Are we going to have any corn? Well if you would see the stalk of corn that Ed Norton left at our

office you would think so. It is 12 1/2 feet tall and has two good ears on it. But of course there are lots of places where there are two stalks without any ears at all. Still there will be considerable corn in this community without any more rain.

Mothers! Have Your Children Worms?

Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetites? These are all signs of worms. Worms not only cause your child suffering, but stunt his mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c.

We believe they're prevaricators. From all appearances it looked like fist bruises to us. We've made the trip to Lincoln via auto on several occasions and never came home all bruised up. At any rate Trunkenholz and Yoho are keeping mum about the affair.
