MISSOURI PACIFIC
RANKS WITH THE BEST

Many Improvements Will Be Made at the Depot in This City.

The Missouri Pacific railroad is contemplating, or in fact, has already ordered a number of improvements to be made at their passenger station in this city in recognition of the increasing amount of business that road is doing out of Plattsmouth. The depot is to be painted, both inside and out, the interior of the building thoroughly renovated and placed in as good condition as any on this part of the system. Mr. Norton, the agent, has already given the orders for the wiring and installing of electric lights in the depot, doing away with the old miserable oil lamps that have for years been used to the discomfort of those who were compelled to wait in the station for trains.

Since Mr. Norton has been acting as agent of the company at this place the business has been increased in every department, the passenger business in creasing 30 per cent, while the freight lines show an increase of 40 per cent over the total for the same period last year. The road has greatly improved its train service, which had aided greatly in the increase of business, as has also the courteous and gentlemanly manner in which Mr. Norton looks after the business of the company, as well as the comfort of the patrons of the road.

The new trains that the Missouri Pacific have installed on their line are getting to be very popular with the traveling public, especially the Kansas City-St. Louis travel. The trains that have proven so popular are the morning passenger, reaching here at 8:45, and the St. Paul-St. Louis fast express, reaching here at 11:25 a. m. going south, and 7:45 p. m. returning north, and these trains usually get a large amount of the Plattsmouth traveling public's business.

The company has placed their roadbed in splendid shape from Kansas City to Omaha and have appeared as a strong contender for business among the other roads operating through Nebraska territory. The road should be given great credit for these improvements, as only a few years ago the Missouri Pacific was looked upon as a sort of joke by other roads, but now they are beginning to realize that infusion of new blood and energy into the organization of the company is going to place it among the best in the country in a few years, or it will if men like President Bush are kept at the head of the management.

The Plattsmouth traveling public will be greatly pleased to learn of the proposed improvements at the depot and will feel very grateful towards Agent Norton for his efforts to secure for this city a railroad station that can be used and kept in a clean condition. Before the arrival of Mr. Norton the public was compelled to herd in one waiting room, but he at once had the room for ladies cleaned up and thrown open for the use of those traveling over the road, and now that the building is to be cleaned and painted, it will make very comfortable quarters for the travelers, as well as the office force at the depot.

DEMOCRATS HOLD BIG MEETING AT AVOCA

The democratic meeting held at Avoca Tuesday evening was largely attended and great enthusiasm was evidenced for the whole ticket from Wilson down to the county ticket. Judge Good of Lincoln delivered a very convincing speech, as did a German speaker from Wisconsin, who addressed the voters in his native tongue. The meeting, as a whole was one of the most successful of the campaign, and as election day draws near the prospects for democratic victory grow brighter.
