ROMANTIC WEDDING IN WHICH ONE OF PLATTSMOUTH'S YOUNG MEN IS ONE OF THE PRINCIPALS

Mr. Livingston Richey Takes a Vacation, a Portion of Which is Spent in South Dakota, Where He Secures the Estimable Young Lady Who Becomes His Bride, With Whom He Returns to Surprise His Many Friends.

From Wednesday's Daily.
A romantic marriage occurred at Aberdeen, S. D., last Sunday afternoon at 4 o'clock, when Mr. Livingston Richey of this city and Miss Myrtle Lee Coulter of Liberty, N. D., were joined in the holy bonds of matrimony by the county judge of Brown county, South Dakota. One of the facts which lends romance to the marriage of this popular young couple is that they had not expected to be married until October, but Mr. Richey had been spending his vacation, or a part of it, at the home of Miss Coulter's parents, well-to-do farmers of Hettinger county, North Dakota, and his bride-to-be had accompanied him to the train to see him off for Nebraska, when it was suggested that the marriage take place that day in Aberdeen, the nearest county seat town, and the suggestion was acted on at once.

The wedding party arrived at Aberdeen about 1:30 and some trouble was encountered in locating the license clerk of the county judge's office, it being Sunday, and applications for marriage licenses on Sunday were rare. The judge was finally located and the permit to wed issued, and the happy young couple speedily married by his honor, the judge.

Mr. and Mrs. Richey arrived in Plattsmouth Monday forenoon and greatly surprised their many friends by announcing their marriage. Both the groom and his bride are well known in this city,

and what the Journal may say will neither add to or detract from their popularity in this vicinity. Mr. Richey is a native Plattsmouth boy, a graduate of our High school and of the state university, a son of Justis Richey of Plattsmouth. He is a young business man of ability and shrewdness. He filled the important position of principal of the Plattsmouth High school with credit to himself and advantage to the pupils. He resigned this position to accept one in the Bank of Cass county, where he has been for more than a year.

Miss Coulter has a wide circle of friends in this city, who will be pleased to learn of this happy union. She came to Plattsmouth almost a year ago to visit a friend, at the time she was en route from her former home in Macon, Missouri, where she had been visiting her sister, to the home of her parents in North Dakota, and while visiting her friend here decided to go into the business of dressmaking for herself, and did so, doing very nicely, and remained in this city for three months or more, when she returned to the home of her parents in North Dakota.

Mr. and Mrs. Richey will begin housekeeping at once, either in the J. G. Richey residence or in a smaller house if they can find one suitable. The Journal joins their large circle of friends in wishing them the fullest happiness and success in life.

ODD FELLOWS' GOLDEN JUBILEE THURSDAY NIGHT

From Wednesday's Daily.
All members of the I. O. O. F. fraternity and their families, as well as former members, and the members of the Rebekah lodge and their friends, are invited to be present at the golden jubilee anniversary Thursday night, August 29, at the I. O. O. F. hall. There will be speakers from the grand lodge to entertain the Odd Fellows, and also speeches from the local members. Light refreshments will be served, and everything possible done to lighten care and cause those present to feel themselves in congenial company.

New Barber Shop.

William Cook, formerly proprietor of the postoffice barber shop, will open a shop in the O. chair in the building adjacent to the Wetencamp block on the east. Mr. Cook is an experienced barber and will have up-to-date equipment in his new shop. He returned from Omaha yesterday, where he purchased new chairs and furniture and will occupy the shop at once.

UNCLE TOM'S CABIN NEXT MONDAY EVENING

From Wednesday's Daily.
Stetson's great double spectacular production of "Uncle Tom's Cabin" is booked for the Parmele theater for Monday night, September 2. This grand old drama has been mercilessly butchered by the "fly-by-night" companies in the past. It is a marvel that it has not long before this lost its power of attracting theater-goers, which is quite often the case with most plays, but the public has grown to know that Stetson's is always reliable; that it alone has lifted "Uncle Tom's Cabin" from mediocrity to mastery. Over fifty people are used in the production, and with its artists, mingling with mirth, melody and pathos, all classes of amusement seekers will be entertained. Specialties galore, wonderful mechanical effects, new costumes, a splendid orchestra, a large pack of Siberian bloodhounds, pretty little Shetland ponies, meek-eyed donkeys, mild and tricky, are in evidence at every performance. The street parade is said to eclipse anything ever given by a theatrical com-

pany and contains a scene of professional novelties that will delight every boy and girl and make every mature person pause to contemplate.

NOT LIABLE FOR CON- SIGNEE'S GOODS IN CARS

From Wednesday's Daily.
Whenever a consignee accepts delivery of a shipment from the carrier at destination point, by taking possession of a carload of freight and commencing to unload the same, or by verifying the goods in the car and giving a receipt for the same, the carrier's delivery is completed and the contract for carriage fully performed. Neither does the fact that the carrier charged demurrage, after the free time allowance for unloading make it liable as a warehouseman, nor, in case the shipment is one of perishable goods, is it responsible for the sufficiency of the refrigeration service after delivery. Demurrage is merely an allowance or compensation to the carrier for the delay or detention of a car beyond the time allowed for loading or unloading. There are no authorities to support a contention that demurrage is equivalent to storage charges. The latter accrue when the consignee fails or refuses to accept delivery of goods and the carrier unloads them in some safe place of deposit. Revenue from demurrage is not the object for the charge; it is simply a means for reducing car detention to a minimum.

