Mexico City, May 26 .- President Porfirio Diaz is dead! Long live Citizen Porfirio Diaz!

President Diaz, in a letter read by the president of the chamber of deputies, resigned the presidency of the republic of Mexico, and the acceptance of the resignation by the deputies was announced.

Everyone had expected an uproar and demonstration when the announcement should be made, but within the chamber the words announcing the event were followed by silence. The deputies seemed awed by what had taken place

In the streets, however, black with people, every street leading to the hall being blocked, news that Diaz was at last no more the president was the signal for wild shouting and manifestations. There was no violence HAS BATTLE IN nor no destruction of property.

On the motion to accept the presi dent's resignation, 167 deputies voted aye, while two of them did not express themselves.

In similar fashion the resignation of Vice President Ramon Corral, now in France, was unanimously accepted, and similarly Francisco Leon de la Barra, late ambassador to Washington, chosen provisional president.

Justice John Marshall Harlan filed in

tion's Business.

The further declaration is made by Justice Harlan that he is convinced the court's opinion "will throw the business of the country into confusion and invite widely extended and harassing litigation, the injurious effects of which will be felt for years to come."

In connection with what he terms a "mischievous modification," Justice Harlan quotes the chief justice as saying that "it does not necessarily follow that because an illegal restraint of trade or an attempt to monopolize or a monopolization resulted from the combination and the transfer of the stocks of the subsidiary corporations like restraint of trade or attempt to monopolize or monopolization would necessarily arise from agreements be tween one or more of the subsidiary corporations after the transfer of the stock by the New Jersey corporation.

"Authorizes Due Restraint."

"Taking this language in connection with other parts of the opinion," says Justice Harlan, "the subsidiary companies are thus in effect informedunwisely, I think-that although the New Jersey corporation being an illegal combination must go out of existence they may join in an agreement to restrain commerce among the states, if such restraint be not 'undue.' '

As in his oral remarks Justice Harlan devotes himself largely to critievery restraint of trade violates the law. He relterates that the court reversed its former rulings in the trans- gal and that they exist in several missouri freight and joint traffic association cases. Quoting several hundred words from each of these opinions, Justice Harlan says: "These utterances show, so clearly and affirmatively as to admit of no doubt, that this court, many years ago, on the fullest consideration, interpreted the anti-trust act as prohibiting and making illegal not only every contract or combination in whatever form was in restraint of interstate commerce without regard to its rea sonableness or unreasonableness, but all monopolies or attempt to monopomerce."
