MAKE YOUR ARRANGEMENTS NOW
SEPTEMBER 24th TO OCTOBER 4th 1913

NEBRASKA IS STILL IN LEAD

Lincoln Commercial Club Gives Results of Some Careful Investigation.

From Saturday's Daily.
 Recently a Wisconsin city, inspired by wild and weird reports of the efforts of the protracted dry spell in Nebraska, wrote the governor offering free passage for Nebraska live stock. This Wisconsin town, admittedly generous, simply had been deceived by false reports sent out by "string benders." The Lincoln Commercial club made a quiet investigation upon learning of the generous offer from Wisconsin and discovered the following facts:

If Nebraska took advantage of the generous Wisconsin offer she would send to our neighbor on the northeast 570,000 milch cows, 1,300,000 of beef cattle, 1,450,000 head of hogs, and 800,000 head of horses and mules, to say nothing of 350,000 head of sheep. In order to insure the proper feeding of this live stock Nebraska could send along, more than 50,000,000 bushels of oats, more than 2,200,000 tons of alfalfa, more than 3,000,000 tons of other hay, to say nothing of a few million tons of corn silage, sorghum and something like 110,000,000 bushels of corn. If necessary Nebraska could send along the "shorts" and "bran" from 60,000,000 bushels of wheat. Nebraska admits a shortage in the 1913 corn crop but points with pride to the fact that her corn crop will turn out more bushels per capita than that of any other state. In common with her sister states Nebraska has suffered from the unprecedented drouth, but just the same she comes to the front as usual with more wheat per capita, more oats per capita, more alfalfa and hay per capita, more apples per capita and more corn per capita than any of her sister states. She appreciates the kindly sympathy of Wisconsin, but with all these crops and more than \$240,000,000 deposited in her banks, state and national, Nebraska expects to pull through the winter in pretty good shape.

ANOTHER PLATTSMOUTH BOY IS RAPIDLY ADVANCING TO THE FRONT

From Monday's Daily.
 Another former Plattsmouth young man who is advancing to the front in his chosen line of work is George L. Morrison, who is at present with the Monotype Manufacturing Company of America, with headquarters at Chicago. Mr. Morrison came in yesterday morning to pay a short visit to his mother, Mrs. John Herman, and his grandparents, Mr. and Mrs. T. C. S. Dabb, en route to Topeka, Kansas, where he is to look after some work for the monotype company for a few weeks. George had his first experience with the monotype machine, which is a combined typesetting and casting machine, in this city in the office of the Evening News, and after that paper ceased to exist he went to St. Paul, Minnesota, where he engaged further in that line of work, going from there to the headquarters of the company in Chicago, and it is a matter of much gratification to his relatives and friends that his ability has been recognized by this corporation, which is one of the largest in the country, and his advancement has been rapid. George expects shortly to take a special course in the making of the machines to fit himself for the handling of them in setting them up and placing them in running order, as the managers of the company are very much pleased at his showing along this line.

Accident at the Shops.
 From Tuesday's Daily.
 This morning as Fred Pissling, a painter employed at the Burlington shops, was engaged in taking a pane of glass out of a window frame he was so unfortunate as to have the glass break, and as a result he received a severe gash across the right hand that needed several stitches to close, and it will be several days before Fred will be able to sling the paint as usual.

THE NEHAWKA PICNIC FRIDAY SEPTEMBER 19

The picnic committees are busy making preparations for the big time they have promised the people for September 19th. They are having no trouble selling concessions, as Nehawka has a reputation for treating these people fairly. A colored quartet and other free attractions will be provided in addition to the band. Tulenes will be here, of course, with their merry-go-round. Picnics in Cass county would be a dreary affair without the familiar tool! tool! of this pleasure device, and the various committees in the towns, it is said, never set the date for a picnic without first finding out from the Tulenes whether or not the date is open. —Nehawka News.

