DR. C. D. BARNES' FOOT AMPUTATED, AND GETTING ALONG NICELY

The Unfortunate Man Reared to Manhood in Plattsmouth.

The following from the Tecumseh Journal-Tribunal gives a fuller account of the misfortune that befell Dr. Barnes last week than recently appeared in this paper:

Those of our readers who have been bothered by rats will do well to heed what befell Dr. C. D. Barnes last Thursday evening before taking harsh measures toward exterminating the varmints. A big fat rodent was playing upon the lawn in the rear of the Barnes' dwelling at about 7:30 in the evening, and Dr. Barnes concluded to shoot it. He secured a shotgun and started out of the door very quietly in order to get the drop on the rat, but the head of a small nail was protruding from the screen door and caught the cuff on his right arm, causing the gun to be discharged, the entire load of shot entering the left foot, and tearing a terrible hole clear through the foot, taking parts of the shoe through the wound. Mrs. Barnes rushed to his assistance and then gave the alarm. Drs. Fitzsimmons, Fairall and Rubelman were early on the scene and after consultation decided the only hope of saving the injured man's life was by amputating the foot at the instep, which operation was performed at once, and Dr. Barnes has been steadily improving. If no unforeseen complications arise it is thought Dr. Barnes will be able to leave his bed in the course of a week or ten days. The sympathy of a large circle of friends will go out to Dr. Barnes in his misfortune.
