AUTO PAINTING FOR INSTANCE!

We can take your car and give it the same skillful attention the manufacturers do. We would clean it, burn it off, scrape it, sand it, fill it, rub it down, paint it several coats, stripe it or decorate it, varnish and revarnish and polish, polish and polish until you will wonder if you are getting the same car back. All these processes if you think the car needs it or such as we deem necessary. Sometimes a LITTLE VARNISH is a BIG HELP.

QUICK MEAL

Blue Porcelain Enameled STEEL RANGES

-- AN ORNAMENT FOR TIDY HOUSEWIFE --

DURABILITY and cleanliness are the special features of the Quick Meal Blue Enameled Steel Ranges.

This range is entirely coated with enamel on a specially prepared steel body and is fused onto the steel at a temperature of 2,000 degrees Fahrenheit in such a way that the enamel becomes a part of the steel itself, therefore it cannot corrode or become rusted by acids.

These ranges have triple walls—the outer wall (made of special steel) is covered with a coat of enamel on both sides, and in addition to this has an extra coat of blue enamel dotted with white on the outer side.

Next comes a sheet of asbestos, the best heat retainer made, and then another sheet of steel enameled on both sides.

The beauty of this range can hardly be appreciated until you have seen the range itself.
