## DISASTROUS FIRE AT NEBRASKA CITY SATURDAY

Our neighboring city of Nebraska City suffered a very severe loss early Saturday morning, when the Kingfalfa mills, one of the largest manufacturing concerns of that city, was wiped out of existence by fire. The mills were one of the largest in this part of the state and employed a large number of people. The structure was formerly used as the Argo starch works, but when that company was absorbed by the trust the citizens of Nebraska City purchased the works and installed the alfalfa mills there. The loss is estimated, by President Banks of the company, at about \$150,000, with from \$85,000 to \$90,000 insurance. This is a very lamentable affair and our neighbors will have the sympathy of the citizens of Plattsmouth, and we trust that the works will be rebuilt on a larger scale than before.

## NINE MILLIONS FOR SCHOOLS

That is the Amount Spent Yearly by Nebraska People.

### WELTON FOUND NOT GUILTY

Jury in Case Against Greenwood Banker Disagrees on Six Counts—Epidemic of Diphtheria at Weeping Water—State Buys Potatoes.

Lincoln, Nov. 25.—Nebraska spends nearly \$9,000,000 a year for maintaining its district public school system according to the report of the state superintendent of instruction issued here.

During the year ending July 8, 1912 the public schools cost \$8,757,286.04 and the balance of last year added to the amount produced this year totals \$10,461,719.85, showing a balance on hand at the close of the annual period of \$1,704,431.81.

This, however, does not reflect the tremendous cost of the educational advantages of the state, as there are not included the state university and endowed institutions of higher learning or the quasi-educational homes maintained by the state.

The total value of all school property is shown to be \$18,934,024.29. The indebtedness of the various school districts is \$5,643,812.96. There were 10,944 men and women employed as teachers, with the number of women preponderating by a ratio of eight to one.

### Welton Found Not Guilty.

Albert D. Welton, Greenwood banker, was found not guilty on twelve counts of the federal indictment against him by a jury here, which disagreed on the six remaining counts. The counts upon which the jury failed to agree were those charging embezzlement and making false entries in the bank's books. The federal prosecuting officers here have not yet indicated when an effort will be made to secure a new trial on the six counts left up in the air by the failure of the jury to agree.

### State Buys Potatoes.

The price is 47 cents f. o. b. Beatrice. Two carloads were recently bought for state penitentiary use at 45 cents a bushel. The difference in price is attributed to the difference in cost of transportation.

### Epidemic at Weeping Water.

A serious epidemic of diphtheria is feared by the state department of health in the neighborhood about Weeping Water, following the report that several cases had broken out in one farmer's family. One case has already resulted fatally.

### GAIN IN NEBRASKA CORN CROP

Yield Per Acre Six Bushels Greater Than Last Year.

Omaha, Nov. 25.—The 1912 corn crop of Nebraska has shown a gain of six bushels per acre over the yield of 1911, which is credited by Frank G. Odell, secretary of the Rural Life congress, to the seed corn campaign inaugurated by the publicity bureau of the Omaha Commercial club.

From 6,076,057 acres this year there was a yield of 164,376,786 bushels. From 6,218,035 acres in 1911 the yield was 133,400,395 bushels, a gain of 31,000,000 bushels on 142,000 fewer acres.

This gain, at 50 cents a bushel, which is a very low appraisement, amounts to \$18,223,000. This amount, Odell figures, was the value of the seed corn.

## CONGRESS MEETS SOON FOR WINTER SESSION

### Senate Will Take Up Impeachment Trial of Archbold.

Washington, Nov. 25.—Congress will reconvene a week from today for the last short session of Republican control in national legislation. comparatively few senators and representatives have reached Washington, but discussion has been active during the last week among those early on the scene over plans for the winter's work and the prospects for the special tariff session next spring, when all branches of the government pass into the hands of the Democrats.

While the question of the tariff is not scheduled for consideration this winter, the three months of the short session will be crowded with legislative work. In addition to the annual grist of appropriation bills, congress will be forced to dispose of a quantity of general and special legislative material left pending with the adjournment of the long session in August.

During the early part of the session the house will be busy shaping appropriation bills, while the senate is disposing of the impeachment trial of Judge Robert W. Archbold of the commerce court set to begin Dec. 3.

### BREAD LINE REOPENED

Bowery Mission Is Celebrating Its Thirty-third Anniversary.

New York, Nov. 25.—A week's celebration of the thirty-three years' work in "helping down-and-outers" to the "up-and-in-ranks" was begun by the Bowery mission at its little brick chapel with song, prayer, anniversary sermon, reminiscences and much feasting. The latter, in which hundreds shared, was at the expense of "Mother" Sarah Bird and Frederick Townsend Martin, and it marks the reopening this week of the winter bread line at which a thousand cold and empty stomachs are warmed and filled every midnight with hot coffee and rolls.

The brotherhood of the mission now includes about 20,000 men. The free labor bureau during the last five years has sent to permanent positions more than 17,000 men.
