until the last minute to buy your fencing. Whether it be a small or large quantity, we want you to come to us, look over the different styles and have your order filled and set aside for you, so when you want it we will have it for you.

We try to carry a full and complete line of fencing, but we can never tell just how much we will sell of each kind, so in order to avoid any delay and so you may get the kind of fence you want, we would like to have all our fence customers—both old and new—to let us know what they expect to use.

Our prices are right and we will figure our fencing against any mail order house that you wish us to.
