CANAL TOLLS

FIXED BY TAFT

Foreign Merchant Vessels to Pay \$1.20 Per Net Ton.

JOHNSON MAKES HIS REPORT.

Expert Who Makes Investigation for Government Asserts Big Ditch Will Be on Paying Basis in Twenty Years Proclamation by President.

Washington, Nov. 14.—President Taft issued a proclamation fixing the rates that foreign ships shall pay for passage through the Panama canal. The proclamation, made under authority of the canal bill passed by congress in August, establishes a merchant vessel rate of \$1.20 per ton in actual carrying capacity, with a reduction of 40 per cent for ships in ballast.

The provisions of the proclamation are as follows:

"On merchant vessels carrying passengers or cargo, \$1.20 per net vessel ton—each 100 cubic feet—of actual earning capacity.

"On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

"Upon vessels other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

"Upon army and navy transports, colliers, hospital ships and supply ships, \$1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

"The secretary of war will prepare and prescribe such rules for the measurement of vessels and such regulations as may be necessary and proper to carry this proclamation into full force and effect."

American coastwise shipping was exempted from toll payment by congress. It was on his provision of the act that Great Britain protested, but no reference to the protest was made in the president's proclamation.

Rates Same as at Suez.

The rates named in the proclamation are practically the same as those which will be in force at the Suez canal next year.

The president based his declaration of rates upon the report and investigation of Professor Emory R. Johnson of the University of Pennsylvania, an expert designated by an executive order for the task.

The report has been awaited with interest by shipping interests throughout the world.

According to Professor Johnson's report to the president, the Panama canal should be upon a self sustaining basis in twenty years. It should compete successfully with the Suez route for traffic of Europe with South America west coast points and with New Zealand, but cannot be expected to compete successfully for Europe's trade to the far east.

Professor Johnson figures that the rate per ton can be reduced at the end of ten years to \$1. Even with this rate the United States will obtain enough revenue from foreign vessels to pay all fixed charges, provide a sinking fund of 1 per cent to retire the Panama canal bonds, and still find a yearly balance.

TO CALL EXTRA SESSION

Wilson Announces He Will Carry Out Pledges.

Princeton, N. J., Nov. 14.—President-elect Woodrow Wilson announced, in speaking of the tariff and the monopoly question, that he proposed to carry out the pledges he made in his campaign speeches, to cut special privileges out of tariff schedules, prevent unfair competition in business and to destroy private monopolies.

In his campaign speeches the governor often reiterated that revision of the tariff should be undertaken immediately. It is believed that this idea now will find expression in a call for an extra session of congress to consider the tariff question.

BRIEF IN JACK JOHNSON CASE

Solicitor General Tells Why Pugnacious Should Be Held.

Washington, Nov. 14.—No reason exists, according to a brief filed on behalf of the government by Solicitor General Bullitt, why Johnson, the negro pugilist confined in jail in Chicago on a charge of violating the white slave act, should be admitted to bail by the supreme court of the United States.

The solicitor general pointed out that while violations of the white slave act are punishable by five years' imprisonment, or \$5,000 fine, or both they are not extraditable.

Phone Operator Stops Bank Robbery

Medaryville, Ind., Nov. 14.—A telephone receiver blown from its hook by a charge of nitroglycerin, set by safe blowers in the First National bank here, was the means of preventing the theft of many thousands of dollars. The large doors of the vault had been torn away, allowing access to \$75,000 in currency, when Mrs. Braemer, a telephone operator, answered a signal. No voice came over the wire, but she heard a second blast and gave the alarm. Three thieves, who were engaged in looting the place, made their escape with \$2,000.

EDWARD F. DUNNE

Former Chicago Mayor,
Democrat, Elected New
Governor of Illinois.

DUNNE FOR PUBLIC UTILITIES COMMISSION

Illinois Governor Elect Will Champion Bill in Next Legislature.

Chicago, Nov. 14.—Governor elect Dunne announced that he expected to champion the passage of a public utility commission bill by the next legislature, which convenes the first of next year.

A joint committee appointed at the last session of the legislature to investigate the subject and headed by Senator John Dailey of Peoria is expected to make a report to the assembly when it convenes in January.

It is said that the committee favors the New York plan, where the law provides for two commissions, one for New York city and the other for the state at large. The committee thinks there should be a commission for Chicago and another for the state, and it is probable the bills will be drawn so.

FIFTEEN KILLED IN WRECK

State Inspectors Point to Lack of Block Signal System.

Indianapolis, Nov. 14.—Fifteen persons were killed and seventeen seriously injured when a Cincinnati, Hamilton and Dayton passenger train ran into an open switch and crashed into a freight train at Irvington, a suburb. The train was coming from Cincinnati and was running forty miles an hour.

According to inspectors for the Indiana railway commission, a block signal system would have prevented the disaster. The wreck was caused by the failure of the head brakeman to close the switch to a siding on which a heavy freight train had been run. Carl Gross, the head brakeman, has assumed blame for the disaster. He has not been arrested, but is under police guard at a hospital, where he lies with a broken leg. Later he denied he was responsible, saying he was under the influence of an anesthetic.

