DO IT NOW!

The Season for Cyclones and destructive wind storms is at hand!

Are you protected? I will write cyclone insurance for 75 cents per hundred for a term of five years. That means that you can carry \$1,000 insurance for \$1.50 per year. It is not wise for you to take the risk when others will take it for you at such a low rate.

Fire insurance at lowest rates on stocks and dwellings. Special rates for long term policies.
