representation of a political opponent is all right and proper .-Lincoln News.

While the editor of the Journal may be a back number, it will be seen he has been shrewd enough to make the annex of the Old State Journal print for once an acknowledgement that we have never before seen in print in that repeater of the morning news of the State Journal. We do remember how Clark raved and tore around and abused President Taft after his nomination at Chicago. We also remember that Clark used vile epithets in denouncing the president and announcing the fact that he was for Roosevelt and would not support Taft under any circumstances. But we wanted to see the Journal or News acknowledge the corn, for fear the Taft followers might forget the incident. We feel greatly relieved at accomplishing just what we were after-an acknowledgement from the State Journal or its afternoon annex that Paul Clark is yet for Roosevelt. Many thanks!

Forest Rose Flour guaranteed to be as good as any flour on the market. Sold by all leading deal-

The prevalent horse disease is causing enormous losses to farmers in Nebraska and Kansas, and is now creeping over into the Dakotas, Iowa and Missouri.

We have just issued a bulletin telling about the use of Germozone for prevention of this disease. Germozone has won fame in the prevention and cure of disease of poultry and stock. Our dealers in the infected territory have been selling Germozone to Stockmen and report that Germozone in the drinking water for horses seems to render them singularly immune from the terrible disease

One thing certain, rush orders are pouring in hourly by mail, phone and telegraph for Germozone from several hundred Kansas and Nebraska towns. Cures have also been reported but prevention is far better than cure.

Germozone given in the drink, kills germs in the water and also in the food. It is also used in case of sickness by nasal and rectal injection. Send for the new circular but save time by using Germozone in drinking water for your horses one or two tablespoonfuls to a pail of water. Give daily in all drinking water if contagion nearby. Twice a week otherwise

Germozone is antiseptic and a bowel regulator. selling Germozone.
