Do Ghosts Haunt Swamps?
No, never. It's foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, bayous and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at F. G. Fricke & Co.

Return From the South.
From Tuesday's Daily.
William Schmidtman and A. M. Searle returned from Monticello, Arkansas, on the morning train today. Mr. Schmidtman went with a view of inspecting the country, Mr. Searle being already convinced of the advantages of owning Arkansas lands. Mr. and Mrs. McCauley were so well pleased that they invested in a quarter section of improved land within a few miles of Monticello. Mr. Schmidtman has about closed a deal for 240 acres of land in the same county. He says the gardens are looking fine and vegetables, such as peas, are ready for use. The flora of that locality is magnificent and was at its height while the party was there. Some of the planting was not as far along as in ordinary seasons, for the reason that they have just had a month of rainy weather and the land was too wet for corn planting. The foliage on the trees is a month in advance of us here. Mr. Schmidtman enjoyed his outing immensely. While in Arkansas he was piloted over the country by Mr. Thomas Holland, who has been a resident of that locality for the past sixty years. Mr. Schmidtman recognized him at once as one of "Opie Read's" characters, quaint and interesting.

Mrs. W. E. Roseneran departed for Lincoln on the morning train today, where she will meet Mr. Rosenerans, who went last evening as a delegate to the Knights of Pythias lodge.
