An Easy Agreement.

There are opinions on which people cannot agree and very seldom one is found to suit everybody. Such an opinion should be taken for truth. As far as we know there never was an substantial difference, among our people, regarding the effect of Triner's American Elixir of Bitter

The very valuable remedy will clean out the intestines, and, if taken for some time, will keep Wine upon the digestive organs, them clean. It should be used in all cases accompanied by loss of appetite, constipation, pain in the stomach or in the bowels, windcolic, headache, nervousness, attacks of rheumatic and neuralgic pains. It is very good in many indispositions of women, in anemia, malaise, poor complexion, weakness, abdominal pains. At drug stores. Jos. Triner, 1333-1339 S. Ashland Ave., Chicago, Illinois.

Hon. John H. Morehead.

Lieutenant Governor John H. Morehead was in the city last Thursday and Friday and made the acquaintance of a large number of our people. Mr. Morehead is a candidate for governor. He is one of these great big, open, frank, free and generous men who make you feel good to meet and talk with. There is no bombast, nothing of the boss in his make-up, but just a real gentleman. He is one of the old settlers of this state, and has lived at and near Falls City for a third of a century. No man can truthfully utter one word against his character or his life. He is not the candidate of any factions, but is the candidate of the people, and he expects the people to rule in the nomination for governor and he is going to abide by their actions. He has nothing but the fullest confidence in the people. He is their friend, and he believes that they are his friends. He will be their friend if nominated and elected—which he will be. If he receives the nomination he will make Kearney an extended visit during the summer and become acquainted with all our people.—Kearney Democrat.

C. A. Glossner, 24 Ontario St., Rochester, N. Y., has recovered from a long and severe attack of kidney trouble, his cure being due to Foley Kidney Pills. After detailing his case, he says: "I am only sorry I did not learn sooner of Foley Kidney Pills. In a few days' time, my backache completely left me and I felt greatly improved. My kidneys became stronger, dizzy spells left me and I was no longer annoyed at night. I feel 100 per cent better since using Foley Kidney Pills." For sale by F. G. Fricke & Co.

Makes Plat of Rifle Range.

Surveyor Fred Patterson has surveyed and platted the government rifle range, which contains a trifle over 400 acres of land. Making the plat and figuring and computing the acreage in all of the smaller sub-divisions of the tract required about a week of arduous toil. The south line of the range is the north line of the Plattsmouth Water company's land and extends east and west a few rods north of the pumping station. The range lies on the east side of the Burlington track, but twenty acres for a camp on the hill sloping west of the track has been secured by the government. The ground for the camp is ideal, being rolling and with plenty of shade trees to protect the men at rest. Mr. Patterson has a copy of the range plat hanging in his office.

BACKACHE ALMOST UNBEARABLE

Is an almost certain result of kidney trouble. D. Toomey, 803 E. Olive St., Bloomington, Ill., says: "I suffered with backache and pains in my kidneys which were almost unbearable. I gave Foley's Kidney Pills a good trial, and they done wonders for me. Today I can do a hard day's work and not feel the effects." For sale by F. G. Fricke & Co.

FOUR SPANS OF DUFF-POLLOCK WAGON BRIDGE WENT OUT LAST NIGHT

Three Spans of the Louisville Bridge Also Succumbs to the Huge Cakes of Ice and are Swept Away—the Missouri Pacific Bridge Moved Five Inches out of Line, Other Damages May Follow

Notwithstanding the great amount of caution and labor exerted by Manager T. H. Pollock to avoid disaster from the unusual accumulation of snow and ice along the Platte river, last night about 7 o'clock 4 spans of the Duff-Pollock wagon bridge were swept away by the huge cakes of ice which the current carried against the piling. Mr. Pollock and a force of men have been working at the ice and blasted it away from the piers and had the channel clear about the bridge, but a gorge was formed in a way that was least expected and resulted in working havoc on the wagon bridge.

The ice had broken loose from the banks and channels of water had been running through it from Cedar island this way most of the day yesterday. An acre of ice in one block would move down the stream for some distance and then break in great blocks, which accumulated against the wooden piers of the Burlington bridge at the north end, throwing the current southeast through the eighty-foot steel spans of the Burlington bridge and piling the ice against the steel spans of the wagon bridge, which threw the current north against the wooden piers and the huge cakes of ice surging against them cut them

off, and four spans next adjacent to the four steel spans at the south end of the bridge went out.

For a time the material lodged in the ice gorge at the mouth of the Platte, but was finally released, a portion at a time, and floated out into the Missouri, and about nine o'clock this morning the reflex current from the big Burlington bridge had brought some of the material back into dead water at the mouth of the sewer. Men were sent out in boats to gather in the material as fast as it floated down the stream.

Three spans of the Louisville wagon bridge was carried away yesterday afternoon during the breaking up of a huge ice gorge.

A Childers, the Platte river fisherman, came down on No. 4 this morning and brought the news that the heavy swing of ice had moved the Missouri Pacific bridge five inches out of line.

The Duff-Pollock bridge had not suffered further damage than was wrought upon it last night. Mr. Pollock does not think that any further damage will be done, unless the wooden piers of the Burlington bridge gave way, in which case the north end of the wagon bridge will be unable to bear the rush of ice and water that would result.

A Good Law.

Sheriff Hyers believes a law should be passed that would make it necessary for every man who purchases a gun or revolver to have a permit from some competent authority. Further, a record should be kept of every gun sold and of the purchaser. In this way it would be possible to trace where guns that are found in the hands of people who have no right to carry them came from. Officers frequently would be aided in trying to ferret out crime.—Lincoln Journal.

R. G. Collins, Postmaster, Barnegat, N. J., was troubled with a severe lagrippe cough. He says: "I would be completely exhausted after each fit of violent coughing. I bought a bottle of Foley's Honey and Tar Compound and before I had taken it all the coughing spells had entirely ceased. It can't be beat." For sale by F. G. Fricke & Co.

Will Repair Bridge.

Glen Smith, the contractor who erected the Pollock-Duff bridge, arrived at the scene of the wreck on No. 24 today in response to a phone message from Mr. Pollock, and is arranging to put in steel spans where the four wooden ones went out.
