

GOOD ROADS FUND SHORT

Kulp Statute Proceeds Not Available Until March of Next Year.

Des Moines, July 20.—The Kulp automobile law will yield but a little over \$15,000 for good roads purposes up until March of next year, this despite the fact that the law became effective July 4. The reason is this:

Secretary of State Hayward, who collects the motor car fees, does not remit fees collected during one month until the fifteenth day of the following month, this according to the law. Hence all fees collected during July will not be turned over to the treasurer of state until Aug. 15.

The Kulp law requires the treasurer of state to make the apportionment of the auto fund among the various counties of the state Aug. 1 of this year. Hence all the fees collected in July will not be available for the treasurer when he makes this distribution.

The only money realized from the new auto law and which he will have on hand for distribution, is the sum of \$21,266.18, collected by Secretary of State Hayward under the new act during the last two weeks in June. Of this amount, 15 per cent will be deducted to cover the expense of the state in issuing the licenses. The remaining 85 per cent will be distributed among all the counties of the state.

The book also contains the most complete census returns that can possibly be obtained. From the government Mr. Brewer secured the population of the state by minor civil divisions. The book also contains the first complete divorce statistics.

Following the services a banquet for the visiting priests from both this state and Kansas was held at Walsh hall. Father Dumphy of Sutton was toastmaster, those on the toast list including several of the priests of the new bishop's diocese.

Condition of Corn in Western Iowa Has Greatly Improved.

More rain was reported in many towns in the state, and Kansas reported another good soaking. Reports from western Iowa are for the average corn crop, while more rain is needed badly towards the central parts. Until the recent rains it was feared that corn in the western part of Iowa would be an utter failure owing to the grasshoppers, but reports showed the moisture to have done away with the pests.

FEDERAL CONTROL FOR CORPORATIONS

Attorney General Favors Commission for This Purpose.

Duluth, Minn., July 20.—Gathered in the spacious banquet hall of the Spaulding hotel the delegates to the Minnesota State Bar association listened to an address by Attorney General George W. Wickersham.

Mr. Wickersham took an advanced stand on the further federal regulation of corporations, and said a government commission to regulate great industrial organizations, in the same way that the interstate commerce commission regulates railways, was certainly most desirable and might be absolutely necessary.

Mr. Wickersham's speech was little short of sensational in many of its features. He declared that it was a matter of serious consideration whether it would be practical to give to the proposed interstate corporations commission the power to fix prices. To do this in the ordinary way simply require an extension of the principle by which the interstate commerce commission controls the rates on railroads.

The law of supply and demand, Mr. Wickersham said, no longer controls prices in the United States. For years, he declared, the prices in all the great staple industries have been fixed by an agreement between the principal producers and not by a normal play of free competition. An interstate commission, the attorney general added, would prevent violations of the anti-trust act and aid business men to maintain a continued status of harmony within the requirements of law.

Many of Mr. Wickersham's declarations were the most radical he has made since his entrance into official life. With the weight of an administration officer behind them, his remarks made a deep impression.

MURDER CHARGES FAIL

Star Witness for Prosecution Admits That He Served Time in Prison.

Chicago, July 20.—State's Attorney Wayne while pressed the cases filed against Sifton O'Donnell, James Garvin and Thomas Kearney, the Chicago labor leaders indicted for the murder of Vincent Altman, who was shot in the Briggs house bar March 22 as the result of a feud between rival factions of labor unions. The labor chiefs were released from custody immediately after the cases were dismissed.

The action was precipitated by the collapse of the state's case when Frank Pardee of Denver, the prosecution's star witness, admitted on cross-examination that he had served time in a penitentiary and had been an inmate of an insane asylum for two years.

Maurice Enright is still under indictment for the murder of Altman and is being held without bail.

ALDRICH READY TO TESTIFY

Former Senator Will Go on Stand in Lorimer Probe.

WIEHE CHARGES "FRAME UP."

