## OSBORN ACQUITTED OF ILLEGALLY SELLING LIQUOR

From Friday's Daily.

The much-discussed case in which Oliver Osborn was the defendant, charged with having sold whisky to Sandy Andrews, is now numbered among the things of the past, and the interest which was aroused over the matter has subsided, as Justice Archer yesterday afternoon handed down a decision in favor of the defendant and dismissed the case without further consideration. There was much conflicting evidence in the case and both the complaining witness and the defendant gave testimony that was directly opposite from what they otherwise would testify to, and it left the case where it was merely a question of which could be believed. These kind of cases are very disagreeable to handle, both for the court and the attorneys involved, as there is always a grave doubt as to which is right in the matter. It is to be hoped that this will be a good lesson to all that will not be forgotten in the future and both can avoid the pitfalls that are likely to get them into trouble. One of the features of the case yesterday was the testimony of "Dr." H. M. Young, who proved a star for the defense.

### A New Flint Mine.

An ancient flint mine has been discovered a few miles west of Nehawka by A. A. McReynolds of that place. While it is not so extensive as others in that vicinity, of which there are seven, it is an interesting find. These mines, composed of over 300 separate and distinct pits, and an area of something like 15 acres of surface actually quarried, comprise an area where at some time (how long ago no one knows) a vast amount of work was carried on in procuring the flint used by pre-historic man as weapons. These diggings are of a very great age and a well known archeologist has ventured to say that they were worked before Columbus ever saw America. An oak tree nearly three feet in diameter, which is growing from one of the pits, is only one of many bits of evidence which mutely testify to their great age.

### Departs for California Home.

From Saturday's Daily. This morning Ernest E. Wurl departed for Omaha, from where he will leave over the Union Pacific for his home at Long Beach, California, after a visit here of a few weeks with his mother and other relatives. The floods and storms in southern California, which have caused such destruction, has caused Mr. Wurl to hasten his return to his home.

## PECULIAR CASE TO BE SETTLED IN THE PROBATE COURT

From Saturday's Daily.

A suit entitled Allen Anderson and Signe Anderson vs. Edward Swanson as administrator of the estate of Carl Molin, deceased, and Axel Nelson, has been filed. The plaintiffs allege, among other things in their petition, that Carl Molin was a bachelor at the time of his death, and he did not have any wife or next of kin surviving him. The deceased was a close friend of the plaintiffs, they claim, for the past eighteen years, and had always regarded them with deep affection and kindness, and in August, 1905, he entered into a verbal agreement with the plaintiffs by which they agreed to board and care for him during the rest of his life, and to see that he received a Christian burial at his death, and in return the deceased agreed to leave all his property, real, personal and otherwise, to them. They claim he had known the plaintiff, Signe Anderson, since babyhood, and had felt a deep affection for her and desired to remember her. While away from home temporarily Molin was taken ill and died at South Bend, this county, and was buried before the news of his death was received by the plaintiffs, who reside in Dodge county. They ask that a just and equitable adjustment of the matter be given them and that the administrator be not allowed to grant the claim of Axel Nelson for \$1,950 for looking after him during his last illness.

## FUNERAL SERVICES OF LITTLE EDNA WARTHEN

From Friday's Daily.

Edna Elvorna, only child of Roy and Eva Warthen, was born July 1, 1912, departing to be with Jesus, February 18, 1914, after an illness of about seven weeks. The funeral services were held yesterday afternoon at the home of the grandfather of the child, Mr. M. Stiles, and were conducted by Anna L. Dreyer of Tabor, Iowa, pastor of the South Park Holiness church. The pastor took for her text the words: "It is well with the child." It is well. Scripture reading, Lam. 3:23-36. Friends and relatives gathered to gaze for the last time on the sweet face. Interment will be made at Palmer, Nebraska, where the body was taken this morning.

### Card of Thanks.

We desire to take this moment of expressing our most sincere thanks to the many neighbors and friends for their kindly assistance and floral offerings at the time of the illness and death of our beloved baby daughter and granddaughter.

## Former Resident of Cass.

Mr. J. V. Pitman of York, Nebraska, is in the city today looking up old acquaintances and friends, also meeting new ones. Mr. Pitman was born and reared in Cass county, but left here about eighteen years ago with his parents, moving to York, where they have since resided. About twenty years ago he was in the employ of Mr. Henry Boeck, who was then in the county for the past week in the interest of the I. O. O. F., in which order he holds the position of grand patriot of the grand encampment, and will remain a couple of days. He was a pleasant caller at the Journal office this afternoon, and we found him to be an excellent gentleman in every particular. He is a nephew of J. W. and Andrew Pitman of south Cass county.

