The Chalmers Motor Company:

GENTLEMEN—My attention has been called to the mileage records of 15 cars, as set forth in your Chalmers Doings of March 11th, and, in view of the fact that these records do not appear to me to be extraordinary, I am of the fact that these records do not appear to me to be extraordinary, I am taking the liberty of sending you a statement of my own experience.

On September 28th, 1909, I purchased from your local representative, the H. E. Fredrickson Automobile Co., a model K "30" Roadster, which I have driven since on the average of nearly 75 miles each driving day, or a total of 65,000 miles. Understand there were many days when weather conditions or the requirements of my business did not permit of much mileage—some days not any—and in order to reach this grand total it was necessary to drive from 100 to 150 miles on literally hundreds of days. I have driven as high as 1,600 miles in a single week.

I might mention that my occupation as President and Manager of the Waterloo Creamery Company requires that I visit our many branches and our condensing plant at Papillion nearly every day. And I have driven my car to these points when no other machine could get through, times innumerable.

I have driven this car overland, having hauled 26 people in it a distance of two miles in the mud. I have subjected the mechanism to tests that I don't believe were fair to the car, time and again.

I have made two trips into Colorado, and last September I drove from here to Cherokee Park, Wyoming, without stopping except for meals. I returned at the same speed.

The machine as it stands today runs very quietly and is in perfect condition. It will do anything I ask it to and has great speed and hill-climbing capacity at the present time, just as it had when new.

On account of the ability of this car, I have been able to superintend personally three times as much territory in my business as I would have been able to look after without the car.

I don't know of any reason why I should change for a new car for the next two years, for I think that I will be entirely satisfied to use my little old Chalmers, as it is beyond question absolutely reliable at all times.

My friends who know the service this car has given, can hardly believe that a car of this price could have stood it and come through in such excellent condition.

Very truly yours,
Omaha, Nebraska, March 21, 1912. LEROY CORLIS, Pres., Waterloo Creamery Company.

Makes the Nation Gasp.

The awful list of injuries on a Fourth of July staggers humanity. Set out against it, however, is the wonderful healing by Bucklen's Arnica Salve, of thousands, who suffered from burns, cuts, bruises, bullet wounds or explosions. It's the quick healer of boils, ulcers, eczema, sore lips or piles. 25 cts. at F. G. Fricke & Co.
