NEW RESIDENTS COMING IN DAILY

Plattsmouth on the Boom and New People Coming to Town to Make Their Home.

From Friday's Daily.

Plattsmouth is to receive a new addition to the already growing list of persons who are coming to this city to make their home, as William D. Reed and family of Milburn, Iowa, will move to this city, Mr. Reed having purchased the residence property of E. L. Finch on West Elm street, known as the Pepperberg place, and will remove as soon as possible to this place.

Mr. Reed owns and expects to operate in this city a large first-class popcorn and peanut wagon of the most modern style, and having been successful in this line of business in Iowa, thinks the field here looks most flattering for an opening of this kind. He is a gentleman of considerable means and will make an excellent citizen and he and his family will receive a cordial welcome here. Mr. Finch, the late owner of the place, will look around for a new location here, as he likes Plattsmouth very much and has no desire to move away.

Mr. A. C. Bartlett, a brother-in-law of Mr. Finch, from western Iowa, has just purchased the Adam Stoehr farm, west of this city, and will move here as soon as Mr. Stoehr can secure possession of the John Gorder farm, which he has purchased and which he will farm in the future, and as soon as Mr. Gorder can make arrangements for his removal to this city the changes will be made in these farms and this section will be the gainer of two excellent families. The addition of these new families, who come here and purchase homes in which they expect to reside, is a very pleasing sign of the growth of the city and the country surrounding, and the new residents will soon become vital factors in the life of the community, and as they continue to reside here they will find out that they made no mistake when they came to this city to make their home, as Plattsmouth is without doubt the best town of its size in the state and its people the best on the face of the earth, and this can be verified by asking those who have lived here for any length of time.

County Commissioners Meet.

From Tuesday's Daily.

The board of county commissioners this morning met in regular session at the court house, with all three of the commissioners in attendance. The morning session was largely taken up with the discussion of routine matters and the allowing of the various claims against the county.

THE WAY TO KEEP SWEET POTATOES FRESH AND SOLID THROUGH WINTER

Superintendent W. S. Askwith of the Masonic Home brought to the Journal office a fine fresh sweet potato and asked the opinion of the Journal as to the fine manner in which it was preserved, and the editor was greatly surprised when the genial superintendent informed him that the potato had been buried in 1912 and that he had just dug it up, and the potatoes were as fresh as those that had been put away this season. The secret of preserving the potatoes, so Mr. Askwith informs us, is in burying them in good dry sand, which keeps them perfectly fresh and does not allow them to sprout or grow, but at the same time keeps them in good shape for use. He has just put down a large amount of sweet potatoes for the use of the Home, and the residents there can expect to enjoy sweet potatoes that are well perserved and in good shape during the winter season. To make potatoes absolutely safe it is necessary to have the sand in which they are buried absolutely dry and free from moisture.

DR. D. D. PALMER DIES IN LOS ANGELES, CALIF.

From Friday's Daily.

The sad news has just been received in this city by Mrs. Thomas Wiles and Mrs. H. C. Van Horn of the death a few days ago of their brother, Dr. D. D. Palmer, at his home at Los Angeles, California. Dr. Palmer had the distinction of being the founder of the science of Chiropratic, and despite his advanced age, he had maintained a very active life and never lost his grasp on the progress of events, and lived to see the science he had established grow into enormous proportions. He leaves, besides his wife, one son, B. J. Palmer, who will carry on the work of the father at the home of the science at Davenport, Iowa.

Takes Patient to Hospital.

From Tuesday's Daily.

Dr. G. H. Gilmore of Murray autoed to the city this morning, and took the train for Omaha, where the youngest daughter of Mr. and Mrs. Jesse Pell went with him and will be placed in the hospital, or rather, consultation will be held with a specialist in regard to treatment for a skin trouble from which the young lady has been suffering. Mr. Pell went up from Union.

For Plattsmouth Guests.

From Tuesday's Daily.

Mrs. T. L. Kimball and Miss Kimball entertained delightfully at an informal tea Saturday afternoon at their home in honor of several guests from Plattsmouth, including Mrs. George E. Dovey and three of her daughters, Miss Katherine Dovey, Mrs. George Falter and Mrs. R. E. Patterson, and for Mrs. White and her daughter, Mrs. Haller. About eighteen guests were present. Following the tea they had dinner at the new Hamilton with Mrs. George Holdrege, Miss Leeta Holdrege and Dr. and Mrs. R. R. Hollister and Mr. Jack Falter of Plattsmouth. The guests motored home Saturday evening.—Omaha Bee.

