Some Big Days' Work.

During the past few days the Journal has published a few extra large days' work for one man, but while in Murray Wednesday we were given a few record-breakers. Charles Read, one of our energetic young farmers, cut 100 acres of small grain in four and one-half days, with two four-horse teams and one binder, making changes of the teams. At F. M. Young's place Rex Young cut 35 acres in one and one-half days, or a little less time. He commenced at 7 o'clock on Friday morning and Saturday morning at 11 o'clock he finished the field. We are informed that Henry Creamer carries the banner for the season. With three teams and plows he plowed 165 acres of corn and cut 55 acres of small grain in one week; two binders were run in the small grain. This is a record-breaker and one that is hard to beat.

R. L. Propst of Mynard transacted business in Plattsmouth this morning.

Before we were fairly opened up this morning a customer was in and called for two suits of Men's Union Underwear we advertised for today at 59c. Needless to say he got them and that right quick. Everything just as advertised.

ARE MARRIED AT COAL VALLEY

Miss Conner Becomes the Bride of John Lloyd of Fairbury, Neb.

Coal Valley, Ill., June 30.—The home of Mr. and Mrs. Muri Conner, sr., was the scene of a charming wedding Wednesday evening, when their youngest daughter, Margaret A., became the bride of John Lloyd of Fairbury, Neb.

At 6 o'clock the bridal party entered the parlor, unattended. Rev. West spoke the impressive words that united these two young hearts. The bride was attired in a beautiful white gown of embroidery. She carried a bouquet of roses tied with white satin ribbon. Carnations were used in profusion throughout the room to carry out the wedding, colors pink and white.

After the felicitations a sumptuous repast was served. Those present were only the immediate family and a few near relatives.

The bride is a Coal Valley girl, having lived here nearly all her life, with the exception of a few years spent in Nebraska with relatives. She is of a sweet and lovable disposition. She has gained a host of friends. She has been one of the most faithful members of the F. Y. P. club since its organization last January. Mr. Lloyd is a locomotive fireman on one of the large western roads.

The bridal couple left last evening. They will stop at Lincoln and other places for a short visit before going to their future home in Fairbury, Neb.—Coal Valley (Ill.) Times.

Mrs. Lloyd is a cousin of Mrs. D. C. Rhoden, who attended the wedding. Mrs. Lloyd spent several years here, and had hosts of friends in Cass county. Mr. Lloyd was in Murray for about one year, where he worked for James Loughridge in the blacksmith shop. John is a hale fellow, well met, and of the hustling kind. Best wishes are extended from the many Murray friends.

LETTER FROM A FORMER CASS COUNTY FARMER

Crop Prospects in Minnesota Very Good and Bids Fair to Improve.

De Graff, Minn., July 10, 1911. Editor Plattsmouth Journal:

Dear Sir: I have been reading crop reports from different states and find so many report a failure on account of dry weather, that I will give you a few facts concerning crop conditions in Swift county, Minnesota. We have had all the rain we need here this summer and we have had ideal weather for growing crops; and if we have no hail storm before July 20 Swift county will harvest a crop of small grain that any community may be proud of.

The corn crop is also looking fine and bids fair for a good crop. Plowing corn for the fourth and last time and making hay is the order of the day now. Some early oats will do to cut about July 15. Wages are good here, \$35 per month for eight months, or \$50 per month through harvest, or \$2.50 by the day and board. Of late I have had some inquiry from Cass county in regard to crop conditions here. This will answer all inquiries, if you see fit to give this article space in your paper. Respectfully, F. M. Young, De Graff, Minn.

Threshers Are Busy.

Things are rather quiet in Murray these days, owing to the farmers being so busy in the harvest of their big wheat crop, but some are beginning to haul to town now and within a few days the wheels of business will begin to grind as never before for a great many years. We are informed that six threshing crews were working near Murray on Wednesday. Some wheat from the Range place, east of Murray, grown by Range brothers, was delivered in Murray Wednesday, and from 43 acres the boys threshed 916 bushels, the yield not being so great as the quality of the grain. It is going 63 pounds to the bushel; one load that measured 45 bushels at the machine went 54 at the elevator, nearly a 20 per cent increase.

See Jennings' for "Wear-Ever" ware.

Frank Gobelman, painter and paper hanger, Plattsmouth.

A. L. Baker and Rex Young took in the big circus at Omaha Tuesday.

Mr. I. A. Chambers of Murray was a Plattsmouth visitor today, having been called here on business.
