There is a good deal of complaint from north of town about speeding motorcycles and automobiles. Some of the farmers have declared their intention of hauling in their road drags and letter the roads take care of themselves. They say they are getting tired of seeing people race past their homes at 40 or 50 miles an hour, endangering the life of anything that happens to be on the road. Their point is well taken.

Take Plenty of Time to Eat.

There is a saying that "rapid eating is slow suicide." If you have formed the habit of eating too rapidly you are most likely suffering from indigestion or constipation, which will result eventually in serious illness unless corrected. Digestion begins in the mouth. Food should be thoroughly masticated and insalivated. Then when you have a fullness of the stomach or feel dull and stupid after eating, take one of Chamberlain's Tablets. Many severe cases of stomach trouble and constipation have been cured by the use of these tablets. They are easy to take and most agreeable in effect. Sold by all dealers.