WOULD NOT LEAVE TOWN AND ARE NOW IN THE "LIMBO"

From Tuesday's Daily

Yesterday the sheriff was notified that the Broadwater family, who were supposed to have left the community, had not gone very far, but had located themselves at the Stull farm, north of this city, and as soon as the information of their whereabouts was received the sheriff went out and brought them in to stand punishment for the offense preferred against them, as was stated in last evening's Journal. The parties were very much agitated over the prospect of being placed in jail, but they were taken over to the county bastile to await the outcome of their case. It is thought that the matter could be settled easily by their leaving town, as they promised to do, as the fact that the jail here has no female ward makes it a hard matter for the sheriff and jailor to dispose of the woman in the case, who is the chief offender against the peace and dignity of the community.

CLARENCE BEAL MAKING A BIG HIT IN FOOT BALL

From Tuesday's Daily.

The many friends here of Clarence Beal will be pleased to learn that this young man is making a great hit as quarterback on the Peru Normal foot ball team. Clarence was one of the stars in the game played in that place Saturday, and the reports from the game speak of him very favorably. While playing base ball Clarence demonstrated the fact that he was a fast player on the diamond and was one who had his head with him at every stage of the game, and that he has made good on the foot ball team at Peru is no surprise to his friends here.

CAL STEWART IN "RUNNING FOR GOVERNOR" LAST EVENING

From Tuesday's Daily.

The presentation of "Running for Governor" by the company headed by Cal Stewart, the clever American comedian, at the Parmele theater last evening, drew a large house, which was very much pleased with the clever manner in which the play was given by the excellent company. "Running for Governor" is a light rural comedy with just enough of a plot to make it interesting to the audience, and the comedy is written with a view of giving the talents of Mr. Stewart full scope for their action, and his appearance in this play is most pleasing. E. V. Faulhaber, who appeared in the role of Bud Taylor, was very pleasing, and in his specialties, which were in the nature of musical numbers, he was splendid and received a great ovation from the audience for his fine singing, and his voice is one of the best that has been heard here this season. Miss Rosinni Waugh as Virginia Lee, was very charming and winsome in her part, and in her violin numbers in the vaudeville specialties was most pleasing indeed to the large audience. The whole company was a good one and to enumerate the different members of the company is impossible, but it was a very pleasing show and there was hardly a person in the audience who did not enjoy the performance.

The Journal does job work.

NEW CITIZENS STILL COMING TO PLATTSMOUTH

From Tuesday's Daily.

Another new citizen is to be shortly added to the list of those who claim Plattsmouth as their home, as P. Balsor of Farnam, Nebraska, has just closed the deal for the purchase of a fine seven-room cottage on Locust street, opposite the residence of John Waterman, and in a short time will move here with his family to make their home in the future.

The deal was made through the Windham Investment and Loan company of this city, and they are greatly pleased, not only in making the sale, but also in securing a well-to-do citizen who will make his home here in the future. This is another pleasing sign that here is to be found the ideal home town of the state, and that they would do well to locate here to reside, where the splendid school system gives their family an opportunity to acquire as good a High school education as anywhere in the state of Nebraska, and the up-to-date business houses will compare more than favorably with the other towns of the same size. Mr. Balsor will find that he has located in the best town in the state, and among the best people that can be found anywhere on the face of the globe. There are quite a number of out-of-town parties figuring on moving here in the near future if they can find suitable locations, and it is to be hoped they will carry out their intentions.

Buys New Residence.

The property of J. V. Hatt, located near the Columbian school building in the south part of the city, has just been disposed of by Mr. Hatt to Floyd Rainey of Lincoln, who purchases it for his mother, who will make her home there. The property is within easy walking distance of the business part of the city and will make a very pleasant home for Mrs. Rainey.

In acute cases our results are marvelous, quick and positive.

The accompaning illustration depicts a human spinal column, surmounted with the grandest handiwork of the Creator, the head, through which passes a conduit—the spinal cord—carrying the vital force—Life.

Two sections of the column are enlarged, showing two nerves leaving the spinal cord on their way to some organ within the body. See the difference in the size of the nerves. The large one is the health-giving one; the small one disease in the organ in which it ends. If you are suffering or ailing, you have one of these, caused by luxation of the vertebrae.
