## 'THE LAST DAYS OF POMPEII' AT THE PARMELE TOMORROW NIGHT

George Kleine's photo drama production of Bulwer Lytton's idyllic love story, "The Last Days of Pompeii," is one of the most alluring and beautiful achievements of the age in the new realm of photography. The subject is full of opportunities for glorious pictures and none have been missed. Made in Italy, it bears the perceptible impress of that rare artistic spirit that so thoroughly characterizes the Italian producer. All the main episodes of Bulwer's story are reproduced with marked fidelity and the spectator is pictorially introduced once again to Nydia, the blind flower girl; Glaucus, the handsome Greek; Ione, the beautiful Athenian; Apocides, her brother; Arbaeus, the wicked Egyptian priest of Isis and nemesis of the lovers; Stratonice and Barbo, the keepers of the tavern, who so cruelly treated Nydia until Glaucus purchased her from them; the sorceress of Vesuvius, who supplied the terrible potion that almost destroyed Glaucus' reason, and in fact to all the various characters who served the brilliant Bulwer Lytton to revive the memories of one of the gayest ancient cities of the world in a novel of absorbing interest and literary beauty. "The Last Days of Pompeii" will be the attraction at the Parmele theater tomorrow (Friday) night. Prices, 10, 15 and 20 cents.

The big Christmas shop of the St. Mary's Guild will be held in the Hotel Riley block on Friday and Saturday of this week and all sorts of dainty articles for presents may be secured here.

## ONE GAME OFF HOME FIELDS

Move in Missouri Valley That Will Permit Big Contest in Omaha.

Lincoln, Dec. 4.—A meeting of the heads and governing boards of universities in the Missouri valley conference has been called for Lincoln, Jan. 19, to consider the problem of allowing one football game each season to be played off a university campus. The meeting has been called as a result of Kansas alumni in Kansas City, who have petitioned Chancellor Strong of the University of Kansas to have the annual Kansas-Missouri game moved to Kansas City. The proposition interests Nebraska inasmuch as Omaha, having probably more graduates than any place in the state, has frequently petitioned to have one game played in that city. Other minor matters may be considered at the Lincoln meeting.

## ARTHUR FARMERS TO UTILIZE CROP WASTE

Plan to Construct Denatured Alcohol Factory.

Lincoln, Dec. 4.—According to information received by the state board of agriculture, farmers in Arthur county are preparing to prevent waste on the farms in that region by utilizing potatoes that cannot be marketed. Many of the producers of Arthur county are far removed from a suitable market. For this reason thousands of bushels of potatoes are wasted each year. The farmers have conceived the idea of manufacturing denatured alcohol from the waste. Twenty-five farmers have banded themselves to gether to erect a denatured alcohol factory. A change has been made in the denatured alcohol law and after January, 1914, farmers are allowed the privilege of manufacturing the product from the waste of the farm. It is estimated that denatured alcohol can be made from potatoes at a cost of between 20 and 25 cents a gallon.

## SEEK CHANGES IN BRIDGE LAWS

## COUNTY CLERKS IN SESSION

Discuss What They Consider Error in Having State Furnish Office Supplies—Assert Books Are Poor and They Want Better Material.

Omaha, Dec. 4.—By a unanimous resolution passed by 350 county commissioners and supervisors in convention in Omaha, amendments to the present state laws are to be insisted upon that will change the procedure in building bridges, and reduce the tonnage capacity required of the bridges. Michael Caves, commissioner of Boone county, introduced the resolution. He spoke for it at some length, pointing out that the state requires bridging of a twenty-ton capacity, while in most parts of the state bridges of that capacity and cost are not at all necessary. Perhaps a dozen men spoke in favor of the resolution, while no one defended the present laws on this subject.

The resolution points out that the twenty-ton requirement for the bridges is a hardship on the taxpayers of the various counties, as few of the counties need bridges of that strength. The resolution bound the commissioners to insist on legislation that would allow bridges to be made of a reasonable capacity for the various counties, according to their respective needs. The second part of the resolution complained of the new law which takes from the commissioners the power of ordering the plans drawn for bridges of over \$500 in cost and places this work in the hands of the state engineer, allowing him to receive bids and let the contract. The resolution bound the commissioners to seek an amendment through the next legislature that would give the county the power to secure its own plans and specifications where it pleased.

Work of County Clerks. The County Clerks' association debated what they consider the error in the present system of having the state furnish the supplies of tax lists, assessors' books, and other blanks for the offices of the county clerks throughout the state. The matter was left to a resolutions committee. A resolution favoring the abolition of the present system of obtaining all office supplies from the state printing board was introduced, but instead of coming to a vote, was allowed to rest until the regular resolutions committee reports. It was argued that under the present system the state printing board lets the contract for printing the state supply of county books to the lowest bidder, with the result that the books are so poor that they fall to pieces, and the paper is so poor that one can hardly write on it. Also it was argued that since every county requires a little different form of tax lists and other blanks on account of varying conditions, it is not well to have a uniform set printed by the state and forced upon all counties. Many of the counties are buying their own blanks and lists even though the state is furnishing a set, because they want good material.
