## POSTMASTERS CHANGE NEXT MONDAY MORNING

Splendid Official Steps Down and Out, and We Truts Just as Good Takes His Place.

From Friday's Daily.

The change in the postmaster-ship at the local postoffice, which has been in view since the announcement of the confirmation of D. C. Morgan, will probably take place on Monday, as it will be the beginning of the new month, and Postmaster Schneider, who has filled that office for the past three years, will retire in favor of Mr. Morgan.

There has been few persons holding office in this city whose retirement will be felt greater than that of Mr. Schneider, who during the time he has served as postmaster has always been the same courteous gentleman every day in the year and the patrons of the office have received at his hands every attention, and he can lay down the reins of office feeling that he has filled it in a manner that is not only a credit to himself, but to those who have had business to transact at the postoffice, and he has always exerted himself to the utmost to see that the service given the people was the best possible. Mr. Schneider, in addition to being an able official, has also been one of the liveliest propositions in the way of boosting for the advancement of the city and its interests and there has been no task too difficult for him to undertake if he felt that it was for the best interests of Plattsmouth and its people, and his friends are hopeful that he may decide to engage in business here and continue to make this city his home, as his removal would be a severe loss of a good live booster, as well as a most pleasant gentleman. He has, during his administration of the office as postmaster, worked for the advancement of the office and to place it in the most efficient working order, and while in some instances he may not have reached the desired end, he has always done his utmost to improve the service, and his successor, if he fills the position as well, may feel satisfied he has done his duty in the fullest sense of the word.

## TIME TO THINK ABOUT NEW WORK

In Two Months Season for Improvements Will Arrive and We Must Prepare for It.

Now during the winter months the Commercial club of the city should begin to outline their plans for the work of the summer months in the way of providing entertainment for the visitors to the city and making them feel it was worth their while to come here to trade.

It is essential to the welfare of the town that there be something of this kind provided, as if some effort is not made in the direction of entertainment, the residents here, as well as in the country surrounding, will seek places where this can be provided.

The great and unqualified success of the special days that have been held here points the way clear to making a success of the effort to draw here the residents of this section of the county and there has been no celebration or special event that has not brought hundreds here who would probably otherwise seek a large or more attractive place to shop and make their trading point. Even the concerts given here by the Burlington band gave great pleasure to a large number of the country people who drove here in their cars to enjoy the delightful music, and took advantage of the occasion to do their trading and shopping here.

The time to arrange these special features of the summer season is during the winter months when everything is slack and business men can give their attention to these matters and prepare a program of events to keep the interest of the citizens in the old town fully aroused in its advancement, and first among the matters to be considered is that of arranging for a celebration of the Fourth of July, which is the big day of the year, and even now our neighboring city of Auburn is agitating this question and if it is really desired to hold a celebration here the ball should be started rolling now.

## GEORGE POISALL IMPROVING UNDER TREATMENT AT KANSAS CITY

From Friday's Daily.

The many friends of George Poisall in this city will be greatly pleased to learn that he is feeling much better since going to Kansas City, and he is receiving great benefit from the treatment at the hands of the specialists there. Mr. Poisall has not been in good health for the past year, but during the last few months he has suffered greatly with stomach trouble and his condition was a source of a great deal of worry to his family, but since going to Kansas City he has gained four pounds in weight and is able now to eat almost anything he desires, which seems to point to his improvement, as when here he was not able to retain much food on his stomach. It is generally hoped that this worthy gentleman will soon be able to return to his home here feeling a great deal improved in health, and his large circle of friends will await with interest any news from him.