M. P. TREATING MYNARD PEOPLE VERY BADLY

From Wednesday's Daily.
The Mynard traveling public have been receiving very shabby treatment lately from the M. P. railway train operators. Several time recently when passengers were waiting at the station to take the train to Omaha, the train has failed to stop to let them on. The trainmen have failed to pay any attention to the agent's signals, and when they do stop it is several rods past the platform and passengers have to chase the train down the track for a long distance to get aboard. The company sells tickets at Mynard, and why the train men treat the public as they do is not clear.

Tuesday morning 105 northbound at 5:57, ran past the station when tickets had been sold and passengers were waiting to get on. The agent ran out with his flag and finally got the engineer to see him, after the train had gone almost out of the corporation limits of the village. The farmers and residents of the vicinity are getting very tired of the treatment and have just about reached the limit of their patience.

Keeping Up With the Procession.

From Tuesday's Daily.
The Journal unintentionally has neglected to note the improvement made in front of Adolph Geise's saloon on the southeast corner of Main and Fifth streets. Numerous improvements have been made on that corner since Mr. Geise has occupied the building, and the latest is the decoration of the front, which adds greatly to the appearance thereabouts. Mr. Geise is a public-spirited citizen and always endeavors to keep up with the procession in the line of improvements.

BURLINGTON CROP REPORT FOR THE PAST WEEK

Corn in the Best Condition Reported So Far This Season, by Far.

From Wednesday's Daily.
The Burlington crop report of the past week shows corn to be in better condition than at any time since it has been earing and one of the largest crops for years is anticipated if killing frosts hold off a month or six weeks longer. Timely rains and sufficiently cool weather have enabled the cereal to fill out well on the cob.

On the Omaha division and the Wymore division the report indicates 92 per cent of a full crop; on the Lincoln division 90 per cent, and the McCook division 85 per cent. Hot winds and dry weather are reported to have done some damage in a few localities. At Holdrege the damage is placed at 25 per cent and at Minden at 5 per cent. These localities have had rains since the report was compiled.

The sugar beet crop is one of the largest in years. It is estimated that it will be 50,000 tons larger than last year. Conditions are very favorable for fall plowing in nearly the entire state and it is estimated that about 40 per cent of the winter wheat ground has been plowed. A large crop of the grain will be seeded. It is expected that the acreage will be larger than last year, and the latter was one of the biggest in the history of the state.

Pastures are in excellent condition. Potatoes will be an average crop. One of the largest crops of apples will be raised. Many of the earlier varieties of the fruit are now ripe or fast ripening. The crop is so heavy that there is in many instances no market for it and they are laying on the ground rotting or are being eaten by stock turned in the orchards.

RILEY FRADY'S HOUSE STRUCK BY LIGHTNING

From Wednesday's Daily.
About 6 o'clock in the evening one day last week Riley Frady, formerly of this city, but now of near Monticello, Arkansas, while in his home, was knocked down and stunned by a bolt of lightning which struck his house. His son, John, was also stunned and knocked down by the same bolt. His wife and daughters, while shocked, were not stunned. For a time his wife believed Riley and their son were killed, but after several minutes they regained consciousness. Mr. Frady and family have been on their farm some months and like the country very much. Their crop prospects are good.

George Hall Improving.

Mrs. J. M. Hall returned from Atchison, Kansas, this morning, where she visited her son, George, who had his foot mashed and burned while working in the M. P. shops at Falls City on the 19th inst. Mrs. Hall left George somewhat improved, but it will probably be two weeks before he is able to leave the hospital. Beside having the bones of his foot broken, the iron being at white heat when it fell on his foot, burned through the shoe almost instantly and burned his foot quite badly. With careful nursing George hopes to be about in a couple of weeks.

DO YOU WANT A BAR- GAIN IN MONTANA LAND?

Have just secured agency for 25,000 acres of land in the famous Judith Basin, Montana, which produces: Wheat, 30 to 60 bushels per acre; oats, 50 to 100; barley, 40 to 75; speltz, 45 to 75; rye, 25 to 35; flax, 15 to 25; alfalfa, 3 to 5 tons per acre. Ample rainfall, no irrigation. Soil is a rich black loam mixed with carbonaceous of lime. This is responsible for the enormous yields. For further information about this great country see or write, V. M. Mullis, Plattsmouth, Neb.

Stork Visits Guthmann Home.

From Wednesday's Daily.
Henry Guthmann, the Murdock banker, and wife are rejoicing over the arrival of a baby boy at their home last Sunday. Grandma Guthmann returned from Murdock Monday afternoon, and brought the good news that mother and child are doing fine. May the little man live long and be a source of comfort to his fond parents and grandparents.

SWEATER COATS!

Our new line of Sweater Coats has arrived. Call and look them over. They are not the common kind—there's quality knit into every garment the Pennsylvania Knitting Mills make. Look at the button holes—they won't tear out. We have them in

Red, Oxford, Tan and White

PRICE

\$3.00 to \$7.00

E. G. Dovey & Son

FOR SALE.

A good stock ranch in northern part of Nebraska, 5 miles from a good R. R. town; 760 acres, 225 acres in cultivation, 10 acres in young timber, balance in hay and pasture. Soil is good black loam, no sand. House, barn, grainery, corn cribs and other outbuildings; 2 wells, windmill; fenced with wire. Last year, as dry as it was, this land produced 26 bushels of spring wheat to the acre. It is estimated that a man can go on this place with 20 cows and 20 sows and make as much money as he can on 160 acres of Cass Co. land. The price is \$20.00 per acre; \$3,000.00 cash and the balance long time at 6 per cent. If interested call on or write, V. M. Mullis, Plattsmouth, Neb. 8-26-41t.wkly2t.
