## If You Doctored 19 Years For RHEUMATISM

And eventually found something that drove it out of your system would you tell everybody you could about it or would you keep the secret to yourself? I think one should tell, and if you write an old sufferer she will tell you what drove it from her at a cost of less than \$200. Please bear in mind I have no medicine or merchandise of any kind to sell, so you need not be backward in sending for information. I want to help you and will give you all the information without one cent deposit. I can never forget how I suffered from Rheumatism and how crippled I was for a long time, and now—no limp, pain or fear—all signs of it are gone. That is why I am not asking you to send money for something you know nothing about, as I realize how many there are who ask a lot and give nothing. Enclose postage for reply.
