Make Canvass Next Week.

The committee of the Commercial club appointed on hand concerts this summer, composed of George Falter, John Crabill and C. W. Baylor will make a canvass of the business houses next week and raise the necessary funds to defray the expense of the concerts. None of the merchants, as far as we can learn, are in favor of longer attempting to make a park out of the paved streets, and there will be a concerted movement to take the concerts to the vacant plot north of the court house, where chairs and seats can be provided for the people. It is hoped that everyone will respond this year as liberally as they did last year, and if they do the concerts will be assured. There is no other means of bringing the people together socially once each week than the open air concerts, and there is nothing that speaks so much for the enterprise of the community as the weekly hand concerts, such as were had last summer. If the funds can be raised the concerts will be assured, otherwise not.

Exciting Game Next Week.

From Friday's Daily.

Play ball, foul, out on first, etc. All of the foregoing and more will be borne on the sound waves of the sand-bar ball ground atmosphere one afternoon next week, when the north side Main street merchants are pitted against the south side merchants. A game is being arranged for one afternoon next week and the business section of the city will be asked to take two hours off during the game and repair to the ball diamond and watch the sport. Also take note of one of the neatest ball parks in the state. Let everybody come out and see the merchants play ball. As the players receive no salary the charge at the gate will likely be nothing at all.

Austin joined in the holy bonds of matrimony Mr. Earl Kline and Miss Lula Baughman, at 6:30 p. m., and Mr. Harry Baughman and Miss Mabel Kline at 7 p. m. The first happy young couple had departed before the second appeared, and Rev. Austin surprised Mr. Baughman and bride by informing them that Mr. Kline and bride had stolen a march on them and beat them to the parson's house. Mr. Kline and bride and Mr. Baughman and bride will begin housekeeping on the farm near Cedar Creek.

Fine Ball at Weeping Water.

From Saturday's Daily.

Her von Holly returned from Weeping Water with the M. W. A. orchestra at an early hour this morning. The Weeping Water ball, given in Philpot hall, was a grand, howling success. There were more than 125 paid admissions at \$1 per, meaning that about 300 young people crowded the large hall. Mr. Holly deems it one of the finest dances he has yet had the honor of providing music for. The floor is a fine one, the hall is lighted with indirect electric lamps, all night current. The hall will be equipped with electric fans at the next event.

Breaks Both Bones of Forearm.

James Waters met with an accident Friday morning in which both bones of his left forearm were broken. He was in the act of removing a belt from the revolving drive wheel of a cycle saw outfit when the glove on his left hand caught on the set screw fastening the wheel to the shaft. Had the glove been of stronger texture more serious injury might have resulted. A physician was immediately summoned and the arm properly set. James is doing nicely and claims he will do something to that set screw when he is able.—Elmwood Leader-Echo.

Completes Some Fine Views.

G. R. Olson has just completed a job of 300 cards 20x24 inches, containing 14 fine cuts of views of the vicinity of Louisville for the Louisville Bridge company. The reading matter in the center of the card is the artistic work of the Journal's job office. It is the purpose of the bridge company to distribute these cards in the garages through the country.

Poisall Graders Move Today.

From Saturday's Daily.

George Poisall moved his grading camp from the sand-bar this morning, where he has been making a roadbed for the Burlington to place a side track from the pumping station southward 300 or 400 feet. The camp will go to work on a job for the M. P. between Murray and Union, where the railway company is widening the grade.

Prospects Good in Colorado.

From Thursday's Daily.

R. Wood of Aekron, Colorado, who has been a guest of Will Fight for a few days, departed for his home this afternoon. Crops are looking good in that locality, and a five-inch rain fell there since Mr. Wood left a week ago. Small grain and grass are looking especially fine and corn is doing well.

Takes in Old Dollar.

J. L. Burrows, hack driver on the Q. K. Parmele line, yesterday received a silver dollar from a traveler of the mintage of 1839. The dollar, although out of the mint seventy-three years ago, does not show as much wear as some coins of the same denomination issued fifty years later.

R. M. Stivers, who for the past few months has been in the employ of Hatt & Son, in this city, has accepted a position with the firm of Wolf & Ault, at Cedar Creek. Mr. Stivers will go to Cedar Creek on next Monday to enter upon the duties of his new position, but will not move his family from Plattsmouth for a few weeks. Mr. Stivers is an excellent young man and will prove a valuable assistant to the Wolf & Ault store.

