COUNCILMAN WILL PAYS FOR HIS OWN CINDERS

Makes Statement Showing Where Cinders Paid for by City Were Hauled.

Councilman Will has asked the Journal to make an explanation about the cinders which the city buys from him. He put in a bill for cinders at the council meeting Monday night and Councilman Neuman asked where they had been sent to.

Mr. Will states that he has a year's contract for all the cinders produced at the water plant. He pays 15 cents a load for them. He is using most of the cinders for his own purposes. When the city wants cinders it notifies Mr. Richel, who does the hauling for both the city and for Mr. Will, and Richel hauls them where the city directs. The city pays 15 cents a load for them, which is the price that Mr. Will pays. Mr. Will pays out of his own pocket for all the cinders that he uses himself.

Councilman Will handed to the Journal a signed statement from W. B. Richel, which shows where the cinders paid for by the city were hauled to.

The following is the list of places where the cinders were used: For the Chicago avenue crossings, one load on each of the following days: December 23, January 6, January 12, January 30, February 4, February 15, February 22, March 20 and June 3. To the cemetery road, four loads March 28, two loads on March 29, March 30 and April 1; four loads on April 3, two loads on April 5, 6, 7, 8 and 10 and one load on April 15 and one on April 17; for the William Shea walk, four loads April 13, two loads July 29, one load August 19; for Mrs. Campion walk, two loads on June 2; for Kelly Fox walk, one load September 9. The list was signed by W. B. Richel.

As usually treated, a sprained ankle will disable a man for three or four weeks, but by applying Chamberlain's Liniment freely as soon as the injury is received, and observing the directions with each bottle, a cure can be effected in from two to four days. For sale by F. G. Fricke & Co.

WILL WAIT ON REPORT FROM WATER COMMITTEE

Council Will Not Take Up Water Franchise Question Until Report Is In.

The city council will take no action on the water franchise until the fire and water committee makes its report on the resolution referred to it at the meeting of the council Monday night. This resolution was to the effect that the best interests of the city demanded a ten-year franchise instead of 20 years, as asked for by the water company.

The fire and water committee consists of Neuman, Doye and Shea. It is said that this committee is sending out blanks to various towns of this size and getting information about the rates charged for water. They will use this information in arriving at what they consider a fair schedule of water rates to incorporate in the franchise.

Director Elected.

At a meeting of the directors of the First National bank, held last evening, Dr. E. W. Cook was elected a director to fill the vacancy caused by the death of Mr. David Hawksworth. Mr. Hawksworth served the bank faithfully as a director for twenty-eight years, meeting in the old days with such men as A. O. Touzalin, John Fitzgerald and John R. Clark, leading financial men of those days, all of whom have passed away. Dr. Cook will no doubt add strength to the board by bringing to it considerable financial ability.

REGULAR TEACHERS' MEETING FOR 1911-1912

General Meetings Will Be Held on the First Monday of Each School Month.

At these meetings every teacher in the system will be expected to be present. The work is Hoyt's "Studies in the History of Modern Education." Teachers will hand in note books at the close of each meeting, answering not less than ten questions of the assignment. These sessions will begin promptly at 4 o'clock and will last not to exceed an hour. So far as possible at the general meetings I shall confine the work to the text assigned, leaving the discussion of other matters to the sectional meeting.

The high school section will meet on the second Monday of each school month. Matters for the general improvement of the high school will be suggested by the teachers. Particularly the plan books and delinquencies of students will be discussed.

The grammar section will assemble regularly on the third Monday of each school month. In this section will be all the teachers on the second and third floors of the Central building, those on

the second floor of the Columbian building and the teacher of room No. 21, Fourth ward building. There will be an endeavor at the meetings of this section, in addition to the kind of work done at the high school section, to keep grades of the same rank together.

The primary section has its meeting on the last Monday of each school month and follows very closely the plan of the two other sections.

It is expected that at the sectional meetings each teacher will bring her plan book. Let each come prepared also to bring up for discussion any bothersome problem for consideration by the whole section.
