One Who Was There.

Very Quiet.

Things in Murray are pretty quiet these days, thank you, but this condition is in no way contrary to the balance of the towns and cities of eastern Nebraska, where the busy farmer has just a little more business than he knows how to handle. But this condition at the present time is very acceptable to everyone in both the cities and villages, for it sure means better days by and by, for the labors of our farmers will certainly bear fruit this year. From many of the old settlers we learn that the crop conditions of Cass county were never better in

the past forty years. The harvesting days are a little early this year, and every man that wants to work can now find good wages in the wheat fields. The wheat crop is good, but must be looked after right now, and the farmers are on the ground looking after it, which makes the business condition of our little towns pretty quiet. Some farmers have already contracted their crop of wheat, and as soon as threshed will be placed on the market. Z. W. Shrader tells us that he has sold his crop at 75 cents per bushel, which is a good price at this time.

Evangelist Tent Meeting.

The evangelistic tent meeting at Alvo is progressing nicely. The tent arrived Saturday and has been used every night for the services. The Sunday evening crowd taxed the seating capacity of the tent. Evangelist Pitt is preaching convincing sermons. His subject Sunday night was, "Featherweights." The song service was a treat. Prof. Bartley is one of the best gospel singers and his message in song is very helpful. Two sacred selections sung by the Forman quartet were thoroughly appreciated by the audience. There has been several conversions, and the interest is growing. There will be three great services Sunday, July 6. Men's meeting at 3 p. m. Subject, "The Danger Signal." Special music at all these services. You are welcome.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