Who Threw That Rock?

Mrs. D. E. Jones was over visiting her daughter, Mrs. W. W. Davis, last Saturday afternoon. The ladies were looking at the flowers when from some unknown source a rock struck Mrs. Jones over one eye, cutting a deep gash and bruising the flesh. There is no reward for the apprehension of the culprit, but a great deal of speculation as to whom it might be.—Weeping Water Republican.

Testing Water of Rivers.

The state board of health has undertaken to ascertain to what extent the water of the Platte river and the Missouri near this city is fit for use. Yesterday morning and also this morning Mayor Sattler sent samples of the water from both rivers to Dr. A. H. Carr, Twelfth and M streets, Lincoln, for inspection. The state board of health furnishes two pails equipped with small bottles, surrounded by packing and room for sufficient ice to keep the samples cold until they reach the doctor's laboratory. The test is to be made every morning for six weeks, at the end of which time the board hopes to have sufficient data to make a report.

FAREWELL PARTY FOR MRS. CROSKARY

The Five Hundred Club Enjoys a Pleasant Afternoon at the Goos Hotel.

From Saturday's Daily.

The members of the 500 club assembled at the home of Mrs. Mumu last evening about 8 o'clock and then wended their way to the Goos hotel and tendered Mrs. Olga Croskary and little son, Harold, a pleasant surprise. Mrs. Croskary was taken at once with complete surprise, as she had not been kept informed as to the doings of her numerous friends.

Mrs. Croskary and little son will depart tomorrow afternoon for a two months' visit with relatives and friends at various points in Montana and Oregon, and so this enjoyable occasion was in the nature of a farewell. For a time the principal amusement was derived from several games of cards, after which all sorts of games, such as drop-the-handkerchief, tin-tin and the like were indulged in, and which produced considerable merriment.

The guests having come armed with many good things in the line of eatables, a dainty luncheon was prepared and about 11 o'clock all repaired to the dining room, where this luncheon was served, and to which all did ample justice. During the evening some delightful vocal and instrumental music was had, Mrs. Burdick and Mrs. Croskary furnishing a number of pretty instrumental selections.

Those who participated in this pleasing evening's entertainment were: Messrs. and Mesdames John Lutz and daughters, Helen and Catherine; Will Mason and son, Ralph; Roy Burdick, Mesdames William Henriksen and little daughter, Arthur Dodson, N. W. Chrisinger and Jesse Warga.

Miss Leona Brady was an Omaha passenger this afternoon, going on the fast mail.

Woodmen Circle Meets.

From Friday's Daily.

The local lodge of the Woodmen Circle held a very enthusiastic meeting last night, at which time a class of 14 new members were initiated. Mrs. Remington, state organizer, was present and assisted in the work and at the close of the exercises gave a very pleasant and profitable talk to the members. In about ten days another large class will be initiated. Mrs. Manchester, supreme guardian, will be present at that time and bring the Omaha drill team, which will put on the special work. The Woodmen Circle is gaining a strong foothold in Plattsmouth. After enjoying refreshments that the ladies of the lodge had prepared and engaging in social conversation for about an hour, the meeting adjourned.

Heavy Rains in the West.

From Friday's Daily.

General Superintendent Allen of the Burlington said yesterday that returning from Denver he saw evidence of plenty of moisture in eastern Colorado and western Nebraska. Streets were muddy at Denver when he left and water was standing in pools along the road in eastern Colorado. Crops looked well and the conditions were about all that could be asked for. Mr. Allen said crop conditions were as good or better than the average for this district at this time of year. There will be a wheat crop of considerable size and corn prospects are good.—Lincoln Journal.

No Passengers Were Killed.

A statement issued by the management of the Burlington discloses that no passengers were killed on that system during the year ending Friday, June 21. Throughout the twelve months there were 22,014,305 passengers carried on the 9,322 miles of road operated by the company. No passengers have been killed on the suburban lines of the Burlington during the past five years.

Simplicity, reliability and easy control make the Cartercar ideal for the country man.

You can follow along behind a flock of sheep or drove of cattle, never crowding them in the least—or you can speed around everything in sight.

With the self starter anyone can operate the car easily. The Cartercar is a great favorite with the ladies.

The chain-in-oil drive is the most economical means of transferring power to the rear axle. It is noiseless. The chain runs in a constant oil bath, which prevents wear.