M. B. ALLEN MEETS WITH A VERY SERIOUS ACCIDENT AT HAVELOCK

From Monday's Daily.
 A very serious and painful accident befell M. B. Allen of this city while engaged in some work on a building at Havelock a few days ago. Mr. Allen who is foreman of a gang doing work of different kinds was engaged in putting on some steel shingles on the roof of a building and was standing on a scaffold when it suddenly gave way and he was thrown to the ground quite a distance and in falling received as a result of his fall a broken leg as well as two ribs broken. He was brought home to this city and is at present recovering nicely from his injuries although it will be some time before he will be able to be up and around again.

Local News

From Monday's Daily.
 Mrs. J. F. Brendel of Murray came up this morning from her home to visit for a few hours here with friends.
 Moses Hiatt and wife came up last evening from Murray and will visit here with their son Charles for a few days.
 John Hale and daughter, Mrs. May Patterson, who have been here for a few days visiting at the home of William Hale, departed this morning for their home at Hamburg, Iowa.
 Mrs. Joseph Smith and son, Charles Green, departed this noon for Kansas City in response to a message announcing the approaching death of Mrs. Williams, a daughter of Mrs. Smith, who has been quite sick for some time.
 Miss Mary Moore of Murray passed through this city Friday en route to Cedar Creek, where she will take up her school work for the coming year. She called at this office and ordered a copy of the paper sent to Walter Hesselow, at Randolph, Neb., for six months.

Death Caused From Mouse-o-cide

Says Hornick, More & Porterfield, Wholesale Drug Company of Sioux City, Iowa

On April 1 a representative of the MOUSE-O-CIDE CHEMICAL MFG. CO., placed their exterminator throughout our warehouse; since that time we have not had any rats or mice of any description.
 Before using same we had considerable goods destroyed annually by rats and mice.
 Mouse-O-Cide can be obtained from F. G. Fricke & Co., Druggists, the Rexall Store, Plattsmouth, Neb.
 It requires no mixing. No odor after death, cats and dogs will not eat it, cannot be carried away. 25c and \$1.00 sizes.
 Remember the name, "MOUSE-O-CIDE."

Stork Visits in Plattsmouth.

From Monday's Daily.
 Our thriving little city received an addition to its population last evening when the stork descended in its flight across the country and visited the Mike Rabb home, as well as that of Harry Poisal and wife. At the Rabb home a fine new son was left, and the little man is a fine, bright, healthy youngster of regulation size and is the cause of much rejoicing to both the parents. Mr. and Mrs. Poisal were presented with a winsome little Miss who will adorn their home in the future and prove a source of much joy to her parents.

WAHOO MILL'S FLOUR VERY POPULAR IN PLATTSMOUTH

C. L. Mielenz, the manager of the Wahoo flouring mills, was in the city yesterday looking after the interests of his firm, which has become quite extensive in this city during the last few years, as there is a large demand for the output of the mill here. The Wahoo mills are the manufacturers of the celebrated "Forest Rose" flour, and the constantly increasing demand for their flour is proof of its excellence. Mr. Mielenz states that the mill has made every effort to put before their patrons the best flour on the market and are constantly striving to make the standard of the flour the best on the market. The "Forest Rose" brand of flour is sold by all the leading dealers in groceries and the manufacturers have established the policy of either giving perfect satisfaction or the money of the purchasers will be returned, and as a result their trade has greatly increased.

LAWRENCE STULL GETS JUDGEMENT AGAINST THE BURLINGTON FOR \$549

From Wednesday's Daily.
 In the county court yesterday the case of C. Lawrence Stull vs. the Burlington railroad company, came up for hearing. The suit is for the loss of two hay stacks burned in 1911 and last fall and for the killing of a heifer calf about four years ago which it was alleged, was struck by a train of the defendant company. The court after hearing the evidence offered by Mr. Stull, gave a judgment for \$549 in his favor. The Burlington will appeal the case to the district court and offered no evidence in the case yesterday although represented at the trial by counsel.
 Petition was filed today in the county court for the probate of the last will and testament of William Ost, deceased, one of the prominent farmers of the south part of the county. The estate is quite a large one and it is thought will be worth from \$75,000 to \$100,000, as Mr. Ost was the owner of much land in that section of the county.

