

Waterloo Boy

Gasoline Engine

A gasoline engine is the biggest labor saver ever used. They will run all the small machines, such as cream separator, washing machine, churn, corn sheller, small fodder cutter, dynamo, milking machine, ice cream freezer, etc. All this work can be done with the Waterloo Boy Gasoline Engine.

This engine is of the first grade material throughout, and entire engine is guaranteed for a period of five years. Engine has throttle control, which also releases all compression when starting, making it start easy, in fact can be started by any woman or child.

We deliver all engines and take care of you in case you have any trouble, until you get familiar with the engine and can locate your trouble should any ever happen to occur. Let us show you this excellent engine.

THE HARDWARE MAN

FIVE HUNDRED DEAD IN JAPAN

Tidal Wave and Typhoon Cause Great Devastation.

OVER 200 FISHERMAN DROWN

Water at Tokio Swept Away Many Houses, including Tea House With 33 Persons—People Blown From Their Housetops.

Victoria, B. C., Aug. 14.—More than 500 lives were lost and great devastation ashore and afloat resulted from a typhoon and tidal wave which swept over Japan, according to advices brought here by the Empress of Japan. The fishing fleets from Shidzuoka suffered severely. More than 200 fishermen were drowned.

At Tokyo a tidal wave swept away many houses, including a large tea house with thirty-five people. The Suzuki licensed quarters on Shimagawa bay were demolished, scores of persons being drowned, crushed to death or mortally injured. The noted Shergawa inland work factory collapsed and fifteen employees were killed, those who escaped swimming to roofs of neighboring houses after crawling from the debris.

A torpedo boat was swept ashore at Tokyo and several steamers foundered, while big liners dragged anchors.

Eight of forty men on the Amori Maru survived when she went down in the typhoon off Kuna and 100 fishermen were drowned off there. A dredge at Chiba was lifted from its moorings and cast far ashore. At this place sixty-four men who went to save a fishing depot were drowned. Messages from many points tell similar tales of disaster, of fishing vessels sunk, rivers overflowed and sea walls broken.

Thousands of houses collapsed, the number in Tokyo and vicinity being over 12,000, according to official statistics. The warehouse and factory districts of Tokyo suffered severely, eight warehouses containing goods worth \$18,000,000 being demolished. The typhoon came in the early morning, blowing more than sixty-five miles. As they rose the waves pounded the sea walls and the tidal wave followed, the lower districts of Tokyo being flooded with such suddenness that the awakened residents took shelter on housetops, many to be blown off and drowned.

FORGERS BUSY IN THE WEST

Iowa Officers Find Many Cases Where Bogus Checks Are Passed.

Des Moines, Aug. 14.—Secretary P. W. Hall of the Iowa Bankers' association is engaged in aiding detectives in running down what is believed to be a clever gang of check forgers who have been taking advantage of the fact that a goodly number of wealthy Iowa farmers have been spending the summer in the west.

They succeeded in effecting the arrest at Manitou, Colo., of F. W. Rhodes, an accomplice, who are accused of getting \$475 on a check by means of the forged name of an Iowa farmer, Jacob Arnold of Dexter, Ia., was in Manitou about three weeks ago, and there met Rhodes, who said he was a banker and talked of starting a bank in Iowa. A week later the bank at Dexter received a check for \$475, purporting to be signed by Arnold, and when the latter returned home recently, he for the first time heard of it.

Rhodes is supposed to have obtained Arnold's name from the hotel register. The bankers' association is also on the trail of Walter Ellick, who, at Salt Lake City, is supposed to have forged the name of a farmer living near Essex, Ia., for \$350.

Another similar case has been heard from at Florence, Colo., where \$610 was secured. A check for \$1,000 on a Des Moines bank, supposed to be signed by a farmer, was received from Salt Lake City, but the bank was suspicious and refused to pay and it is expected an arrest will follow. Other cases are at Ogden and Bronson, Mo.

ASSAILS CAMORRA LAWYER

Witness Says Lloy Bribed Him to Swear to False Testimony.

Viterbo, Aug. 14.—Alessandro Lloy, the attorney for the defense, was the subject of an unfriendly demonstration at the Camorra trial. Grimaldi, formerly chief of the branch of the Camorra at Castellamare, testified that Lloy had bribed him to bear false witness against Tomasso de Angelis. It is charged that the Camorristas, wishing to divert suspicion from themselves, caused the priest, Vitozzi, to falsely denounce De Angelis and Gaetano Amedeo as the murderers of Genaro Cuocolo and Signora Cuocolo.

Political Unrest in Spain.

