QUICK MEAL Blue Porcelain Enameled STEEL RANGES

-:- AN ORNAMENT FOR TIDY HOUSEWIFE -:-

DURABILITY and cleanliness are the special features of the Quick Meal Blue Enameled Steel Ranges.

This range is entirely coated with enamel on a specialy prepared steel body and is fused onto the steel at a temperature of 2,000 degrees Fahernheit in such a way that the enamel becomes a part of the steel itself, therefore it cannot corrode or become rusted by acids.

These ranges have triple walls-the outer wall (made of special steel) is covered with a coat of enamel on both sides. and in addition to this has an extra coat

of blue enameldotted with white on the outer side. Next comes a sheet of asbestos, the best heat retainer made, and

then another sheet of steel enameled on both sides.

The beauty of this range can hardly be appreciated until you have seen the range itself.
