This was uttered in a tone of prophecy and with a look of inspired conviction.

To his country General Diaz delivered a warning.

Speaking to the little group of soldiers who had served as a guard on his trip from the capital, the old man, who governed Mexico for more than thirty years by military strength, said the present government must yet resort to his methods if peace is to be re-established.

BOARD DECIDES TO POSTPONE HEARING

State Railway Commission Will Hear Rock Island in Fall.

Lincoln, June 1.—The state railway commission decided to postpone the settlement of the physical value of the Rock Island railroad until late in September. The next hearing on the value of this road will be held Sept. 5, and the other roads will discuss the reports of the state engineer, who will publish his findings during the summer, Sept. 10.

This postponement of action arose from objections made by the Burlington representatives at the hearing. They asserted that there were many points of common interest among the railroads which are being valued and that it would be unfair for the commission to lay down a rule after hearing only one case, which would have later to be applied to all the roads.

During the afternoon session the commission came to this conclusion. Sept. 5 the Rock Island will complete its testimony and all of the roads will enter into a stipulation as to the items that are to be considered in laying down rules for certain disputed values. Immediately after this stipulation has been made the other roads will present their objections to the values found by the state and the decision of the commission in all cases may be handed down before the close of the year.