Madrid, Aug. 14.—Recent events, including the mutiny on the Spanish battleship Numancia and strikes and republican demonstration at Cadix and Barcelona, indicate clearly the political unrest in Spain and the serious difficulties met by the government in its attempt to maintain order. Agitation against the ministry and the monarchy increases and censorship over press and telegraph is severe.

BACK FROM RACE CONGRESS

Dr. Felix Adler Tells of Uplift Plans Made in London.

New York, Aug. 14.—Dr. Felix Adler, head of the Society for Ethical Culture, has returned from attending the universal race congress in London, enthusiastic over the plans made there.

"It was decided to establish two bureaus," he said, "the first a press bureau to disseminate information concerning the activities of the oppressed races. The other will attempt to make authentic investigations of the grievances of the oppressed races."

POLICE AND MOBS FIGHT IN LIVERPOOL

Troops Called Out After Policeman Is Killed.

Liverpool, Eng., Aug. 14.—Serious rioting, growing out of the strike, took place here. One policeman was killed by being struck on the head with a brick and many persons were injured.

An altercation between a policeman and strikers during a transport workers' demonstration at St. George's hall started the trouble, which culminated in a general melee. When this disorder had been put down and the strikers scattered they gathered again in the Islington quarter and resumed their attacks upon the officers with serious results.

One hundred thousand men were gathered in groups about St. George's hall listening to speeches by labor agitators, and the scenes of violence following the attack upon policemen necessitated the calling out of police reserves. When they arrived one party of fifteen policemen was surrounded and disarmed, the rioters attacking them with their own batons. In the fight the commanding officer of the police was dangerously wounded.

So great was the disorder that the riot act was read and troops were called out to assist the police. The mob fought desperately with sticks and stones and, in fact, with any handy missile. Gradually, however, by the combined efforts of the troops and police, the crowds which were surrounding seven speakers' platforms erected on the plateau in front of the hall, were cleared away. Many policemen and rioters were injured in the hand-to-hand fighting. After the fight St. George's hall was converted into a temporary hospital.

Driven from the center of the city, the crowd sullenly repaired to the Islington quarter, one of the lowest and roughest in Liverpool. Here the police were baffled in the narrow streets, for the desperate rioters barricaded themselves in the houses and volleyed down bricks, slates and chimney pots from the roofs upon their heads.

Campaign Bill Agreed To.

Washington, Aug. 14.—Agreement on the campaign publicity bill was reached by the senate and house conferees. The measure as agreed on will be practically the same as that adopted by the senate, which amended the house bill providing for publicity in primary as well as other elections. The limitation of campaign expenditures to \$5,000 for a congressional, and to \$10,000 for a senatorial candidate, will be retained.

Negroes Find Place to Stay.

Denver, Colo., Aug. 14.—Difficulty in securing accommodations for the thousand or more delegates to the National Negro Educational association, which threatened to mar proceedings, has been overcome by the establishment of several temporary hotels and restaurants for the exclusive use of delegates who found hotel doors closed to them by reason of their color.

What's the Matter With Thomas? There are some names which seem peculiarly suited to royalty; Louis, for instance, has a kingly sound. Francis, George, Henry in both spellings, Charles, William, Edward and James all have served their turn. John has been, and Stephens, I remember a Robert in Sicily and a Peter in Russia and Serbia. Frederick has often worn the crown, and royal honors are even now paid to Ferdinand in Bulgaria. But was there ever, anywhere, a king named Thomas? Oscars and even Haakens ascend the dais, but ever through all the centuries Thomas remains the subject, sometimes struggling up to a bishopric or an earldom, but never attaining the crown. Nicholas wears the imperial purple; Godfrey lord it over Jerusalem; Alexius struts in ermine; Alexanders fare forth to conquest; Julius and Leo don the triple crown, but Thomas, poor plebeian Thomas, has never a crown to his name. Now tell me, you who are wise in the occult influence of names, what is the matter with Tom?—London Idler.

Washington as a Humorist.

While president Washington's humor seemed to find expression in the diplomacy of self protection. A French revolutionist came to him for a general testimonial, which Washington did not care to grant, yet he did not wish to give offense to the French by a curt refusal, so he wrote an evasive card worthy of Lincoln—"C. W. needs no recommendation from G. Washington."

After Cornwallis' surrender at Yorktown Washington treated him with high consideration. At a dinner given in honor of the distinguished prisoner Rochambeau proposed "The United States" as his toast; Washington responded with "The king of France"; Cornwallis, perforce, faintly suggested "His majesty," when Washington started them all by announcing, "The king of England—may he stay there!" with a ready wit that made even Cornwallis laugh.—Century.

Cards and Card Playing.

