The couple were married last year and returned from their honeymoon in Europe a few weeks ago.

### KIDNAPED CHILD FOUND MURDERED

Annie Lemberger, Stolen From  
Her Bed, Victim of Slayer.

Madison, Wis., Sept. 11.—Annie Lemberger, seven years old, to find whom the whole countryside has been searched, was murdered and then thrown into Lake Monona, according to physicians who examined her body. The naked body of the child, who was mysteriously stolen from her bed in the frame cottage of her parents in the Italian quarter, was found in the lake by George Younger, a laborer. The body was found about a mile from the stricken home. It may have been dropped from the railroad bridge across the bay. No weights were on the body nor was there a rope tied to it. Dr. H. E. Purcell and Dr. Joseph Dean who performed the autopsy, found there was no water in the lungs and several had broken at the base of the brain. They gave it as their opinion the child was strangled or killed before her body was thrown into the lake. She had been assaulted.

### FOUR KILLED IN EXPLOSION

Dynamite Blast in Elmhurst Quarry  
Hurts Men to Death.

Chicago, Sept. 11.—Four men were instantly killed and half a dozen others injured, none, however, seriously, in an explosion at a stone quarry one mile west of Elmhurst. All of the Chicago suburbs for several miles around were jarred by the detonation. The tragedy was due to the premature ignition of a charge of dynamite. There were between sixty and seventy workmen in the quarry. Four of the men were at work tamping the dynamite into a hole that had been drilled for it. Suddenly the dynamite exploded. Two of the men were in the hole in the stone at the bottom of which the charge was being placed. Two others were standing on the edge of the hole just above them. The bodies of the two men in the pit were flung

high into the air like birds fired from a shotgun. Their bodies were torn to pieces. The two others were thrown down by the shock and crushed to death under tons of fallen stone.

### PAROLE FOR SALINE JUDGE

Granted Clemency.

### ONE DOUGLAS MAN PARDONED

New Law Empowers Prison Official to  
Pay Discharged Convicts Ten Dol-  
lars in Cash, but No Appropriation  
Is Made.

Lincoln, Sept. 11.—The monthly report of Warden Delahanty of the state penitentiary shows that Judge Hendee of Saline county, serving a sentence of five years for embezzlement, was paroled during the month of August. Two prisoners were pardoned, Jesse McCoy of Clay county and McPhall of Douglas county, the latter having been sent to the penitentiary for several forgeries which he committed at Omaha about two years ago. The latter was suffering from an incurable disease, while McCoy was troubled with a weak heart. McCoy soon after his release from the institution was found dead in a local street car.

Aug. 1 there were 469 prisoners at the penitentiary and at the close 462 prisoners. Twenty-two prisoners were discharged during the month by reason of the expiration of their terms, two were pardoned, one paroled and three were remanded for trial.

To each of the discharged convicts Warden Delahanty gave \$5 in cash. A new law enacted by the late session of the state legislature provided that this amount should be increased to \$10, but the same session failed to make an appropriation therefor, and the warden has accordingly been compelled to cut the statutory amount in two.

Gate receipts at the state penitentiary for this month will be large, according to Warden Delahanty's prediction. This is due to the fact that a

large number of state fair visitors called and paid 10 cents admission.

\$25,672.40 Taken at Fair.

Treasurer Dickman of the state fair board has reported as to the amount of money taken in each day in the different classes of admissions. The total admissions at the gates and in the grandstand and the bleachers amounted to \$25,672.40, the largest day's business being on Wednesday, when the total admissions amounted to \$24,318.05.

### GIVE BLOOD TO SAVE BOY

Mr. and Mrs. Glenn Transmit Life-  
Sustaining Fluid to Son.

Beatrice, Neb., Sept. 11.—As the last hope of saving the life of their son, Dewey, twelve years of age, Mr. and Mrs. J. W. Glenn of this city submitted to an operation by which the boy was supplied with fresh blood from the arteries in their arms which were attached to an artery in his arm.

A few weeks ago the boy broke his arm and was not given the proper care by the attending physician. Septic poisoning set in, and at a consultation of physicians it was deemed advisable to amputate the arm. The boy's condition was such that he was unable to stand the operation, and fresh blood was furnished him from his parents. Although he is slightly improved, little hopes are held out for his recovery.

### LAD DROWNS AT SPRINGFIELD

Bathing in Platte River.

Springfield, Neb., Sept. 11.—John Petty, aged fourteen, was drowned in the Platte river, three miles southeast of Springfield, while in bathing. Two companions, Gio Fackler and Earl Adair, were with him. They were quite a distance from him when they heard him shout and saw him throw up his hands and sink. Searching parties found him two hours later nearly a mile down the river.