According to the commission, this switch could not have been left open had a block system been in operation. The dead: John Cheney, Mrs. Clifton Cheney and three children, Jackson, Ky.; C. Berg, fireman; C. P. Gruendhoefer, Cincinnati; Albert Allen, Mrs. Albert Allen, Ben Boyle, William Sharkey, engineer; Irvin M. Wiggins, conductor; Clem Imholt, Los Angeles; Horace B. White, brakeman; J. L. Palmer, Itawab, Tenn.

Victim of Murder Is Identified.

Georgetown, Conn., Nov. 14.—The woman whose knife-pierced body was taken from a mill pond here last Saturday was Grace Carbone of New Haven, who had been missing since Oct. 24 from her home in that city. The New Haven police are now looking for Andrew Carbone, her husband; Capone and Fred Cussano and James Lewis, who they charge compelled the woman to participate in the white slave traffic.

Mrs. Kirby Again Defies Judge Landis.

Chicago, Nov. 14.—Mrs. Margaret Kirby, wife of the south side physician-banker whose affairs have been under investigation in Judge Landis' court, may be sent to jail as a result of continued defiance of Judge Landis' orders. The court ordered her to turn over \$20,000 of missing assets of the defunct Kirby Savings bank at a certain hour. Mrs. Kirby failed to obey this order.

Six Carloads of Oranges Are Seized.

Chicago, Nov. 14.—A trainload of California oranges was seized by United States deputy marshals in the Proviso (Ill.) freight yards because of alleged violations of the pure food and drug act. United States District Attorney Wilkerson filed suit in the federal district court here, alleging that the oranges had been artificially stained and colored to conceal inferiority.

PORTE SUING FOR AN ARMISTICE

Report of Direct Negotiations With Bulgaria Confirmed.

NAZIM PASHA SENDS AN ENVOY

Hostilities Apparently Stop and Contracts Now Existing for Military Supplies to Be Canceled—War in Macedonia Practically Ended.

Constantinople, Nov. 14.—That the porte has entered into direct negotiations with Bulgaria for an armistice is confirmed.

Nazim Pasha, the Turkish commander in chief, has received instructions to open communication with the Bulgarian generals and he has sent an envoy to the Bulgarian headquarters.

The porte appears resolved on this course, owing, on the one hand, to the delay of the powers in handling the mediation proposal and, on the other hand, to the divergence of views the proposals have occasioned among the powers.

It is understood here that only four of the powers agreed to submit the mediation proposal, while two, presumably Austria and Germany, abstained from participating. In these circumstances the porte elected to apply direct to the principal belligerent, Bulgaria, and there is reason to believe that the same course will be adopted in the negotiations for the terms of peace.

Hostilities Apparently Stop.

London, Nov. 14.—A Constantinople dispatch to the Daily News says:

The director of transportation informed those making inquiries at the war office that the cessation of hostilities had already been arranged. Simultaneously another official summoned the chief contractors for military supplies and informed them that hostilities would cease at once and that the existing supply contracts would be canceled and no further military supplies sent to the front.

A cholera camp was opened at Tuzla twenty new cases being sent there.

An Uskup dispatch to the Daily Telegraph says the war in Macedonia practically has been concluded. The combined Serbian and Greek armies are closing in on Monastir, where there are only scattered fragments of the Turkish army. These are demoralized by repeated defeats and it is doubtful if they can offer much resistance.

The correspondent of the Express writing from Hademkeul, near Constantinople, says Europe is going to see a nation in the grip of death by starvation this winter. A famine on a scale rarely seen even in India or China has claimed the population of all of eastern Turkey in Europe.

BODY OF CANALEJAS IN STATE

Vast, Silent Crowd Pays Respect to Murdered Statesman.

Madrid, Nov. 14.—The body of the assassinated Premier Canalejas lay in state on a catafalque, which had been erected in a temporary chapel in the chamber of deputies.

A vast, silent crowd of people gathered, both in and outside the chamber to pay their last respects to the dead statesman. The population of the capital appears to be deeply impressed by the crime. Work has been almost entirely suspended and nearly every business house is closed.

The assassin, Manuel Pardo, is a man of distinguished appearance. He attempted suicide and it was first thought he was dead, but when he had been carried to the hospital he was found to be living.

Three Nobel Prizes Given.

Stockholm, Nov. 14.—The Nobel prize for physics has been awarded Gustaf Dalen, a Swiss engineer, who is at the head of the Stockholm Gas company. The Nobel prize for chemistry has been divided between Professor Grignard of Nancy university and Professor Paul Sabatier of Toulouse university. The value of these prizes is \$38,600 each.

Anti-Discrimination Act Before Court

Washington, Nov. 14.—Arguments were begun before the supreme court of the United States over the constitutionality of the South Dakota law making it a crime to sell, with intent to ruin competition, commodities in general use at a lower price to a regularly established dealer in one place than to one in another place within the state.

Drowns Baby Because It Was a Boy.

Cincinnati, Nov. 14.—Disappointed by their ten-day-old baby being a boy, when they wanted a girl, Mr. and Mrs. Fred Kopp, each twenty-two years of age, wrapped the child in a shawl and tossed him into the Ohio river. When they were arraigned the husband confessed, blaming his wife for wanting to dispose of the child.

Club Wants Woman in Cabinet.

Denver, Nov. 14.—At a meeting of the Why club, an organization of business and professional women, a movement was launched to have a woman appointed to the cabinet which President-elect Wilson will name. Mrs. Hetty Green as secretary of the treasury was a popular choice of the members.