## SUCCESS PREDICTED FOR THE RAINEY MAIL CATCHING DEVICE

The great success that seems in store for the Rainey mail catcher, the invention of Floyd Rainey, a former Plattsmouth boy, is told by Henry F. Goos of this city, who was present at Chicago on the test of the invention a few days ago. Mr. Goos accompanied the party of Iowa and Nebraska capitalists who journeyed to the Windy City on No. 12 over the Burlington, occupying a private car, and everyone in the party were delighted with the showing made by the device on its test, which was held, as stated by Mr. Goos, on the line of the Chicago and Junction road, where tests were made at speeds of from seven to forty miles per hour, and in every instance the catcher secured the mail sacks with ease, and the faster the train was running the greater seemingly the ease with which the device worked. There was a stretch of some two miles of track which was used as the scene of the test, and everything moved with the utmost ease and smoothness that impressed everyone present at the test of the great possibilities that lay in the future of the invention and there was a great deal of enthusiasm felt over the outlook for the company that has taken up the task of promoting this new wonder in the field of mechanical devices.

## THE NEW FEDERAL GAME LAW IS NOW IN FULL FORCE AND EFFECT

There has been a great many inquiries received lately from the different hunters of the city and county in regard to the operation of the new federal game law as applying to hunting this spring in the state, as many of them had become confused as to the matter of the state law and the new federal game law, which is more strict in the matter of hunting. County Clerk F. J. Libershall addressed a letter of inquiry to Chief Game Warden Gust Rutenbeck at Lincoln to secure definite and positive assurance on the subject so that the hunters of the county could tell where they were on the proposition. Mr. Rutenbeck states in his answer that the federal law takes precedence over the state law in regard to this matter and that there can be no ducks, geese or other water fowl shot this spring in this zone covered by the United States game law. To assist in the carrying out of the law and to see that it is not violated the government has now six deputy wardens in the state who will see that there is no infringement on the provisions of the law protecting the water fowl. Those who have been contemplating enjoying themselves hunting during the coming spring would do well to pay heed to the law and its provisions.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by rebuilding the constitution and assisting the body in doing its work. The proprietors have so much faith in its curative powers that they offer the "Hundred Dollar" refund for any case that it fails to cure. Send for list of testimonials. Address F. J. ## WARM RECEPTION OF THE BOYS BY B. P. O. E. LODGE IN LINCOLN

From Saturday's Daily.

Yesterday afternoon District Deputy Dr. J. S. Livingston of the B. P. O. E., accompanied by several members of Plattsmouth lodge No. 739, made an official visit to Lincoln lodge No. 80, and the members of the party were enthusiastic over the manner in which they were entertained by the members of the Lincoln lodge. The guests were received most royally by the brothers of the lodge in the state capital and made to feel the true sense of the fraternal feeling of the order. After the session of the lodge a social time was enjoyed by the members and visitors and a sumptuous repast served to the gathering. One especially pleasing feature of the occasion was the fact that the exalted ruler of the Lincoln lodge is Frank E. Green, a former resident of this city, and he made the Plattsmouth delegation feel that they were right at home. Among those in the party besides Dr. Livingston, were: W. K. Fox, J. K. Pollock, T. S. Clifford, B. A. Gosencrans, G. C. White, H. F. Goos, F. M. Bestor, Arthur Eastwood and Cameron Cathey.

## REPUBLICANS WILL HOLD COUNTY CONVENTION AT WEEPING WATER MARCH 23

The republicans yesterday held a meeting in this city to discuss matters of interest to the G. O. P. in the county and to prepare an outline of the work of the campaign. It was decided to have the county committee issue a call for the primaries on March 13th for the naming of delegates to a county convention to be held in Weeping Water on Wednesday, March 18th, at which time the situation will be discussed from the standpoints of the different representatives and the plans for the campaign this fall outlined and discussed. Under the new primary law the old-time nominating conventions have been made a thing of the past and the people at the general primary select the men they desire to make the race for office on the different political tickets. One feature of the law that appeals to everyone by its non-partisan feature is the ballot for district judges, which does away with all political designation and merely the name of the two highest men at the primary appear on the ballot and the voter makes his choice of the men regardless of their political affiliation.
