IN PLATTSMOUTH FORTY YEARS AGO

Items of Interest to Old and New Residents of City Which Were New Forty Years Ago.

Wm. Darrach has gone to Detroit, Michigan, on a visit. Hope he will have a pleasant time.

Jimmy Dawkins, nephew of Wm. Brown, ex-treasurer B. & M. R. R., has gone to La Salle, Illinois, to live. Success in your new home, Jimmy.

By an unavoidable oversight we omitted to mention in a previous issue the presence among us of Chaplain Wright's two daughters, Mrs. Morrison and Mrs. Buell, who have been here making their parents a visit of some weeks' duration. Mrs. Buell, we believe, has returned to her home in Missouri, and Mrs. Morrison will soon go to New York state. We hope they will take with them pleasant remembrances of Nebraska, as we know their many friends here will have enjoyed their visit.

The grasshoppers are here—in Cass county. We rode to Louisville and found them as far east as Cedar Creek. Further south a gentleman informs us Eight Mile Grove forms the dividing line. East of that there are none; west of that they are thick, thicker—but not thickest; at least not nearly as thick as we have seen them in Nebraska. The cloud of grasshoppers this year is nothing in comparison with the great grasshopper years of 1866-7. They have done much damage, but only in spots, as yet, and if they only leave now we are safe for half a crop of corn and over, the county through.

The concert given last Friday evening by Miss Ella Crocker, assisted by Miss Simpson, Mr. Skill and others, was a success as far as the singing, etc., went, but the people did not succeed in turning out to hear it, very extensively. We make some allowance for sickness, which was very prevalent then, but think that even despite that, our people ought to turn out more largely, as they are driving everything of the kind from their midst by their lack of patronage, and only a minstrel show or a circus can succeed in drawing a crowd. Miss Crocker's voice shows most decidedly the effect of cultivation, and the change since she left us nearly two years ago is almost marvelous. With equal perseverance in the future, as in the past, she must inevitably succeed in attaining whatever goal she may set herself. We heartily wish her success. No testimonial is needed to the skill of Miss Simpson, who has appeared before our citizens several times previous to this. Mr. Skill's management of violin and piccolo is also well known and appreciated. They did themselves full justice on this occasion. Lack of space prevents

our speaking of the program in detail, and all was so good we can hardly discriminate in favor of any particular piece.

Some prowler entered the house of A. B. Smith the other morning, through the open front door, and finding nothing else handy took a pistol from a drawer. Just then a little boy came in. Fearing discovery the rogue threw the pistol in the bushes and lit out. Moral: Look out for your doors while you're out gardening, etc. Smith thinks we may be a second-class city, but that is a first-class trick.

Yesterday morning the camp meeting of the Holiness association commenced. We rode up to the grounds and found a very pretty place in the woods, almost south of John Barnes' place. A huge tent was pitched and numerous smaller ones. Henry Straight has put up a big boarding house on the grounds and numerous smaller booths and the like are under way; also, John Leesley has a shanty where he keeps ice cream, soda-water, grapes and fruit of all kinds. The folks begin to roll in, and by tomorrow we may expect to see things in full blast.

The greatest irrepressible conflict that this town enjoys, next to the W. W. W. and the saloon men, is the sparring of Joe Connor and Thatcher, commonly known as "Connor" and "Tatch." From early morn till dewy eve they keep it up, first one's ahead and then the other. Now and then they rope an outsider in and make him a victim, but as most of Cass county is getting too sharp for them, they soon fall back on each other, and the amount of chin music they waste in a day at a dime a word would pay off the national debt in six months or more.

Mrs. John Chapman, a former resident, and wife of the brother of our Lawyer Chapman, is in town visiting old friends and neighbors.

G. Gyger, a well known carpenter of this place, has just built a nice little church in Louisville precinct. It cost about \$2,500 and will hold as many people as the Methodist church of this place. The Rev. Mr. Grinner is the pastor.

