting other vehicles or teams. To come to a full stop when approaching places where passengers are loading from street cars and to remain so until street car starts. Police patrols, ambulances, fire automobiles and physicians' automobiles exempted from the provisions of this section.

Section 8.—Drivers of automobiles are to stop when meeting teams which appear restless or when persons indicate that such is the case. To stop as long as necessary and to give such aid as is necessary. When both are going the same way teams and motor vehicles are to share the road, especially where it is narrow or rough and the motor vehicle not to resume the center of the road until at least thirty feet ahead of the team.

Section 9.—All motor vehicles to be provided with suitable brakes, bells, horns or signals and shall between one hour after sunset and one hour before sunrise have two white lights on the front of the machine and a red light at the rear end.

Section 10.—The penalties: For the first violation of any of the provisions of the law, a fine of not more than \$50, for subsequent violations not less than \$50 nor more than \$100 and not more than sixty days in the county jail or both at the discretion of the court. If violations result in death or severe injury to any persons, offenders shall upon conviction be fined not less than \$200 nor more than \$500 or sentenced to the penitentiary for not less than one year nor more than ten years.

Section 11.—Nothing in the act shall be construed as interfering with the local regulation of motor vehicles by cities or villages.

Section 12.—Nothing in the act shall apply to motor vehicles operated in the state by residents of other states for a period not to exceed thirty days, providing said vehicles have been duly registered in the state where said owners reside.

CONTEST WILL BE AT THE PARMELE

The Change is Made in Order to Accommodate the Large Audience Expected.

Owing to the reports that are coming in that large delegations will attend the fiddlers' contest tomorrow night from the south part of Cass county, the north part of Otoe county and the west part of Mills county, Iowa, it is deemed advisable on the part of the management to change the place of holding the event from Coates' hall to the Parmelee theater, in order to accommodate the crowd of people who will be here on that occasion.

Therefore, while the contest will take place at the theater, the free dance will occur immediately after the program, at Coates' hall. We believe the management is wise in this change, because there will be some old people who want to attend the contest who would not feel like climbing two flights of stairs to do so. The admission price is only 25 cents, and at this low price we do not believe Coates' hall would hold the crowd that will be in attendance.

Remember, then, that the fiddlers' contest will be held at the Parmelee theater tomorrow (Friday) night, and that the admission price is only 25 cents.

A Reliable Medicine—Not a Narcotic.
Mrs. F. Marti, St. Joe, Mich., says: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar Compound, in which I have great faith. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Foley's Honey and Tar Compound has many times saved us much trouble and we are never without it in the house." For sale by Fricke & Co.

Rex Theater Sold.
Mrs. Myrtle Campbell, who has owned and operated the Rex theater for some time, yesterday closed a deal whereby she parts with her property and Mr. Leighty and Mr. Stenner become the owners and will conduct the show. These gentlemen propose to keep the business up to its already high standard.

AN ENJOYABLE AFFAIR HELD EASTER SUNDAY

The Home of Mr. and Mrs. John Wiles Being the Scene of the Happy Gathering.

The pleasant country home of Mr. and Mrs. John Wiles, five miles south of this city, was the scene of a more than enjoyable affair Easter Sunday, in that it was a reunion of the Wiles family, most of the company being related, with the exception of a few, who were very intimate friends of the Wiles family.

The large company drove to the Wiles home during the morning hours and spent the entire day at their home in such a delightful manner and one which will long be remembered. The few remaining hours of the morning were spent in social conversation, games and other amusements, and at the noon hour the large company was invited to the dining room of the Wiles home, where a dinner such as is served only in a Nebraska farmhouse, was spread, everything the lady's larder would afford being most temptingly served, and to which all did ample justice.

The afternoon was devoted to the reviewing of the good times all had spent together, and finally the farewells were said. It may be said to the credit of the host and hostess that the entertainment offered on this occasion was all that a most hospitable mind and expert culinary ability could devise.