In the estate of Horace A. Phillips, deceased, held yesterday, Hon. S. H. Buck, of Berlin, Nebraska, was named as executor. The deceased was a former resident of Otoe county but a short time ago removed to Cass county where he died.

From Wednesday's Daily
 The office of the district clerk has been quite busy with the different applicants for naturalization papers as the limit set by the law is September 27th and all those who made their declaration of intention to become citizens prior to the passage of the new law in 1906, must file for their second papers before that date or the old papers will be valueless.
 William Schneck, a resident of near Elmwood, has filed his application for his second papers. He is a native of Germany and came to this country in 1882, and has decided that he will become a full fledged citizen of this glorious republic.
 Johannes Scheurer, also a native of Germany, has fore sworn all allegiance to William II. and will be numbered among the American citizens. He resides near Cedar Creek.
 Matt Sulser, one of the prominent farmers near this city has also cast his lot among the citizens of the United States, and is one of the first to apply for papers here who has not been a subject of the crowned heads of Europe as he is a native of Switzerland. He came to this country in 1881, and has for years resided in this county.

MRS. HEROLD ENTERTAINS THE ST. MARY'S GUILD

From Wednesday's Daily.
 The St. Mary's Guild of St. Luke's church met yesterday afternoon at the home of Mrs. Henry Herold, on North Fourth street, at the first meeting of the fall and winter season, and the ladies spent several hours in the discussion of the plans for the coming year's work and in talking over the plans for the annual bazaar which has grown to be very popular in this city. During the course of the afternoon very delicious refreshments were served to the company by the hostess, assisted by Miss Barbara Gering and Mrs. A. L. Tidd, which served to add much pleasure to the profitable afternoon.
 Mrs. Julia Thomas, who has been here for a few days visiting her daughter, Mrs. Monte Franks, departed last evening on No. 2 for her home at Glenwood. While here Mrs. Thomas ordered the Old Reliable sent to her address and will keep posted on the doings in Plattsmouth.

A NEW FIELD OF LABOR FOR T. H. POLLOCK

Resignation of District Manager of the Telephone Company, Takes Effect Monday

From Wednesday's Daily.
 The resignation of Mr. T. H. Pollock, district commercial manager of the Lincoln Telephone and Telegraph company, has been tendered to the officials of the company to take effect the 15th of the month. The reason for the resignation is due to the fact that Mr. Pollock will in the future be located in Omaha where he has opened an office and will be the distributor for the state of Nebraska and western Iowa for the Henderson automobile, and his headquarters will be at 2218 Farnam street where he will have the cars on exhibition. The Henderson is one of the biggest sensations in the line of automobiles that has been manufactured in this country as it is a kerosene using machine and does away with the use of gasoline and has been very successful in all tests that have been made of it throughout the country. The Henderson auto is manufactured at Indianapolis, Indiana, where the use of the machine has become quite extensive. The Henderson auto with the use of kerosene at 8c a gallon is considerably cheaper to maintain than the gasoline using machine and the kerosene at the same time possessing more lubricating strength saves the automobile owner much in the cost of lubricating oil as it cuts this item down almost one-half. The Henderson car was placed recently in a tour with a number of machines and throughout the trip from Indianapolis to Los Angeles maintained its speed with the other machines and arrived at the finishing point at the same time with the gasoline cars. For these machines a special carburetor has been manufactured and it has solved the difficulties that have been experienced in the past with the attempts to secure a successful kerosene burning car and the Henderson now has the distinction of being the first successful machine on the market with the kerosene using engines.
 Mr. Pollock will continue to make his home in this city for the present at least, going to Omaha and returning each day to look after the interests of his business, and his estimable family will continue to be residents in this city which will be most pleasing to their many friends and Mr. Pollock will take the best wishes of his friends here with him in his new business venture.

