

## TWO MORE IN THE BOOSTERS' FAVOR

**They Defeat Supposed Baum Iron Aggregation—Also the Glenwood Team.**

The Boosters have added two more scalps to their long list of victories this season, by defeating the so-called Baum Iron aggregation of Omaha last Saturday afternoon by a score of 8 to 10, and the Glenwood team yesterday afternoon by a score of 20 to 2.

While it would have proven very serious indeed to have had the Boosters defeated in these two contests, it might also be added that they have added no vast amount of credit to themselves in defeating two such aggregations. The game on Saturday was sure bad enough, but the one of Sunday was something fierce. The Baum Iron Company team proved to be one of a general selection from the poorest of the various teams around Omaha, and at that, through errors made by the home team, they came very near winning, as the score will show. Most all the runs made by the Omaha team were through errors of the worst kind. Every man on the team was placed in the pitcher's box at some stage of the game with the hope of lessening the heavy batting done by the Boosters, which stunt was repeated on Sunday by the Glenwood team.

Next Sunday we have a good game, and that fact is assured when the announcement is made that the A. O. U. W. team of Omaha will be here for the Sunday game and also for two games on Labor day. This is the team that will make the Boosters work from start to finish to win, and when they are forced to play ball all the time it is usually some game. So make up your mind to see a series of three good ones on these dates.

## MISSIONARY PROGRESS IN SOUTH AMERICA

**Interesting Address Delivered at the Presbyterian Church Sunday Evening.**

Those who failed to attend the evening service at the Presbyterian church last evening missed hearing a most excellent address. The topic was, "Missionary Progress in South America and the Islands." J. R. Eger of this city, who worked in the mission field in the Argentine Republic of South America for a number of years, related in a splendid manner some of his experiences and facts concerning South America, and the Argentine Republic in particular, while he was there.

He said the people of that republic were divided in but two classes, the very wealthy and the very poor, or those who toiled for the rich. He said that a missionary could not reach the very wealthy and most of the work that is being done there is among the poor class, and the majority of this class are unable to read or write their own name. He told of some of the disadvantages of some of the missionaries sent to preach the gospel to these people, one being that they were required to pay such an enormous sum per month for the use of a small room where they and their people might assemble to hear the word of God.

The members of the C. E. society are in hopes that they may have the pleasure of hearing Mr. Eger again in the very near future.

The decorations were beautiful, having been very artistically arranged by L. A. Moore of this city. Mr. Hopping has resided in this city with his mother at various times and has a host of friends, who will extend best wishes and congratulations.

## THAT AUTOMOBILE COLLISION WITH BUGGY

Editor of the Journal:

In Wednesday evening's Journal there appeared an item entitled "Automobile Collision With Buggy," in which the facts were badly misstated and I wish to make the following corrections:

In said article it was stated that the auto crashed into the buggy, overturning it, throwing the occupants out and reducing the buggy to a heap of ruins. Nothing could be further from the facts, as the auto merely struck the hind wheel, sliding it a short distance upon the ground and breaking a few spokes in the hind wheels.

The occupants were not thrown out, nor were they seriously injured. The accident was caused by one of the lines of Mr. Johnson's harness breaking and turning the frightened horse in front of the automobile. Although the auto was moving at a slow rate, it was impossible to avoid a collision. It was also stated that Mr. and Mrs. Johnson were on their way to church, which is incorrect, as they were returning home from a Sunday visit. It is to be regretted that the accident occurred when it did, as Mr. Johnson was suffering from an injury sustained previously in a fall.
