

JOHN DEERE SPREADER

The spreader with the beater on the axle; there are no clutches to give trouble—no chains to get out of line and no adjustments to be made. All the strain and work of spreading is borne by the rear axle, and none of it is carried to the frame or body of the machine itself. It is simply a wagon when it is out of gear.

The John Deere has from 100 to 150 types of castings less than the simplest heretofore made. As the machine is low down, it only necessary to lift the manure 38 inches. This spreader has 4 set roller bearings—2 on the front wheels and 1 on each end of the beater shaft; the beater being mounted on the rear axle makes only one pair of bearings necessary for rear end. Call at your earliest convenience and see this spreader on our floor, and be convinced that the John Deere Spreader is the best the market affords today.

NO CLUTCHES! NO CHAINS! NO ADJUSTMENT!

G. P. EASTWOOD

HARDWARE (PLATTSMOUTH) IMPLEMENTS

mained with him from Tuesday evening until Wednesday morning, during the whole time of which he remained insensible. At this writing he is somewhat better and hopes are entertained of his ultimate recovery.

Bob Doom has gone to Texas.

Gen. Clark came back Tuesday to see us.

Harrison Smith of Rock Bluffs, good man, too, takes a Herald after this.

Prof. Wightman, the new principal of the High school, sends for the Herald. He is a "white man" sure.

Cap. Bennett is laboring for "free delivery" on express matter in town, with good chances of success. Hurrah for the Captain!

Doc Jones has a very handsome new carriage team—a pair of duns, large and stylish.

Schlutz, the Cedar Creek mills man, sends us some fine patent flour which we are to try and report.

Sierth, the well known miller, has been in town several days. He reports high water on the Weeping Water, but no great damage so far, to crops.

Our good old republican friend, Lloyd, of Mt. Pleasant, is going into the clerical business, he informs us, and will preach this fall from a text in Job which he has learned by heart. Success to Lloyd.

S. Twiss of Louisville paid us a visit and a very interesting one, too.

Andy McLaughlin has gone to Ohio on a pleasure and business trip, and will be gone about ten days.

We are sorry to learn that Mr. Jacob Hasemeier of Cedar Creek is very ill.

Mr. Polk was in town the other day and said he would give the news next time he came. All right.

Cap. Bennett informs us that on and after this date Wells, Fargo & Co. go out of the express business in this town and the American Express Co. put on a line. The result will probably be that we shall have a direct route across the river east and it will increase the business 50 per cent.

Our old friend and neighbor, John Simpson, is running express once more; from Junction to Junction. Good for John.

A carload of Texas cattle went east over the B. & M. Sunday morning. Keep it up, gentlemen, that is what western Nebraska is made for.

The next shoot is to be between H. J. Streight and Lon Cunningham on Thursday at \$50 a side. Keep it up, boys.

The county commissioners seem to have changed the order of the poor house medicinal program. Dr. Geo. Black is appointed medical attendant for the ensuing year.

The great sale of lots in Duke's addition will take place next Saturday. Now is the chance to get a lot cheap. Do not forget the sale.

Two sons of Prof. Wise, our city and county superintendent of schools, are visiting home for the first time in several years.

The city council, becoming tired of the "no fund" cry, has been punching up the treasurer to levy on the property of non-taxpayers and test the validity of last year's taxes. So on Monday the marshal began by levying on Mr. Dovey's hams, Tuesday he went for Geo. Fairfield, D. H. Wheeler, Jonas Buttery and Dr. John Black. Wednesday evening the streets were blocked every few paces by curious readers of the notices of sale posted up by Mr. Murphy. The gobbled Buttery's horses, Wheeler's carriage, Fairfield's light wagon and Dr. Black's horse and buggy. D. H. Wheeler left for Omaha Tuesday as soon as the battle began and got out a temporary injunction forbidding further levies until the main case could be argued before Judge Lake on Tuesday next. No matter what the decision may be, we may look for some fun when the property seized comes to be disposed of finally.

IN PLATTSMOUTH FORTY YEARS AGO

elected, in a county that had 700 democratic majority.

An excursion train of five carloads of excursionists passed through our town yesterday morning on their way to Kearney Junction. They came from Aurora, Ill., to take a look at our state, and we hope they may be so well pleased with it that they will come here to live.

We think Joe Shera is one of the best men in Cass county. We can't help it. Just as we were completely busted he came to our relief and set us on our pins again. J. & H. Shera are good business men, they keep a good stock, they sell right; go and see them and buy. At Rock Bluffs, Neb.

Uncle Schlager has got a new, bright, shiny express wagon. It is double-decked fore and after, with two rows of seats and pretty red stripes all round the hull. It sails over the crosswalks like a bird, and the old gentleman sits up as straight on the pilot house and steers her around town as proud as a new husband with his first baby.

We are pleased to learn that Dr. Waterman of Louisville is in a fair way to recover. He caught the smallpox in attending the Ryehart family. The Herald has

not said much about these cases for fear of useless alarm, but now we are authorized to state that all the family are improving and there is little danger of its spreading. One child died, however, before medical aid could be made available.

G. W. Young takes a Herald after this.

Ed Post of Eagle was in town hunting an eagle the other day; why hunt so far from Eagle?

Mr. J. J. Roberts, father of James and Joseph Roberts, was in town last week to see the boys and keep 'em straight.

A. McMurray of Waverly called at the new Herald office and left us a "good morning."

Wm. J. Burns, Great American Sleuth Endorses "The Deep Purple"

"I consider 'THE DEEP PURPLE' the most realistic presentation of the underworld that has come to my notice," was the assertion of Wm. J. Burns, the famous American detective, after witnessing Paul Armstrong's great success at the Lyric Theatre, during its metropolitan run last night.

Burns is not a theorist—but one who knows whereof he speaks from actual knowledge, gained from years of observation and experience.

"THE DEEP PURPLE" COMING TO PARMELE SATURDAY NIGHT

"The Deep Purple," by Paul Armstrong and Wilson Mizner. It is a big, gripping, virile play. It has for its background the underworld of New York. It tells the tale of men and women who have striven to regain the straight road, and whom former pals, crooked policemen and fate seem to combine against until one of God's own noblemen steps in and saves the day. This play is the play that caused the greatest expose of corruption in the annals of the New York police department. The drama that sent Lieut. Becker to Sing-Sing death house.
