(Continued From First Page.)

service was touched on by President Schneider, who stated that he had, in company with others of the transportation committee, called on the Burlington officials in Omaha recently to see what could be done in regard to getting the Schuyler train ran into this city instead of making the passengers wait at Oreadopolis, as at present, but that the matter was not looked upon very favorably by the officials, although they had thought that an extra coach could be put on that could be transferred to No. 4 and brought on into this city. The Missouri Pacific officials have not as yet answered the letters of the committee in regard to the "merry-go-round" train over that road, and as President Schneider stated he thought this was one case that should be taken before the railway commission if the officials refused to take any action in the matter.

Mr. Tidd thought that a change in the running time of either the Schuyler or Missouri Pacific train from Weeping Water would greatly assist in the solving of the problem of better train service. At present the trains get into Louisville at about the same time and the passengers from the Missouri Pacific do not have time to get over to the Burlington to make connections for this city. Mr. Pollock pointed out that it was reported that the M. P. was to install a motor car service between Nebraska City and Lincoln to meet the competition offered by the new Burlington train out of that city, and he thought if the proper representations were made it might be possible to secure a similar train for this city.

IN PLATTSMOUTH FORTY YEARS AGO

Items of Interest to Old and New Residents of City Which Were New Forty Years Ago.

Mrs. Richardson of Eight Mile Grove sends us a nice little basket of the first gooseberries of the season, for which she has our thanks and the assurance that they tasted first rate—mixed with sugar.

E. Plummer, sr., the pere of E. Plummer, of the firm of Clark & Plummer, has returned to Plattsmouth again, and once more greets us with a pleasant smile as we pass up and down our daily promenade.

Mrs. Latham has left the balmy air of southern Nebraska for the snow clad hills of Canada. May she have a pleasant trip and safe return, is the heartfelt wish of the Herald. Oh, how solemn Latham looks.

Hon. Willitt Pottenger will leave in a day or two for a trip to Salt Lake City, with a view to making a permanent location and resuming the practice of law in that city. Pottenger's family will remain in Plattsmouth, for the present.

William Edgerton runs a saw mill, and makes all kinds of coltonwood lumber. William Edgerton is a good business man, and he advertises his business. "Bill" Edgerton is President of the "Senate," and Frank is always on hand to serve you in a polite and agreeable manner to all the luxurious beverages.

Col. C. F. Morse, superintendent of the B. & M. in Nebraska, has introduced several much needed reforms in the running and general management of this road; and the latest one is an order to prevent the rough and careless manner of handling trunks and other baggage on this road, under penalty. Superintendent Morse, with his corps of assistants, seems determined to have the B. & M. in Nebraska second to no other road in America, so far as careful management and safety to life and property will go towards securing that desirable position.

Wheeland's mill caught fire last week, and for a few moments gave promise of a fine conflagration. The fire company turned out and hollered. Joe Conner seized a Babcock, while Frank Stadter grabbed an old town pump lying on the sidewalk and rushed yelling down the street. Before they "arriv" at the scene of the red fiends' devastation a neighbor woman had lent Wheeland's boy a pail of sour buttermilk swill, the fumes of which operated the same as sulphuric acid gas from a Babcock engine, and immediately extinguished the incipient insurance discounter.

The new uniforms for the fire company have "arriv," and we may expect a grand parade one of these days.

We are very sorry to announce that M. B. Murphy is quite sick. Inflammatory rheumatism.

Ezra Millard, esq., of Omaha, visited our city last week.

D. H. Wheeler has gone traveling off again, to Lincoln, Nebraska City, etc.—Grand lodge doings and other things.

The old City hotel has been overhauled and fixed up by Mr. Tutt, and will look and feel like a new building when thoroughly renovated.

The walls of the High school building are looming up grandly. The first story is almost complete, and Mr. Dexter, with his characteristic energy, is pushing the work along as fast as men and means can do it.

This building will be a great ornament to Plattsmouth when fully finished.

Arrest—Sheriff Johnson arrested a party of emigrants on Tuesday for trespass on the fields of John Fitzgerald, esq. They broke the fence and swore so loud it scared Robinson (Fitz's man) and he came in for a warrant—\$22 settled the hash and the emigrant goeth on his way rejoicing.

Weeks of May 4 and 18

The Brooks House changed management Monday morning. Mr. Charles McEntee takes charge and Mr. Linch retires on his honors. Mr. Linch has won the good will of our people during his residence here, and Mr. McEntee is too well known to need any endorsement from us. Whether he can keep a hotel or not he must prove.

A young child belonging to a family by the name of Levins, living about ten miles out in the country, met with a frightful accident, resulting in death, last week. The father had placed the child, a little girl about 3 years of age, in the wagon, which contained some loose hay, giving her his coat to sit down on, while he took his team and commenced plowing in another part of the field. There were some loose matches in the coat pockets, and it is supposed that the child in playing with them set fire to the hay and thus to herself. The father, seeing the smoke rise from the wagon, rushed towards it, only to find his child enveloped in flames. He burnt his hands severely in extinguishing the blaze, and after so doing the child was carried to the house. Before a doctor could reach the place the poor little sufferer was dead. The parents have the sympathy of the whole community in their great sorrow.

LIVELY RUNAWAY IN WHICH NO ONE WAS INJURED

From Friday's Daily.

Quite a lively spill occurred yesterday afternoon about 4:30 on Washington avenue, when the delivery team of H. M. Soennichsen, which was driven by Philip Rhin, became frightened when the tongue of the wagon dropped down and ran up the avenue scattering groceries along in their wake. Mrs. Frank Schille and two small children were riding out to the Missouri Pacific station in the wagon with Mr. Rhin, and they were thrown out when the team started to run, as was the driver, with the result that all were badly bruised and shaken up. The team was finally stopped without doing further damage.

DECIDE FOR A SEPARATE ORPHAN'S HOME

From Friday's Daily.

The Nebraska grand lodge of the Order of the Easter Star, at its session in Omaha yesterday, decided to maintain an orphan's home in connection with the Nebraska Masonic Home in this city, and a building will be furnished and equipped and maintained by the Star lodge, as well as a matron hired to look after the interests of the children. The children will thus be segregated from the old people. Under the present system all are cared for together. The plan will be tried for a year, and if found successful will be continued on a permanent basis. This will make quite an addition to the Home here and will be a most laudable undertaking for the lodge to take up in the care and protection of the orphans of members of the Masonic fraternity. The plans will be formulated later as to just what arrangements will be made concerning the securing of a building at the Home. The main part of the grand lodge yesterday was taken up with the installing of the new officers.

Old-Time Resident Here.

W. H. Worden, an old-time resident of this city, has been here for the past few days visiting his old friends, while en route from his home in McPherson county to the east. Mr. Worden was for many years engaged in farming near the Missouri Pacific depot in this city and the old-time residents claim he grew the finest watermelons that they ever enjoyed. Mr. Worden is over 70 years of age and has fine health for one so advanced in years.

"Pittsburgh Perfect" Fence

Gives the Farmer a Big Boost in making His Farm Prosperous

Did you ever notice that a prosperous farm is invariably well fenced, and is usually divided into small fields by a fence "horse-high, hog-tight and bull-strong"? Why is it?

Because the prosperous farmer realizes that good fences are as necessary to successful farming as fertile seeds, effi-

cient labor and proper machinery. But the wise farmer investigates before he invests. Others just buy and are often "sold." "Pittsburgh Perfect" Fence is made with but one end in view—to give best service for the longest time at least cost. Investigating it costs nothing. Investing in it pays.
