There were over seventy-five relatives and friends at the Puls home on this occasion to assist Mr. and Mrs. Puls in celebration of the happy event. The day was spent in numerous games, music and a genuine good time. They were treated to a feast of good things to eat at the usual hours, and when we say it was a feast we know it, for we know that Mrs. Puls knows how to prepare a meal that cannot be surpassed in any home in Cass county, and the vast number present know this as well as we do. Miss Mary West, sister of Mrs. Puls, from Plattsmouth, was present to assist Mrs. Puls in the serving. Mrs. Puls was the recipient of a large number of very handsome and useful presents, which will remain very dear to her in years to come in remembrance of the happy twenty-fourth birthday. A New Gas Light.

Just last week we spoke of Murray soon becoming a genuine manufacturing town, and from the developments of the past week we know it. S. O. Pitman is now in line with a new invention that if it proves as successful as he thinks for, will make Murray a genuine manufacturing town. It is a new acetylene gas plant, and it sure produces the very finest light known to the artificial plan of illumination. He will produce a plant with a fifty-light capacity for the same money that other companies are placing one with half the capacity. Sam now has one tank erected for the trout and it is working to perfection. It is Mr. Pitman's intention to make the machines in their present shop until the business increases to the necessity of erecting a new building, which will be done in due time. The new light is a success beyond all doubt and will sure meet with great demand when properly introduced on the market.
