Don't let your prejudice run astray with you next Tuesday, but go to the polls and vote for that in which you are directly interested. A new jail is badly needed. You know that, and you know that if Cass county erects a jail in which it is perfectly safe to keep prisoners, every taxpayer saves the money that it has cost the county to keep our prisoners in the Lancaster and Douglas county jails. Then display your wisdom by going to the polls next Tuesday and voting for the \$12,000 levy to build a new jail.

Your Chance Now!

Government land that will increase in value, is yours—if you want it. A start in life, a prosperous future!

The U. S. Government is offering 80 acre irrigated farms, and 320 acre farms without irrigation, on the same kind of land that is raising the crops which are making Wyoming prominent. The new homestead laws make it easy to get one of these farms.

I will send you maps and printed matter and answer your questions—then you can join one of the homeseekers' excursions which I will tell you about, and at small expense you can see exactly what you can have. For anyone who has a wish to better himself and family this is the chance of a lifetime.

Write me a postal and state whether you are interested in irrigated land or non-irrigated land.