Fifteen applicants for a cadetship at West Point appeared before the examiners at Omaha not long since. Thirteen were rejected, leaving only two to fight it out on that line. Our Dr. Livingston is one of the board of examiners.

Judge Sprague, lately returned to Plattsmouth from Ashland, one of the real old original settlers of Cass county, walked into our sanctuary last Saturday. We cordially welcome the judge back to our midst, and hope he may do well and remain long with us. Come in and see us again and bring your knitting.

Married—At the residence of A. C. Loader, esq., Greenwood, Cass county, by the Rev. Mr. Dungan of Lincoln, Mr. W. J. Mastin to Miss Margaret Ann Elizabeth Wilburn of that place.

Henry Eikenbary sends us a lot of the finest cherries we have seen this season. He had forty odd trees in bloom at once, and gathered eleven bushels for sale, besides three kept for his own use.

The Episcopal festival in Spiers' hall on Friday evening, except the great heat, turned out well. Ice cream and strawberries abounded, and the people festival-ed and ice creamed to their heart's content.

By some hocus pocus, slightly smelling of red-tape, some time last winter our mails were all

changed and ordered around by Omaha. The ostensible reason then was that the river was not safe to cross here, and that a delay was liable to take place any day.

That's all very well as far as it goes, but the river is open now, and the transfer boat crosses as regular as clock-work, and still all Plattsmouth mails going or coming from the east are sent by way of Omaha, and the through mail cars from the west are run to Omaha instead of to this point, where they should be delivered.

The disadvantages of this plan are obvious; not only are our postal agents men who had located their families here and made arrangements for their homes here, dragged away from such homes and forced to run into Omaha and stay there a large portion of their time when off duty, but by the present foolish and ridiculous plan, all mails to and from this place are dumped on a freight car, or at best, a baggage car, and run up to the junction at Oreadopolis, without being in charge of any mail agent. Strictly speaking, no one is responsible for those bags while on transit. If they were robbed or lost no person could be found to answer for their safety. The postmaster here would claim that they had passed out of his hands; the agents on the postal car, never receiving them at all, could not be held responsible, and we hardly think the railroad company desire to warrant the safe delivery of that mail, when not in charge of any properly authorized agent.

The contract, if we mistake not, calls for the delivery of those mails at Plattsmouth, and makes this the initial point for the through mails on the B. & M. R. R., and we should like to know by whose authority they have been thus improperly delivered.

Plans are being made to organize a small band here in town, and it is proper to encourage instead of "knock." The members plan to pay the expense themselves, therefore every citizen can well afford to speak a few words of encouragement, while a little "knocking" by a few might kill the project.

Among the wheat yields in this vicinity Joe Lindsey's 17 acres appears to have the lead with an average of 34 bushels per acre, and Ward Cheney's 70 acres showed an average of 30 bushels, while Fred Young's field of 73 acres yielded an average of 28 bushels. Business Man Praises Dr. Miles' Heart Remedy

Successful Merchant After Investigation Found a Remedy That Restored His Health.

"This is Thanksgiving day in the state of Pennsylvania, and I want to devote a part of it in writing a letter to you. On the 29th day of November, 1910, I was attacked with heart trouble. My family physician called it Angina Pectoris. I had from one to five attacks in 24 hours, in the latter part of December, 1910. I wrote to the Miles Medical Co., for information concerning my case, and in reply I received a very kind and instructive letter, which I handed to my family doctor, and he told me to use your Remedies in connection with the medicine he gave me, so I did. I used five bottles of Dr. Miles' Heart Remedy and seven bottles of Dr. Miles' Nerveine. I was confined to the house for about four months. The action of my heart is now, and has been normal for the last six months. I can truly recommend Dr. Miles' Nerveine and Heart Remedy to do what they are intended for, if used according to directions. I thank you kindly for your advice in answer to my monthly reports. I am now sixty-seven years of age, have been in the mercantile business for thirty-five years and lived retired for the last thirteen years."
