Democratic Caucus Reaches Decision After Stormy Session.

Washington, April 17.—The Democratic caucus voted decisively to support the wool schedule of the Underwood tariff bill, placing raw wool on the free list, after Representative Underwood had made a stirring appeal for the support of the caucus.

By a vote of 190 to 42 an amendment offered by Representative Dies (Tex.) to place raw wool on the dutiable list, was rejected.

Representative Dies' amendment proposed to place a duty of 15 per cent ad valorem on raw wool, he and other champions of dutiable wool insisting that this was the judgment of the ways and means committee before President Wilson saw the bill and suggested a change.

Majority Leader Underwood, in winding up the discussion, warmly defended both the committee and the president. He declared that the president had a right to make suggestions to congress relating to the tariff, but that the bill as a whole met with the chief executive's approval when he first read it as it came from the committee.

"Out of 4,000 or more items in the bill," said Mr. Underwood, "the president only made two suggestions, those affecting the sugar and wool schedules. It seems to me that we should accept those suggestions from the president of the United States."

MOORE OUSTED FROM OFFICE

Head of Weather Bureau Summarily Fired by President.

WAS TO HAVE LEFT JULY 31.

Unexpected Action Result of Campaign to Land Secretaryship of Interior. Department of Justice Has Subject Under Consideration.

Washington, April 17.—Professor Willis L. Moore, chief of the weather bureau since 1895, and an appointee of the Cleveland administration, was summarily removed from office by President Wilson. His resignation recently had been accepted to take effect July 31, but after an investigation of his alleged efforts to become secretary of agriculture in the present cabinet grave charges of irregularity were preferred and the president withdrew his acceptance of the resignation, dismissing Professor Moore. Later he referred the subject to the department of justice for inquiry.

Secretary Houston of the agricultural department conferred with the president before the removal of Mr. Moore was announced. The secretary then issued the following statement:

"Immediately after the resignation of Professor Moore of the weather bureau was submitted to the president and accepted by him, charges were filed with the secretary of agriculture by responsible men within the service. These charges were of so grave a nature that the secretary of agriculture called upon the department of justice for an investigation.

"The investigation still is under way, but the facts so far secured and laid before the president were sufficient to warrant him in deciding to withdraw his acceptance of Professor Moore's resignation and remove him summarily, which has been done. The president also has directed the secretary of agriculture to suspend Charles T. Burns, an employee of the weather bureau, pending a further investigation of his case and take such disciplinary measures as he may deem necessary with such other employees of the weather bureau as may have been unduly active for authorizing the public service for private ends."

Moore Issues Statement.

Professor Moore issued a statement, declaring that the same influences that "attempted to disgrace and remove Dr. Harvey W. Wiley" were responsible for his removal, and branding as "infamously false" any intimation that he had coerced employees of the weather bureau in supporting him for the secretaryship of agriculture or that "substantial money had been expended in his candidacy."

The woman had been very violent at times, and during one of her outbursts recently she broke a chair over the head of her aged parent, as well as breaking one of his fingers with a large, heavy stove poker, and has at different times threatened to drown herself, and becoming so unmanageable that the parents found it necessary to have her sent to the asylum. At the hearing yesterday she became quite violent and profane, cursing the different witnesses as they appeared on the stand. The sheriff took her to Lincoln yesterday afternoon, where she will be placed in the asylum for safe-keeping.

MOORE OUSTED FROM OFFICE

SHOULD BE PUNISHED TO FULL EXTENT OF THE LAW

Last evening while train No. 14 on the Burlington was running above La Platte quite an exciting incident occurred, in which several parties from this city were mixed up. It seems that a party of ladies from this city were accosted by a gentleman suffering from an overload of joy water, who proceeded to try and get familiar with one of them, and on being rebuked struck her a very severe blow in the face. The other members of the party at once interfered and one of the ladies had one of her fingers badly mashed by having it caught in the door of the car, which was slammed shut by the party who had made the advances and attack. One of the brakemen on the train promptly interfered with the proceedings and was attacked by the man, who proceeded to attempt to bite a large chunk out of the brakeman's cheek and succeeded in inflicting a very painful wound. The party provoking the trouble will in all probability have a complaint filed against him in Sarpy county, where the trouble occurred. This is a matter that should be attended to and the party making the assault on the women punished.