Those in attendance were: Mr. and Mrs. John Beckman and family of Eight Mile Grove, Mr. and Mrs. Riley Wiles of Union, Mr. and Mrs. Harry Wiles and family of Wabash, Mr. and Mrs. W. H. Wiles of Wabash, Mr. Everett Wiles of Cedar Creek, Mr. Ben, John, jr., and Miss Bessie Wiles of Plattsmouth, Mr. and Mrs. G. A. Rainey and family of Plattsmouth, Mr. and Mrs. E. R. Dillehay and family of Murray and Miss Pearl Smith of Union.

Mr. J. Asche of Murray came up and took a picture of the entire company, so that each might have something which will assist them in remembering this happy event.

THE GREATEST GASOLINE SAVER IN THE WORLD

Saves you from \$60.00 to \$300.00 and more in gasoline every year you run a Chopie Gasoline Engine.

This is what you can do with a Chopie, and get more power on one-half and less the gasoline, as compared with other makes.

The wise, money-making man now-a-days always profits by the experience of others.

NOW LISTEN! You are paying 17 cents for your gasoline. Say you pay \$150.00 or more for a six horse power gasoline engine, other makes, and run it for 300 days, which is not very long. The price of a 6 horse power Chopie is \$275.00. The Chopie will save you \$175.00 to \$210.00 in gasoline every 300 days you run it. Now, you pay \$150.00 for that cheap engine, add the saving of \$210.00, which the Chopie will save you, which makes your cheap engine cost you \$360.00 at the end of 300 days.

NOW LISTEN! Say you are in the dairy business, and you have two cows that give the same grade of milk, but one gives twice as much milk as the other. Now tell me which is the money-maker for you or money in your pocket. Plain to be seen.

The Chopie engines are all constructed of the best material obtainable and built by the best workmanship to be secured. The chilled cylinder, found only in the Chopie, will outwear three or four ordinary cylinders, because other cylinders are soft iron and will not wear as long or stand up to the test to which they are put.

Now, this is the proposition I have to make you:

You take a 2 1/2, 4, 6 or 10 horse power Chopie engine, run it twenty days free trial, and if it does not come up to these statements send it back and it will not cost you a cent. What could be a fairer guarantee?

Furthermore, I agree to replace free of charge all defects in material or workmanship for the period of one year. Also guarantee them to develop the actual horse power at which they are rated, and on one-half gallon gasoline to the horse power used.

I invite you to visit the factory and see for yourself where all the parts are made.

The Chopie Gasoline Engine Factory, Plattsmouth, Neb.

WARNING.

Be careful, boys, and don't take up Chopie's proposition on a gasoline engine, as it will do more than Chopie claims for it, and the engine will be yours.

Judge Travis Returned Tuesday.

Judge Travis arrived home Tuesday evening from Nebraska City, where he had been since last Thursday morning trying the now famous divorce case of Schulz vs. Schulz, the defendant being a wealthy old man of 75 years and the plaintiff, his wife, being 54 years old. The case was finished Tuesday afternoon, which prevented the judge from getting home to try the case of Dennis vs. James, which was set for Tuesday, but the parties agreed on the priority of liens themselves.

Mrs. Pepperberg Better.

Mr. Julius Pepperberg of Lincoln arrived in the city this morning to look after business matters for a time. Mr. Pepperberg stated that his wife was still at the hospital, but her condition is improving very satisfactorily and next week he expects to take her to their home. Their numerous friends in this city will be pleased to know that Mrs. Pepperberg is doing so nicely.

How to Tell if Your Hair is Diseased.

Even if you have a lustrant head of hair you may want to know whether it is in a healthy condition or not. 98 per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and \$1.00. Sold only at our store—The Rexall Store. F. G. Fricke & Co., Union Block.

"Making Good!"

YOUR "making good" depends largely on the kind of clothes you wear.

We are "making good" with the men of this community—because we are giving them the very best merchandise that can be bought, and we are offering it to them at prices lower than other people; and guaranteeing everything we offer.

The man or young man who trades at this store the year thru will save money doing so, and the longer he trades here the longer he will want to, and the better he will like our "value giving" methods.
