

The Pollock-Duff BRIDGE

makes possible a delightful Auto ride to Omaha—only 19 miles distant from Plattsmouth.

A drive over Omaha's 25 miles of beautiful paved boulevards and park system will furnish a pleasant surprise and recreation.

Fort Crook's fine macadam drives and regular afternoon and evening band concerts are very enjoyable and are free to the public.

Take a little jaunt over the new Auto and Wagon Bridge. You will like it.

Henry Spoke, one of our prosperous farmers living east of town, was the first one in this neighborhood to finish cutting wheat. On Friday he threshed his wheat and averaged 25 bushels to the acre. This is indeed a good yield, but it is more pleasing to know that it tested 64 pounds.

Our good friend, Sam Westlake, is another contestant for the wheat-raising honors, and on Saturday and Monday he delivered about 1,000 bushels to George Trunkenholz, which averaged 26 bushels per acre and tested 64 pounds. Cass county wheat is not so bad after all.

the ends and secure them. If nature finds a way to feed the arm he will come out all right, but there is a chance that he may have further trouble.

Mail Carriers Will Fly.

This is an age of great discoveries. Progress rides on the air. Soon we may see Uncle Sam's mail carriers flying in all directions, transporting mail. People take a wonderful interest in a discovery that benefits them. That's why Dr. King's New Discovery for Coughs, Colds and other throat and lung diseases is the most popular medicine in America. "It cured me of a dreadful cough," writes Mrs. J. F. Davis, Stickney Corner, Me., "after doctor's treatment and all other remedies had failed." For coughs, colds or any bronchial affection it's unequalled. Price 50c and \$1.00. Trial bottle free at F. G. Fricke & Co.

George Foreade, Missouri Pacific station agent, is taking a deserved vacation and in company with his family left Monday for Gradois Mills, Missouri, where they will visit for a time with relatives. J. F. Mayfield of Talmage is taking care of business at the station in Mr. Foreade's absence.

George Ringo's old driving horse took a foolish streak Wednesday on Main street and upset the buggy. George was picked up and later taken to his home in an automobile. He is out again, but complains of a very lame hip and one of his optics looks as if he might have been up against Jack Johnson.

Louisville is happy—the supplies for our new \$16,000 water works are on hand and the pipes that will carry the water supply are being laid in position. It will only be a short time until our citizens can attach a hose to a hydrant and get water for lawn purposes that will enable them to have pretty lawns throughout the summer season and the water supply will be a great boon to the housewife and save "Johnny" many a trip to the old well. For fire protection the water supply cannot be overestimated.

The Choice of a Husband

is too important a matter for a woman to be handicapped by weakness, bad blood or foul breath. Avoid these kill-hopes by taking Dr. King's Life Pills. New strength, fine complexion, pure breath, cheerful spirits—things that win men—follow their use. Easy, safe, sure, 25c at F. G. Fricke & Co.

The Missouri Pacific had a pair of Union men for assistant passenger agents at the Omaha depot a short time ago, but Dr. Walker and Jack Roddy assert that the expense exceeded their expectations, hence their resignation. Ask 'em.

Bert Tulene came home Saturday from Malvern, Iowa, where he and his brothers operated their merry-go-round at a big celebration on July 4th. The whistle of a merry-go-round is just the kind of music that tickles Bert's ear.

William Craig and family moved down from Thurston county last week, and for the present will occupy the house just west of town near George LaRue's. Mr. Craig purchased the Rufus Taylor farm east of town some time ago, but is not to have possession until next spring, and will reside here until time to move to the farm.

REMINDED MANY OF OTHER DAYS

Excursion Boat Saturn Passes Up the River, Stopping Here to Take Coal.

The excursion boat Saturn, of Kansas City, with Captain Matthews in charge, passed up the river yesterday afternoon and tied up at the Plattsmouth wharf long enough to take on five tons of coal. The skipper stated that he left Kansas City Friday morning at 9 o'clock and had found steaming up the river very slow, as the channel of the river is very uncertain. There would be for short distances deep holes where he could make nine miles an hour, then the boat would run into shallow water and it would require an hour and a half to get over the sand-bar.

He was of the opinion that the day is past when this portion of the Missouri can be used for boats, due to the thickly settled country, the cutting away of the timber along the river banks and the rains, which are more torrential than formerly. There is a fine of boats, however, being operated from Kansas City to St. Louis and doing a good business. There are five boats in the line, besides several huge steel barges. Captain Matthews was taking his boat to Omaha for a month, when he will go from there to St. Louis.