Detective Keely Said to Have Gotten Representative Beckmeyer Drunk and Secured Compromising Picture. More Lumbermen on Stand.

Washington, July 20.—Whether the fact administration wanted Lorimer elected to succeed Hopkins as Illinois senator and whether former Senator Aldrich of Rhode Island, then the Republican senate leader, was the means through which that wish was conveyed to Edward Hines, the lumberman, probably will be developed today.

Mr. Aldrich arrived in Washington and is ready to appear before the Lorimer committee to explain his alleged activities in connection with the Illinois senatorial election.

Mr. Hines has testified that he waited until midnight at the Washington home of Senator Aldrich while the latter, at the White House, talked over the Illinois senatorial deadlock with President Taft. At the conclusion of the conference, Hines said he was told by Mr. Aldrich that the president wanted Lorimer elected.

Mr. Hines has sought to prove that his own energies were directed toward the election of Lorimer as the result of that alleged conference at the White House, and he declared he believed he held the commission of the administration.

Following Mr. Hines' testimony a statement of the president's attitude toward the Illinois election contrary to the impression created by Hines was issued from the White House. The testimony of Mr. Aldrich has been awaited with much interest.

Reynolds Tells of Message.

President Reynolds of the Continental Commercial National bank of Chicago, who was reported to have declined the treasury portfolio in the Taft administration, told the senate Lorimer committee that he knew of Edward Hines delivering an alleged message from the administration, at Washington to Governor Deneen to aid Lorimer's election. He recited how Hines on the day of Lorimer's election consulted with him as to who to deliver the message to Deneen.

C. F. Wiehe, secretary of the Edward Hines Lumber company, said that William Burgess of Duluth, Minn., was an "absolute liar" if he testified to what was read as Burgess' testimony. Burgess had said Wiehe told him on the Winnipeg flyer March 7, 1911, that he subscribed \$10,000 to a Lorimer election fund.

Wiehe told the committee he believed there was a "frame up" between Burgess and W. H. Cook. The latter recently testified that Edward Hines telephoned from his room in Chicago the day Lorimer was elected that Hines would be down to Springfield with all the money necessary for Lorimer's election. Wiehe said he believed Cook would perjure himself to injure Hines.

Wiehe denied he ever heard of the "Father Green incident," as Burgess related it. Wiehe, however, recalled a rumor that Detective Keely of the state attorney's office in Chicago complained to Father Green about the work assigned to him in the Lorimer case and that Keely got Representative Beckmeyer drunk and that Beckmeyer was taken down to the redlight district and a compromising photograph shown him when he would not testify as wanted.

Samuel J. Cusson of Virginia, Minn., a stockholder in the Edward Hines Lumber company; John B. Price, a lumberman of Seattle, Wash., and B. A. Johnson, formerly of the American Lumberman of Chicago, told of being on the Winnipeg flyer, but denied having heard the remarks attributed to Wiehe.

BROWN IS WITH PRESIDENT

Senior Senator From Nebraska Speaks in Favor of Reciprocity.

Washington, July 20.—Criticism of his insurgent Republican colleagues in the senate for opposing Canadian reciprocity and praise of the Democratic party for "having the moral courage and patriotism to support and sustain a Republican president" characterized a speech of Senator Brown (Neb.) in favor of the reciprocity measure.

"I want to express my grief, my profound grief," Senator Brown declared, "because the bill does not have the support of some of my friends in this body whom I know at heart are in favor of lower duties. I do not complain of them. I do not charge them with insincerity, because I know them to be sincere. But I simply cannot understand them."

"It is beyond my comprehension to appreciate how in one session of congress I could vote for lower duties, in the next session favor a revision of the tariff a schedule at a time and at a third session be against this proposition, which, while it is not a revision of a single schedule, is a revision of a few schedules, not with all the countries of the world, but with one country; a plan that I believe marks the beginning of the end of extortionate tariff duties of this country."