MOORE OUSTED FROM OFFICE

Head of Weather Bureau Summarily Fired by President.

WAS TO HAVE LEFT JULY 31.

Unexpected Action Result of Campaign to Land Secretaryship of Interior. Department of Justice Has Subject Under Consideration.

Washington, April 17.—Professor Willis L. Moore, chief of the weather bureau since 1895, and an appointee of the Cleveland administration, was summarily removed from office by President Wilson. His resignation recently had been accepted to take effect July 31, but after an investigation of his alleged efforts to become secretary of agriculture in the present cabinet grave charges of irregularity were preferred and the president withdrew his acceptance of the resignation, dismissing Professor Moore. Later he referred the subject to the department of justice for inquiry.

Secretary Houston of the agricultural department conferred with the president before the removal of Mr. Moore was announced. The secretary then issued the following statement:

"Immediately after the resignation of Professor Moore of the weather bureau was submitted to the president and accepted by him, charges were filed with the secretary of agriculture by responsible men within the service. These charges were of so grave a nature that the secretary of agriculture called upon the department of justice for an investigation.

"The investigation still is under way, but the facts so far secured and laid before the president were sufficient to warrant him in deciding to withdraw his acceptance of Professor Moore's resignation and remove him summarily, which has been done. The president also has directed the secretary of agriculture to suspend Charles T. Burns, an employee of the weather bureau, pending a further investigation of his case and take such disciplinary measures as he may deem necessary with such other employees of the weather bureau as may have been unduly active for authorizing the public service for private ends."

Moore Issues Statement.

Professor Moore issued a statement, declaring that the same influences that "attempted to disgrace and remove Dr. Harvey W. Wiley" were responsible for his removal, and branding as "infamously false" any intimation that he had coerced employees of the weather bureau in supporting him for the secretaryship of agriculture or that "substantial money had been expended in his candidacy."

MRS. ETHEL O. PERRY OF GREENWOOD IS PRONOUNCED INSANE

Yesterday the insanity board had before them Mrs. Ethel O. Perry of Greenwood, who was charged with being insane by her father, Thomas Brown. The woman had been very violent at times, and during one of her outbursts recently she broke a chair over the head of her aged parent, as well as breaking one of his fingers with a large, heavy stove poker, and has at different times threatened to drown herself, and becoming so unmanageable that the parents found it necessary to have her sent to the asylum. At the hearing yesterday she became quite violent and profane, cursing the different witnesses as they appeared on the stand. The sheriff took her to Lincoln yesterday afternoon, where she will be placed in the asylum for safe-keeping.

FREE WOOL IS AGREED UPON

Democratic Caucus Reaches Decision After Stormy Session.

Washington, April 17.—The Democratic caucus voted decisively to support the wool schedule of the Underwood tariff bill, placing raw wool on the free list, after Representative Underwood had made a stirring appeal for the support of the caucus.

By a vote of 190 to 42 an amendment offered by Representative Dies (Tex.) to place raw wool on the dutiable list, was rejected.

Representative Dies' amendment proposed to place a duty of 15 per cent ad valorem on raw wool, he and other champions of dutiable wool insisting that this was the judgment of the ways and means committee before President Wilson saw the bill and suggested a change.

Majority Leader Underwood, in winding up the discussion, warmly defended both the committee and the president. He declared that the president had a right to make suggestions to congress relating to the tariff, but that the bill as a whole met with the chief executive's approval when he first read it as it came from the committee.

"Out of 4,000 or more items in the bill," said Mr. Underwood, "the president only made two suggestions, those affecting the sugar and wool schedules. It seems to me that we should accept those suggestions from the president of the United States."
