ACTIVITY ALONG MILWAUKEE
 Big Force of Graders Scattered on Line Across Iowa.
 Council Bluffs, Ia., May 29.—The Milwaukee is pushing the reconstruction of its Omaha-Chicago line across Iowa and by June 1, 900 carloads of graders' outfit will be scattered along the line. Carloads of laborers are being shipped and every few miles from the Missouri to the Mississippi river grading camps are being established. Surveying gangs have started between Coon Rapids and Manila in an effort to find a way of reducing the grade between the two points.
 By going through the hills, instead of around them, the mileage across Iowa will be reduced considerably.
 The most expensive piece of work on the new line is the bridge over the Des Moines river between Madrid and Woodward. This structure, work upon which has been commenced, will cost \$1,000,000. With the approaches, it will be one mile long and at the highest point the floor will be 165 feet above the water, making it one of the highest double track bridges in the world.
 The entire line from the Mississippi river is to be double tracked.
Baby Badly Injured by Rooster.
 Clarion, Ia., May 29.—Harold, the three-year-old son of Mr. and Mrs. John Trauschmann of this place, lies dangerously low as a result of almost bleeding to death from wounds made by a big rooster when it attacked the child. The little boy was in the chicken yard and stooped down to pick up an egg, when the rooster attacked him. It struck him in the neck with its spurs, severing the jugular vein. The child's mother was able to staunch the flow of blood until a doctor arrived.
Merchant Found With Skull Fractured
 Quimby, Ia., May 29.—James Leyda a hardware merchant at this place, was found in an unconscious condition from a fractured skull at the home of Jack Sutley. Surgeons called to care for Leyda pronounce his condition serious. The man has a hole in his skull made by some sharp instrument. Sutley was arrested. It is alleged there was a quarrel at the Sutley home and as a result Leyda received his injury.
Lightning Kills Farmer.
 Spirit Lake, Ia., May 29.—James Brown, a farmer living ten miles north of here, was struck by lightning and killed. His clothing became ignited and when found the body was burned almost beyond recognition. The team which he was driving was killed and the buggy consumed by the flames.

DEMOCRATS MEET AT GRAND ISLAND
 State Committee Picks W. H. Thompson to Open Convention.
 DELEGATES NAME ALTERNATES
 Warm Controversy at Lincoln Meeting, in Which Clark Men Seek to Have Alternates Instructed Apart From Original Instructions.
 Lincoln, May 29.—About seventy-five Democrats met at the Lincoln hotel here, subject to the call for the members of the state committee to meet and select alternates to the national convention.
 Many prominent Democrats were also present, among them W. J. Bryan, Herman Diers, Democratic candidate for lieutenant governor; J. B. Eastman, candidate for land commissioner, and Andrew Morrissey, candidate for attorney general; H. C. Richmond, candidate for auditor.
 After some discussion as to the method of selecting a place to hold the state convention, Grand Island was chosen, receiving 15 votes; York, 6; Lincoln, 3, and Omaha, 2.
 Arthur Mullen precipitated a warm debate by introducing a resolution providing for selection of alternates by district delegates from each district and of the alternates at large by the full committee. Several members of the committee advocated the selection of alternates whose names had been written in on the primary ballot.
 Mr. Bryan proposed that each delegate select his own alternate. He said, "as a progressive Democrat, I do not want any set of men to select for my alternate a reactionary Democrat."
 Judge Tibbets fell in with Mr. Bryan on the matter and moved that Mr. Mullen's resolution be amended to meet Mr. Bryan's plan. George Rogers of Omaha suggested that the alternate be Champ Clark men inasmuch as the state had endorsed Clark.
 Mr. Mullen asked what would be done about alternates elected at the primary who had already been issued certificates.
 Mr. Bryan offered to fix matters all right with the men selected.
 Mullen then moved another amendment that the alternates selected be pledged to Champ Clark.
 Mr. Cowen of Stanton shouted: "How about those delegates elected for Harmon?"
 Mr. Cowen then brought peace by making a motion that the alternates be instructed to vote the same as their delegates were instructed.
 The following delegates being present announced their alternates:
 P. W. Shea, W. E. Uehling of Franklin, F. T. Swanson, Lem Tibbets of Hastings.
 W. H. Thompson of Grand Island was selected as temporary chairman of the state convention.
COURT RESTRAINS KOENIG
 Surprise Is Sprung by Babcock in Water Power Case.
 Lincoln, May 29.—A surprise was sprung before the state board of irrigation, which met in the governor's office, by Judge A. M. Post of Columbus in the Koenig-Babcock water power case, appearing with an injunction from the district court of Platte county, restraining A. C. Koenig, his agents and others from prosecuting a contest against the Babcock claims for water from the Loup river. The injunction runs against Koenig, his attorneys, Ricketts and Flansburg, and also W. E. Sharp, president of the Lincoln Traction company, A. W. Field, C. T. Boggs and H. E. Heiner, the latter four gentlemen having bought, so it is claimed, Mr. Koenig's rights in the power project. Judge Post, E. J. Strode and Judge Root, attorneys for Babcock, asked for a little time to consult and an adjournment was taken till afternoon, when C. C. Flansburg, one of the attorneys for Mr. Koenig announced that his client was not willing to proceed and run against possible contempt proceedings. Governor Aldrich then announced that the board would take no further action at this time.
Salem Boy Is Drowned.
 Salem, Neb., May 29.—Lawrence Ledbetter was drowned in the north fork of the Nemaha river above the mill dam. He was twelve years old and the son of a farmer living near town. Lawrence was sent by his mother to town for groceries and on the way met two other boys and they decided to go swimming. The body was recovered by some Salem men diving for it.
Cut Worms Damage Corn.
 Sutherland, Neb., May 29.—Farmers report the presence of cut worms and other injurious worms in their fields of young corn. It is thought that the damage will be considerable in places and that quite an acreage will have to be replanted. The fact that the crop is unusually late for this season of the year will likely preclude the second planting in some instances.
Weeping Water Boy Badly Hurt.
 Weeping Water, Neb., May 29.—Wyle, son of George L. Colbert, living five miles southwest of town, met with a serious accident. He had climbed a tall tree and fell to the ground. Both arms were broken and he struck on the back of his head in such a manner as to crush in the chest.