APPLICATIONS BECOME QUITE FREQUENT FOR NATURALIZATION PAPERS

From Wednesday's Daily
 The office of the district clerk has been quite busy with the different applicants for naturalization papers as the limit set by the law is September 27th and all those who made their declaration of intention to become citizens prior to the passage of the new law in 1906, must file for their second papers before that date or the old papers will be valueless.
 William Schneck, a resident of near Elmwood, has filed his application for his second papers. He is a native of Germany and came to this country in 1882, and has decided that he will become a full fledged citizen of this glorious republic.
 Johannes Scheurer, also a native of Germany, has fore sworn all allegiance to William II. and will be numbered among the American citizens. He resides near Cedar Creek.
 Matt Sulser, one of the prominent farmers near this city has also cast his lot among the citizens of the United States, and is one of the first to apply for papers here who has not been a subject of the crowned heads of Europe as he is a native of Switzerland. He came to this country in 1881, and has for years resided in this county.
 S. L. Wiles and Luke L. Wiles were passengers this morning for Fremont, where they will visit the big farmers' show being held in that city this week.

UNION MEETING A GREAT SUCCESS

From Monday's Daily.
 The union meeting of the Young Peoples' societies of the various churches of Plattsmouth last evening at Garfield park was one which was very pleasing to those interested in the work of these church auxiliaries, and not alone for the good meeting and attendance, but for the spirit of unity and harmony which prevailed during the meeting, and all arrangements leading thereto. The theme obtained that the young peoples' societies of Plattsmouth could make a better city here if they would only put their shoulders to the wheel.

E. H. Wescott presided at the meeting, and with the excellent singing, in which Don C. York led, the meeting was one of enthusiasm. Miss Pearl Staats read the lesson, and the first speaker was Rev. Lorimer, whose subject was "Loyalty to Christ," and his able talk was well received. He was followed by P. F. Rhin, who made an exceptionally strong address.

Prof. Eggenberger, who at this time first appeared before a public audience in this city, spoke on "Thoughts of Unison," which was very able and pleasing to the audience.

D. C. Morgan spoke on the "Opportunities for Service," and his address was an excellent one, as were also those of Mrs. C. C. Wescott, which was also followed by Mr. C. C. Westcott, both making a fine talk. When it came time for the solo, which Don C. York was to render, it was so dark that the music could not be seen and that number was omitted.

Miss Myra Stenner, who gave a reading on the "Burial of Moses" rendered one of the most pleasing and to the point numbers of the evening pleasing to all the hearers.

The last speaker was M. S. Briggs, whose subject was "The Trial Balance."

C. L. Wiles, Carl Cole and Ray Cole were passengers this morning on No. 15 for Fremont, where they will attend the farmers' meeting and exhibition in that city and inspect the working of the gas tractors, with a view of securing one for use on their farms.

BOOK TO BE PUBLISHED ON HIS EXPLORATIONS IN THIS STATE

From Saturday's Daily.
 Friedrich H. Sterns, who has been investigating the ancient mines and other pre-historic evidences in this vicinity, broke camp Monday evening and departed for Weeping Water, where he will continue his work. Mr. Sterns is connected with the Peabody institute of Cambridge, Mass., and expects to leave for the east in a short time, when he will classify the specimens he has obtained during the summer and prepare for the publication of a book of his explorations in Nebraska. Mr. Sterns camped for a number of weeks among the bluffs along the Missouri river, a few miles east of here, and while there excavated two house ruins from which he took something over 450 pounds of material. —Nehawka News.

YOUNG LADIES' PICNIC SUNDAY AT FOUR MILE CREEK

From Monday's Daily.
 Yesterday morning a party of young ladies belonging to the St. Agnes Sodality, equipped with well filled lunch baskets, departed for Four Mile creek, northwest of this city, where they were to spend the day. The picnic will long be remembered by the young ladies as a most enjoyable event and there was not a thing to mar the fun of the day, which was spent in playing games and bathing in the cool, refreshing waters of the creek, and at the noon hour a sumptuous repast was spread in the shade of the trees, to which all did ample justice, but the amount of good things to eat was so great that there was enough left to furnish supper for the jolly crowd, and the sun had long since hidden his head before the party wended their way homeward, tired, but filled with the enjoyment of the day. Those in the party were: Misses Marie Svoboda, Tony and Agnes Janda, Marie and Lillian Novotny, Marie Jelinek, Sophia Chaloupka, Marie Nesladek, Marie and Mathilda Donat, Edith Toman, Mary Semerad.