In a paper in the Journal of the Royal Society of Arts Professor H. Cheney, discussing the part played by gambling in magic, observes: "The use of cards is said to be derived from the Turot cards, which were originally employed for occult purposes. The legend which ascribes the invention of cards to the purpose of amusing a mad king does not seem at all a sufficient explanation, and there is in addition the fact that cards of a kind existed before the said king. In further support of this idea the well known practice of telling fortunes by cards may probably be regarded as a survival of a regular form of divination by such means. It seems, in fact, that card playing for stakes is a mere development of a ceremony in which individuals consulting the oracle decided to abide by its pronouncements as to the holding of disputed property."

Meteors and the Atmosphere.

One of the most useful results arising from the study of sporadic meteors is the light thrown upon the question of the height of the atmosphere, since it is the friction of the air that sets them on fire, and if their elevation is known at the moment of their first appearance the probable height of the atmosphere can be calculated. On Aug. 11, 1900, a brilliant meteor happened to impress its picture simultaneously on three photographic plates, at Tashkent, Iskander and Tschingan, in Russian Turkestan. The distances between these furnished base lines from which the height could be deduced. The calculation shows that the meteor first appeared at a height of 69.45 miles above the earth and disappeared at fifty miles.

The Orange in Spain.

It is considered a very healthful thing to eat an orange before breakfast. But who can eat an orange well? One must go to Spain to see that done. The senorita cuts off the rind with her silver knife, then, putting her fork into the peeled fruit, she detaches every morsel with her pearly teeth and continues to eat the orange without losing a drop of the juice and lays down the core with the fork still in it.

Unpalatable.

The Rev. Charles H. Spurgeon was fond of a joke, and his keen wit was, moreover, based on sterling common sense. One day he remarked to one of his sons:

"Can you tell me the reason why the lions didn't eat Daniel?"

"No, sir. Why was it?"

"Because the most of him was backbone and the rest was grit."—Youth's Companion.

CEDAR CREEK DOWNS GREENWOOD SATURDAY

The Cedar Creek Colts Add Two More Scalps to Their Long List of Victories.

Cedar Creek motored out to Greenwood Saturday and copped a scalp from that aggregation in a sensational game. It was indeed a pitchers' battle, and was evenly divided up to the last inning, when Howard weakened slightly and allowed three hits, and these, coupled with an error, gave the Colts three runs and the game. Kelly was first up and gained a life on an error, and it was here where our third sacker, Jap, came to our rescue and swatted the sphere for two bases and put Kelly on third. Gotsch then hit for a single and scored Kelly and Jap. Dugan followed with another single and scored Gotsch.

There was not a base stolen on either side, which would indicate the cleverness of the slabmen and the accuracy of the catchers' pegs. The game was a clean one from start to finish and the visitors were given much credit for the gameness they displayed by fighting an up-hill battle to a finish and winning in the last session by the narrow margin of one score. Mot Wood umpired one of the best games of the season, to the satisfaction of both teams. Batteries—Greenwood, Howard and G. Bures; Cedar Creek, Connor and Wolff. Struck Out—By Howard, 12; by Connor, 9. Base Hits—Off Howard, 7; off Connor, 5. Base on Balls—Howard, 1.

Sunday on the local diamond the fast Papillon bunch were defeated in one of the fastest games of the season. Connor went on the slab again and was the whole show, striking out eighteen of the hard-hitting Sarpy county stars and allowing but two hits in as many innings. Schneider, the first Colt up, drew a pass, went to second on a sacrifice and scored on a pretty bingle by Jeff Salberg. Nothing further happened until the fourth, when Blondy Ruff slapped one for a single, only to go down and out when he attempted to pifer second. Wolff's peg was perfect and Hirz never misses a chance to tag. Again in the sixth two scores resulted when Hirz was hit by a pitched ball and Kelly hit for two bases and Jap followed with a safety, the second time in the game. Then Walt Salberg stepped up and hit over the center fielder's head and made a dash that landed him on third base, but the preceding runner would not give up the bag and Walt was tagged. The seventh was our unlucky session, when a bad throw allowed "Blondy" to reach first and he took second on the overthrow, was sacrificed to third and scored on the second hit in the game.

Batteries—Papillon, Rhid and Lerhi; Cedar Creek, Connor and Wolff. Motly Wood umpired, and he is to be congratulated for the skill he showed, being right at the point where a close play took place whenever it was necessary. Motly could certainly stand a good show with the minor leagues, as he is thoroughly familiar with the game in all stages.

Sunday, August 6, the Lincoln

basket store ball team will cross bats with the Colts on the local grounds. So if you wish to witness a home product against city talent come out and see a fast game. Lefty Connor will be on the slab again.