MANY MUSICIANS GATHER IN OMAHA
 More Than Six Hundred Cities Are Represented at Meet.

Omaha, May 28.—Nearly 200 professional musicians from all parts of the United States and Canada, representing 60,000 professionals from over 600 cities, are in Omaha as delegates to the seventeenth annual convention of the American Federation of Musicians, which opened at Washington hall, to continue till Saturday evening. Besides the delegates, a large number of guests, as well as wives of the delegates, are in attendance.
 The delegates, led by a band of 100 pieces, marched from the Paxton hotel, which is the headquarters for the musicians, to Washington hall. The meeting was called to order by President J. N. Weber of New York. The afternoon was spent in organizing and appointing committees, hearing the reports of the officers and the introduction of resolutions.
 A committee will be appointed to arrange for a memorial service for the Titanic musicians, who lost their lives on the ill-fated ship, or to start a fund for their relatives. President Weber said he did not know which would be done and that the delegates might decide to hold a memorial service and raise a fund as well.
 Musicians were never so thoroughly organized in the country as they are today, the officers says. All the symphony orchestras and famous bands in the United States and Canada are represented in the organization.
CROPS ARE IN FINE SHAPE
 Railroad Reports Show That Little Damage Is Done to Date.
 Omaha, May 28.—Regardless of the hot and dry weather that has continued during the last week, the railroad weather and grain reports received at headquarters are optimistic so far as the crop outlook is concerned in Nebraska.
 In most localities in Nebraska and Kansas the reports state that while soaking rains would be most acceptable, they are not very badly needed, adding "that as a rule, there is no extreme need for rain for some time."
 The Burlington's crop report shows most of the corn to have been planted and growing nicely, a good stand and unusually free from weeds. This cereal is reported as being about ten days late.
 Pastures are said to be in unusually good condition. The first crop of alfalfa has been cut and is heavy, ranging from two to three tons per acre.
Sergeant Acquitted of Murder.
 Cody, Wyo., May 28.—Sergeant Clarence Brittain, charged with the murder of Private Cunningham in Yellowstone park last March, was acquitted by the court-martial that reviewed the case. The testimony showed that Cunningham had mutinied and refused to obey the orders of Sergeant Brittain, who was forced to shoot to save his own life. Private Frank Carroll, who was accidentally shot at the time of the Cunningham killing, is recovering.
Balloons Fail to Win Lahm Cup.
 St. Louis, May 28.—Albert von Hoffman and Captain John Berry, both of this city, were forced by a storm to land the balloon St. Louis at Roseville, Ill. They left San Antonio, Tex., in an effort to win the Lahm cup, now held by Alan R. Hawley. Roseville is in Warren county, 173 miles north of St. Louis, on the Burlington. It is about 900 miles on an air line from San Antonio. Hawley's record is 1-171.9 miles. Neither balloonist was injured.
