### JUDGE JAMES T. BEGLEY POPULAR WITH OUR PEOPLE

The more one sees of James T. Begley, the new district judge, the more one is impressed that Governor Morehead made no mistake in selecting this gentleman for the position which was filled so ably by the late Judge Travis, and the clear, able manner in which he assumed the duties of his office marks him as a man of exceptional ability, and we are willing to predict that the people of the Second district will find him one of the best judges that ever set on the bench and one of the fairest and most impartial. The judge brings to the bench all

the strength of a young man and can handle the business of the district in a manner that will be a credit to himself, as well as to their residents of the three counties which comprise his district.

### GETS NOISEY AT THE BURLINGTON STATION

One of the inhabitants from the Iowa side of the river bottom yesterday afternoon created quite a disturbance at the Burlington station while he was waiting for No. 2. The man had been accumulating a great deal of liquor evidently from his actions and had gathered a large crowd of the small boys who carry papers around him and was having much sport with them, when he became enraged at some remark one of the boys made and proceeded to make an air blue with his profanity and the threats of what he would do to the lad, and so no one appeared to pay much attention to him he became even bolder and finally Deputy Sheriff Manspaker, who was at the station, called the gentleman down and warned him to shut up before he found himself in jail, which the gentleman did and managed to make his getaway back to his home without getting into further trouble.

**VERIFY IT**  
The Proof is in Plattsmouth, Almost at Your Door.

The public statement of a Plattsmouth citizen is in itself strong proof for Plattsmouth people, but confirmation strengthens the evidence.

Here is a Plattsmouth citizen who testified years ago that Doan's Kidney Pills relieved weak kidneys and now states the result was permanent. Can any sufferer from kidney ills ask better proof? You can investigate. The case is right at home.

Herman Tiekotter, contractor, Ninth and Day streets, Plattsmouth, Neb., says: "My kidneys caused me much trouble and there was a dull, tired feeling across my loins. If I stooped or straightened, my back hurt me and in the morning I was all tired out. I heard so much said about Doan's Kidney Pills that I finally got a box. They promptly relieved every symptom of the complaint. At that time I publicly endorsed Doan's Kidney Pills and I am now glad to confirm all I then said. The trouble has never returned."

**Ten Special Points of Excellence Found Upon Racine Sattley's New Stawana Gang Plow**  
The Plow with the "AUTOMOBILE STEERING GEAR"  
Please Note All Are Exclusive Features Not Found on Any Other Plow Made.

- First—Steering Gear.**  
Automatic style direct and position, no springs—allows the plow to turn at right angles, either to the right or left, prevents sliding of the front land wheel and takes all strain from same when turning. Every time the front furrow wheel turns either way the front land wheel is forced to turn in exact unison.
- Second—Hitch.**  
Two horses on EACH SIDE of the pole, regular farm wagon eveners, no patent equalizers needed. Center of draft lies exactly between the two teams, permitting them to walk as straight and naturally as though they were hitched to your old farm wagon.
- Third—Land Wheel.**  
Front land wheel is set directly opposite the front furrow wheel, the arm holding same being at the extreme front corner of the frame. The land wheel is set at an angle or inclined in at the bottom, same as the furrow wheel.
- Fourth—Side Draft.**  
This construction "Hitch and Land Wheel" secures greater leverage in controlling the course of the plow and does away with ALL SIDE DRAFT.
- Fifth—Control.**  
The tongue controls all three wheels by placing the land wheel at the extreme front of the frame, enables us to connect it direct to the tongue post.
- Sixth—Single Bail.**  
Beams and bottoms being hung in frame on one bail gives this plow a flexible floating bottom
