WEeping WATER.
Republican.

Born—To Mr. and Mrs. Henry Youngquist, Friday, June 16th, a son.

Harve Manners of Council Bluffs was a visitor in town a few days last week. He is working in a garage.

Miss C. M. Paine arrived home last Friday from Gregory, S. D., where she has been the past spring and summer.

Dixie Kirkpatrick and family of Guernsey, Wyo., arrived last week. He came to take care of his wheat crop.

James Joyce returned home from the canal zone, Panama, last Monday evening. He is looking fine and had a good trip.

Mrs. David Miller went to Plattsmouth last Friday, to see her husband and take him a few clothes. David was released from jail that day and he told a Weeping Water man, "You won't see me over dar eny mo."

Walter Lovell, taken to the St. Joseph hospital recently for an operation for appendicitis, returned home Tuesday, bringing back his appendix inside. Good for Walter and we hope he can keep it there, and will recover.

On June 15th Mr. and Mrs. James Colbert were married just 49 years. Uncle Jimmy went out in the garden and dug a hill of potatoes so as to properly celebrate the occasion. He found one potatoe the size of a walnut.

C. S. Newlon left last Thursday on a trip west, for Montana, Wyoming, Washington, Oregon and California. He expects to visit a number of old time Weeping Water people, and see if his change will be beneficial to his health.

W. A. Campbell, advertising manager for the Omaha Commercial club, it is said has resigned the position and going to do a little advertising for the "Hill" railroad. The salary per year will sound like \$5,000 or \$6,000. Now we never supposed that when Mr. Campbell was assisting in the Republican office he would become quite so famous, but it is pleasing to note his rapid rise to positions of responsibility, and know that he fills them right.

A REMINDER OF EARLY DAYS IN PLATTSMOUTH

A Similar Occurrence to That of Last Saturday Evening in 1882.

From Tuesday's Daily.

The exciting occurrence at the Burlington bridge last Saturday evening brings to mind a similar occurrence that happened in Plattsmouth in 1882, at the time that George Poissal, sr., was chief of police, only there were not so many tramps to handle. Early in the day the chief had been informed by wire from Ashland that on a certain freight train that had just left that station would be found a car in the possession of fifty or sixty tramps, all of whom were armed and well equipped for a fight. Chief Poissal collected together a goodly number of brave men and proceeded to the upper railroad yards. All his assistants were armed to the teeth, at the same time he cautioned his men not to shoot unless it became really necessary.

The train arrived on time, and when it stopped Chief Poissal proceeded carefully and cautiously to the designated car, followed by his brave assistants, and shoved aside the door, fully expecting to do or to die for the protection of his people. After sliding aside the door and peering in he found the car loaded with corn, on top of which sat a crippled old man and a young boy. He soon realized the fact that he had been badly sold, and how to get out of it was the next thing. He pointed out the jail to the old man and the boy and told them to go and remain there until he arrived. Then he scattered his assistants in every direction and told them not to say a word about the "sell out." They did as requested, while George went to the jail and placed the old man and boy on the inside before he proceeded up Main street.

Old man Sherman was running the Daily Journal at that time, and he did not want him to "catch on" to the sell, because he knew, as he says, he never would have heard the last of "the brave exploit."

Crop Conditions Northwest.

South Dakota is having a harder time of it with the drought than is Nebraska. A live stock agent of one of the railroads says that the small grain is about all dried up. The corn still is in good condition and will be all right for a week or ten days. The hot wind Thursday played havoc with the small grain and the previous hot days and blasting winds were exceedingly detrimental. From Sioux City part way to Hawarden, Iowa, crop conditions are fair, but on up to Huron and Aberdeen they grow worse. Pastures are all dried up and stockmen are turning cattle into the small-grain fields. One result of the drought in South Dakota will be the premature rushing to market of cattle because of the lack of feed. Conditions in North Dakota are much better than in South Dakota, according to this report, and the Minnesota situation, according to information gleaned by him, is not serious as yet.—Lincoln News.

Kansas Quite Dry.

From Tuesday's Daily.

Mr. D. F. Kiser of Trego county, Kansas, arrived in the city last evening, having worked his way north in the harvest fields. Mr. Kiser says the drouth in his country is quite severe. He sowed 200 acres of wheat last fall and will not get his seed back; in fact, it will not pay to cut. Many wheat fields were sown last fall in which the seed is not yet sprouted. Mr. Kiser found conditions better after reaching Salina, Kas., and as he came north from that point he could note improvement all the way, but nowhere did he see better wheat, better corn and oats than he has seen since he arrived in Cass county Saturday evening.

The Kansas farmers are facing serious loss. Many of them placed mortgages on their farms to purchase automobiles, and with no crop in prospect the outlook is gloomy.

The company has experienced numerous breaks, causing a great deal of trouble and plenty of muddy water, which will now be overcome by the repairing of the mains.

Junior Normals Fake.

Colonel C. J. Bowlby of the Crete Democrat is an editor after our own heart, and when he sees things out of place he is one of those fellows who speaks right out in meeting. Here is what he has to say in reference to a punishment inflicted upon the rural school marms during their three months' vacation: "Think of the poor girls who have just finished a nine or ten months school year, being held prisoners for eight weeks of this torrid weather in the fool Junior Normals in this state, where they will spend much of their year's savings listening to the drivel of some smart guys who want to tell what they know about teaching and at the same time draw a salary which adds a neat little sum to their year's salary of twice what these poor suffering girls get. It's a shame. Why don't Edgar Howard hurl an adjective at them? Of course we don't expect editors living in towns where a state institution is located to say a word on behalf of this cruelty to tired and worn-out females, for if they did the normals would cut down the next state appropriation for such towns by their log-rolling methods. And not a paper in the state has a word to say against these fake schools."

FOR SHERIFF.

I hereby announce by self as a candidate for the nomination for the office of sheriff of Cass county, Nebraska, subject to the decision of the voters at the coming primary election. I ask the voters to place me in nomination on the democratic ticket. G. P. Barton, Union, Neb.

They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c. at F. G.
